threats and hazards to the integrity, availability and confidentiality of GSA data or to the function of information technology systems operated on behalf of GSA, and to preserve evidence of computer crime. This information shall be available to GSA upon request.

(i) Subcontracts. The Contractor shall incorporate the substance of this clause in all subcontracts that meet the conditions in paragraph (a) of this clause.

(ii) Notification regarding employees. The Contractor shall immediately notify the Contracting Officer when an employee begins or terminates employment when that employee has access to GSA information systems or data. If an employee’s employment is terminated, for any reason, access to GSA’s information systems or data shall be immediately disabled and the credentials used to access the information systems or data shall be immediately confiscated.

(iii) Termination. Failure on the part of the Contractor to comply with the terms of this contract.

(End of clause)

SUMMARY: This document delays the effective date of the final rule until October 1, 2011. Therefore, any requirements imposed by the final rule need not be complied with until October 1, 2011.

The Final Rule

In consideration of the foregoing, FRA delays the effective date of the final rule until October 1, 2011. Issued in Washington, DC, on June 9, 2011.

Joseph C. Szabo,
Administrator.

SUPPLEMENTARY INFORMATION: This rule clarifies regulations that apply to vessels operating in the guided sport (charter) fishery for halibut in International Pacific Halibut Commission Regulatory Area 2C (Southeast Alaska) and Area 3A (Central Gulf of Alaska). Under regulations implementing the charter halibut limited access program, operators of a vessel in Area 2C or Area 3A with one or more charter vessel anglers on board that catch and retain halibut must have an Alaska Department of Fish and Game (ADF&G) Saltwater Charter Logbook onboard which specifies the person named on the charter halibut permit(s) being used onboard the vessel, and the charter halibut permit number(s) being used onboard the vessel. This interpretation clarifies that a charter vessel operator may use the ADF&G Saltwater Charter Logbook issued for the vessel to record the charter halibut permit information.

DATES: This rule is effective on June 15, 2011.

ADDRESSES: Electronic copies of this action and other related documents are available from http://www.regulations.gov or from the NMFS Alaska Region Web site at http://alaskafisheries.noaa.gov.
