SUMMARY: On April 29, 2011, the OCC, Board, FDIC, Commission, FHFA and HUD (collectively, the “Agencies”) published in the Federal Register a joint notice of proposed rulemaking for public comment to implement the credit risk retention requirements of section 15G of the Securities Exchange Act of 1934, as added by the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Credit Risk NPR" or "proposed rule").

Due to the complexity of the rulemaking and to allow parties more time to consider the impact of the Credit Risk NPR on affected markets, the Agencies have determined that an extension of the comment period until August 1, 2011, is appropriate. This action will allow interested persons additional time to analyze the proposed rules and prepare their comments.

DATES: The comment period for the proposed rule published April 29, 2011, at 76 FR 24090, is extended. Comments on the Credit Risk NPR must be received on or before August 1, 2011.

ADDRESSES: You may submit comments by any of the methods identified in the Credit Risk NPR. Please submit your comments using only one method.

SUPPLEMENTARY INFORMATION: On April 29, 2011, the Credit Risk NPR was published in the Federal Register. The Credit Risk NPR proposes to implement the credit risk retention requirements of section 15G of the Securities Exchange Act of 1934 (15 U.S.C. 78o–11), as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). Section 15G generally requires the securitizer of asset-backed securities (“ABS”) to retain an economic interest of no less than five percent in the credit risk of the assets collateralizing the ABS. Section 15G includes a variety of exemptions from this requirement, including an exemption for asset-backed securities that are collateralized exclusively by “qualified residential mortgages,” as such term is defined by the Agencies by rule.

The Credit Risk NPR would specify credit risk retention requirements for securitizers of ABS. In designing the proposed rules, the Agencies sought to ensure that the amount of credit risk retained would be meaningful—consistent with the purposes of section 15G—while reducing the potential for the proposed rules to negatively affect the availability and cost of credit to...

Airworthiness Directives: Viking Air Limited (Type Certificate No. A–815 Formerly Held by Bombardier Inc. and de Havilland, Inc.) Model DHC–3 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to supersede an existing airworthiness directive (AD) that applies to the products listed above. The existing AD currently requires repetitively inspecting the elevator control tabs for discrepancies and, if any discrepancies are found, taking necessary corrective actions to bring all discrepancies within acceptable tolerances. The existing AD also requires reporting certain inspection results to the FAA. Since we issued that AD, we determined that we inadvertently omitted certain airplanes from the Applicability section. This proposed AD would retain the actions currently required in AD 2011–05–02 and remove the Supplemental Type Certificate (STC) SA010505SE condition in the Applicability section. We are proposing this AD to add new repetitive inspections of the elevator control tabs. If these inspections are not done, excessive free-play in the elevator control tabs could develop. This condition could lead to loss of tab control linkage and severe elevator flutter. Such elevator flutter could lead to possible loss of control.

DATES: We must receive comments on this proposed AD by July 25, 2011.

Discussion

On February 15, 2011, we issued AD 2011–05–02, Amendment 39–16611 (76 FR 10220, February 24, 2011), for certain Viking Air Limited (Type Certificate No. A–815 formerly held by Bombardier Inc. and de Havilland, Inc.) Model DHC–3 airplanes. That AD requires repetitively inspecting the...
