DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

June 1, 2011.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), oir_submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: Environmental Monitoring Form.

OMB Control Number: 0579-0117.

Summary of Collection: The mission of the Animal and Plant Health Inspection Service (APHIS) is to provide leadership in ensuring the health and care of animals and plants, to improve the agricultural productivity and competitiveness, and to contribute to the national economy and the public health. The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, and the regulations of the Council on Environmental Quality, which implements the procedural aspects of NEPA (40 CFR 1500-1508). APHIS' regulations require APHIS to implement environmental monitoring for certain activities conducted for pest and disease, control and eradication programs. APHIS Form 2060, Environmental Monitoring Form, will be used to collect information concerning the effects of pesticide used in sensitive habitats.

Need and Use of the Information: APHIS will collect information on the number of collected samples, description of the samples, the environmental conditions at the collection site including wind speed and direction, temperature, humidity of rainfall, and topography. The supporting information contained on the APHIS form 2060 is vital for interpreting the laboratory tests APHIS conducts on its collected samples. If a sample was not accompanied by this form APHIS would have no way of knowing from which site the sample was taken. Failure to collect this information would prevent APHIS from actively monitoring the effects of pesticides in areas where the inappropriate use of these chemicals could eventually produce disastrous results for vulnerable habitats and species.

Description of Respondents: State, Local or Tribal Government; Individuals or households; Farms.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,500.

Food and Nutrition Service

Title: Report of Supplemental Nutrition Assistance Program Issuance and Report of Commodity Distribution for Disaster Relief.

OMB Control Number: 0584-0037.

Summary of Collection: Disaster assistance through the Supplemental Nutrition Assistance Program (SNAP) is authorized by sections 402 and 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*) and the temporary emergency provisions contained in Section 5 of the Food and Nutrition Act of 2008, and in 7 CFR part 280 of the SNAP regulations. This program is initiated in a SNAP project area by FNS when all or part of the area has been affected by a disaster. Food distribution in disaster situation is authorized under Section 32 of the Act of August 24, 1935. Surplus foods are made available by State distributing agencies for relief purposes to victims of natural disaster such as hurricanes, floods, tornadoes, etc. Distribution to these recipients is made primarily through such organizations as the American Red Cross or the Salvation Army. These organizations use surplus foods for both central feeding operations and for distribution to families in homes cut off from normal sources of food supply.

Need and Use of the Information: FNS will collect information through the use of forms FNS-292-A and B, which is used by the FNS Administrator, the Food Distribution Division, and the three SNAP divisions to monitor program activity, assess coverage provided to needy recipients, and assure the validity of requested commodity reimbursement and to prepare budget requests. If the information were not collected, FNS would be unable to monitor the issuance of SNAP benefits and the distribution of surplus foods during disaster situations.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 55.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 92.

SUPPLEMENTARY INFORMATION:

Title: Phytosanitary Export Certification.

OMB Number: 0579-0052.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS), among other things, provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant pests specified by the receiving country.

It should be noted that our regulations do not require that we engage in export certification activities. We perform this work as a service to exporters who are shipping plants or plant products to countries that require phytosanitary certification as a condition of entry.

To request that we perform a phytosanitary inspection, an exporter must complete and submit an Application for Inspection and Certification of Plants and Plant Products for Export (PPQ Form 572).

After assessing the condition of the plants or plant products intended for export (*i.e.*, after conducting a phytosanitary inspection), an inspector (who may be an APHIS employee or a State or county plant regulatory official) will issue an internationally recognized phytosanitary certificate (PPQ Form 577), a phytosanitary certificate for reexport (PPQ Form 579), or an export certificate for processed plant products (PPQ Form 578).

These forms are critical to our ability to certify plants and plant products for export. Without them, we would be unable to conduct an export certification program.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as
