NUCLEAR REGULATORY COMMISSION

Atomic Safety and Licensing Board

[Docket No. 70-7015-M; ASLBP No. 10-
899-02-ML-BD01]

In the Matter of Areva Enrichment Services, LLC (Eagle Rock Enrichment Facility); Notice of Hearing, (Notice of Evidentiary Hearing and Opportunity To Provide Oral and Written Limited Appearance Statements)

June 2, 2011.

Before Administrative Judges: G. Paul
Bollwerk, III, Chairman, Dr. Kaye D.
Lathrop, Dr. Craig M. White.

The Atomic Safety and Licensing
Board hereby gives notice that it will
convene an evidentiary session to
receive testimony and exhibits in the
“mandatory hearing” portion of this
proceeding regarding the December
2008 application by AREVA Enrichment
Services, LLC (AES) seeking a license
under 10 CFR Parts 30, 40, and 70
authorizing (1) the construction and
operation of a gas centrifuge uranium
enrichment facility—denoted as the
Eagle Rock Enrichment Facility
(EREF)—in Bonneville County, Idaho;
and (2) the receipt, possession, use,
delivery, and transfer of byproduct (e.g.,
calibration sources), source and special
nuclear material at the EREF. This
evidentiary hearing session will concern
environmental matters relating to the
proposed issuance of the requested
license. In addition, the Licensing Board
gives notice that, in accordance with 10
CFR 2.315(a), it will entertain oral and
written limited appearance statements
from members of the public in
connection with this proceeding.

A. Matters To Be Considered

As set forth by the Commission in the
July 30, 2009 notice of hearing regarding
this proceeding,¹ relative to

¹ See Notice of Receipt of Application for License; Notice of Consideration of Issuance of License; Notice of Hearing and Commission Order and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information and Safeguards Information for Contention Preparation; In the Matter of Areva Enrichment Services, LLC

environmental matters the Board is
required independently to (1) determine
whether the requirements of section
102(2)(A), (C) and (E) of the National
Environmental Policy Act of 1969
(NEPA), 42 U.S.C. 4332(2)(A), (C), (E),
and Subpart A of 10 CFR part 51 have
been complied with in the proceeding;
(2) determine whether the review
conducted by the NRC staff pursuant to
Part 51 has been adequate; (3) consider
the final balance among conflicting
factors contained in the record of the
proceeding with a view to determining
the appropriate action to be taken; and
(4) determine, after weighing the
environmental, economic, technical,
and other benefits against the
environmental and other costs, and
considering reasonable alternatives,
whether a license should be issued,
denied, or appropriately conditioned to
protect environmental values. More
specifically with regard to this portion
of the proceeding that concerns
generally the environmental-related
aspects of the AES environmental report
and the associated staff final
environmental impact statement
(FEIS),² AES and the staff will make
evidentiary presentations to the Board
regarding the purpose and need for the
proposed EREF; “preconstruction”
activities; greenhouse gas impacts of the
EREF’s production power consumption;
construction air quality impacts; the
facility’s radiological effluent
monitoring program; and the status of
the historic/cultural resources
memorandum of agreement and
associated mitigation measures.

B. Date, Time, and Location of Environmental-Related Portion of the Mandatory Hearing

The Board will conduct the portion of
the mandatory hearing regarding
environmental matters beginning at 9:30
a.m. Mountain Time (MT) on Tuesday,
July 12, 2011, at the Red Lion on the
Falls Convention Center, Targhee/
Bonneville Rooms, 475 River Parkway,

(Eagle Rock Enrichment Facility), 74 FR 38,052,
38,054 (July 30, 2009) (CLI-09-15, 70 NRC 1, 7-8
(2009)).

² After conducting a January 2011 evidentiary
hearing session concerning safety-related matters
relative to the AES safety analysis report and the
associated staff safety evaluation report, in an April
2011 partial initial decision the Licensing Board
provided its findings and conclusions, determining
that (1) the AES application contains sufficient
information to support license issuance; and (2) the
staff’s review of the application had been adequate
to support license issuance, subject to a license
condition regarding the qualifications of the
facility’s nuclear criticality safety manager and an
unresolved decommissioning funding financial
assurance issue that awaits Commission
consideration of a pending Board-certified question.
