

state officials will be asked to provide limited information on state licensing requirements regarding infection control practices in licensed residential care facilities.

Expected users of aggregate-level summary estimates from this data collection effort include, but are not limited to CDC; other Department of Health and Human Services (DHHS)

agencies, such as the Office of the Assistant Secretary for Planning and Evaluation and the Agency for Healthcare Research and Quality; associations, such as LeadingAge (formerly the American Association of Homes and Services for the Aging), National Center for Assisted Living, American Seniors Housing Association,

and Assisted Living Federation of America; universities; foundations; and other private sector organizations.

We estimate telephone calls with state officials, including the production of the electronic files will take 90 minutes each. Two year clearance is requested. There is no cost to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Form name	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Response burden in hours
State Officials	Telephone script.	26	1	1.5	39
Total					39

Dated: June 8, 2011.

Daniel Holcomb,

Reports Clearance Officer, Office of the Chief Science Officer, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960, send comments to Daniel Holcomb, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

National Youth Tobacco Surveys (NYTS) 2012-2014—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Tobacco use is a major preventable cause of morbidity and mortality in the U.S. A limited number of health risk behaviors, including tobacco use, account for the overwhelming majority of immediate and long-term sources of morbidity and mortality. Because many health risk behaviors are established during adolescence, there is a critical need for public health programs directed towards youth, and for information to support these programs.

Since 2004, the Centers for Disease Control and Prevention (CDC) has periodically collected information about tobacco use among adolescents (National Youth Tobacco Survey (NYTS) 2004, 2006, 2009, 2011, OMB no. 0920-0621, exp. 12/31/2011). This surveillance activity builds on previous surveys funded by the American Legacy Foundation in 1999, 2000, and 2002.

At present, the NYTS is the most comprehensive source of nationally representative tobacco data among students in grades 9-12, moreover, the NYTS is the only source of such data for students in grades 6-8. The NYTS has

provided national estimates of tobacco use behaviors, information about exposure to pro- and anti-tobacco influences, and information about racial and ethnic disparities in tobacco-related topics. Information collected through the NYTS is used to identify trends over time, to inform the development of tobacco cessation programs for youth, and to evaluate the effectiveness of existing interventions and programs.

CDC plans to request OMB approval to conduct additional cycles of the NYTS in 2012, 2013, and 2014. The survey will be conducted among nationally representative samples of students attending public and private schools in grades 6-12, and will be administered to students as an optically scannable, eight-page booklet of multiple-choice questions. Information supporting the NYTS also will be collected from state-, district-, and school-level administrators and teachers. During the 2012-2014 timeframe, a number of changes will be incorporated that reflect CDC's ongoing collaboration with FDA and the need to measure progress toward meeting strategic goals established by the Family Smoking Prevention and Tobacco Control Act. Information collection will occur annually and will include a number of new questions, as well as increased representation of minority youth.

The survey will examine the following topics: use of cigarettes, smokeless tobacco, cigars, pipes, bidis, and kreteks, as well as newer tobacco products (such as snus, electronic cigarette, and dissolvable tobacco products); knowledge and attitudes; media and advertising; access to tobacco products and enforcement of restrictions on access; school curriculum;

environmental tobacco smoke exposure; and cessation.

Results of the NYTS will continue to be used for public health program planning and evaluation. Information

collected through the NYTS is also expected to provide multiple measures and data for monitoring progress on six of the 20 tobacco-related objectives for Healthy People 2020.

OMB approval will be requested for three years. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hour)	Total burden (in hour)
State Administrators	State-level Recruitment Script for the NYTS.	35	1	30/60	18
District Administrators	District-level Recruitment Script for the NYTS.	150	1	30/60	75
School Administrators	School-level Recruitment Script for the NYTS.	244	1	30/60	122
Teachers	Data Collection Checklist	816	1	15/60	204
Students	National Youth Tobacco Survey	24,591	1	45/60	18,443
Total					18,862

Dated: June 9, 2011.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Evaluation of the Head Start Safe Families Safe Homes Training Curriculum.

OMB No.: New Collection.

Description: The purpose of this collection is to examine the implementation of the Head Start Safe Families Safe Homes (SFSH) domestic violence training curriculum. The Office of Head Start, within the Administration for Children and Families (ACF) of the Department of Health and Human Services (HHS), is partnering with the Division of Family Violence Prevention of the Family and Youth Services Bureau of the Administration on Children, Youth and Families (ACYF), also located within ACF, in an effort to expand the knowledge base of Head Start staff and build stronger partnerships with domestic violence service providers in local communities.

Teams of trainers in each of five states are leading training sessions for 50 participants. The follow-up evaluation will examine implementation of the training curriculum in each of the states. All participants in the local trainings will be asked to complete a brief survey, which will be conducted online. Two members of each of the state leadership teams will be asked to complete a semi-structured phone interview.

Respondents: Head Start staff, state agency staff (e.g., Head Start Collaboration Directors, Domestic Violence Coalition Directors).

ANNUAL BURDEN ESTIMATES

Instrument	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Total annual burden hours
Head Start Safe Families—Safe Home Training Curriculum Survey	250	1	.25	63
Head Start Safe Families—Safe Home Training Curriculum Semi-structured Interview	10	1	.5	5

Estimated Total Annual Burden Hours: 68.

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, *Attn:* OPRE Reports Clearance Officer. All requests should be identified by the title of the

information collection. E-mail address: OPREinfocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should

be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project. *Fax:* 202-395-6974. *Attn:* Desk Officer for the Administration for Children and Families.

Dated: June 7, 2011.

Steven M. Hanmer,

OPRE Reports Clearance Officer.
