SUMMARY: On April 29, 2011, the OCC, Board, FDIC, Commission, FHFA and HUD (collectively, the “Agencies”) published in the Federal Register a joint notice of proposed rulemaking for public comment to implement the credit risk retention requirements of section 15G of the Securities Exchange Act of 1934, as added by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Credit Risk NPR” or “proposed rule”).

Due to the complexity of the rulemaking and to allow parties more time to consider the impact of the Credit Risk NPR on affected markets, the Agencies have determined that an extension of the comment period until August 1, 2011, is appropriate. This action will allow interested persons additional time to analyze the proposed rules and prepare their comments.

DATES: The comment period for the proposed rule published April 29, 2011, at 76 FR 24090, is extended. Comments on the Credit Risk NPR must be received on or before August 1, 2011.

ADDRESSES: You may submit comments by any of the methods identified in the Credit Risk NPR. Please submit your comments using only one method.

Credit Risk Retention

AGENCIES: Office of the Comptroller of the Currency, Treasury (OCC); Board of Governors of the Federal Reserve System (Board); Federal Deposit Insurance Corporation (FDIC); U.S. Securities and Exchange Commission (Commission); Federal Housing Finance Agency (FHFA); and Department of Housing and Urban Development (HUD).

ACTION: Proposed rule; extension of comment period.

SUPPLEMENTARY INFORMATION: On April 29, 2011, the Credit Risk NPR was published in the Federal Register. ¹ The Credit Risk NPR proposes to implement the credit risk retention requirements of section 15G of the Securities Exchange Act of 1934 (15 U.S.C. 78p–1), as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). Section 15G generally requires the securitizer of asset-backed securities (“ABS”) to retain an economic interest of no less than five percent in the credit risk of the assets collateralizing the ABS. Section 15G includes a variety of exemptions from this requirement, including an exemption for asset-backed securities that are collateralized exclusively by “qualified residential mortgages,” as such term is defined by the Agencies by rule.

consumers and businesses. In recognition of the complexities of the rulemaking and the variety of considerations involved in its impact and implementation, the Agencies requested that commenters respond to numerous questions. The Credit Risk NPR stated that the public comment period would close on June 10, 2011.\footnote{See id.} The Agencies have received requests from the public for an extension of the comment period to allow for sufficient time for data gathering and impact analyses related to the provisions of the proposed rule.\footnote{See, e.g., comment letters to the Agencies from the American Bankers Association \textit{et al.} [May 13, 2011] and The Loan Syndications and Trading Association [May 26, 2011]; and press release from Realogy Corporation [May 10, 2011].} The Agencies believe that it is important for interested persons to have additional time to fully review the provisions of the proposed rule and the questions posed by the Agencies, and to conduct appropriate data collection and analysis on the potential impact of the Credit Risk NPR prior to submitting comment. Therefore, the Agencies are extending the comment period for the Credit Risk NPR from June 10, 2011 to August 1, 2011.

Dated: June 3, 2011.

Airworthiness Directives; Viking Air Limited (Type Certificate No. A–815 Formerly Held by Bombardier Inc. and de Havilland, Inc.) Model DHC–3 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to supersede an existing airworthiness directive (AD) that applies to the products listed above. The existing AD currently requires repetitively inspecting the elevator control tabs for discrepancies and, if any discrepancies are found, taking necessary corrective actions to bring all discrepancies within acceptable tolerances. The existing AD also requires reporting certain inspection results to the FAA. Since we issued that AD, we determined that we inadvertently omitted certain airplanes from the Applicability section. This proposed AD would retain the actions currently required in AD 2011–05–02 and remove the Supplemental Type Certificate (STC) SA01059SE condition in the Applicability section. We are proposing this AD to add new repetitive inspections of the elevator control tabs. If these inspections are not done, excessive free-play in the elevator control tabs could develop. This condition could lead to loss of control linkage and severe elevator flutter. Such elevator flutter could lead to possible loss of control.

DATES: We must receive comments on this proposed AD by July 25, 2011.

ADDRESSES: You may send comments by any of the following methods:

- Hand Delivery: Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposed AD. Send your comments to an address listed under the ADDRESSES section. Include “Docket No. FAA–2011–0597; Directorate Identifier 2011–CE–019–AD” at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will consider all comments received by the closing date and may amend this proposed AD because of those comments.

We will post all comments we receive, without change, to http://www.regulations.gov, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this proposed AD.

Discussion

On February 15, 2011, we issued AD 2011–05–02, Amendment 39–16611 (76 FR 10220, February 24, 2011), for certain Viking Air Limited (Type Certificate No. A–815 formerly held by Bombardier Inc. and de Havilland, Inc.) Model DHC–3 airplanes. That AD requires repetitively inspecting the
