Title of Proposal: Section 3 Business Self-Certification Application.

OMB Approval Number: 2529-Pending.

Form Numbers: None.

Description of the Need for the Information and Its Proposed Use: The information collected from the Section 3 Business Self-Certification Application will allow HUD and recipients of covered HUD funding to identify Section 3 Businesses within their communities. The overriding purpose of this information collection is to ensure that contracting opportunities are provided to Section 3 businesses in fulfillment of the regulatory requirements set forth at 24 CFR part 135, and to increase the capacity of covered agencies to comply with the requirements of Section 3. HUD will use the information to identify firms that self-certify that they meet the regulatory definition of a Section 3 Business. The information collected from the Section 3 Business Self-Certification Application will be posted in a registry of Section 3 Businesses which will be posted on HUD's webpage. Agencies that receive covered HUD funding in the five pilot locations will be encouraged to notify the Section 3 Businesses contained in HUD's registry about the availability of covered contracting opportunities.

Frequency of Submission: On occasion.

Estimation of the Total Numbers of Hours Needed To Prepare the Information Collection Including Number of Respondents, Frequency of Responses, and Hours of Responses:

The Department estimates that approximately 20,000 businesses in the five pilot locations may complete the Section 3 Self-Certification Application during the six-month pilot program.

It is estimated that each application will take approximately 30 minutes to complete for a total of 10,000 hours.

Total Estimated Burden Hours: 10,000.

Status: New collection.

This Notice also lists the following information:

Title of Proposal: Housing Choice Voucher Program Administrative Fee Study Pretest.

Description of the Need for the Information and Proposed Use: This request is for the clearance of on-site data collection from public housing agencies (PHAs) to test the methodology for the Housing Choice Voucher (HCV) Program Administrative Fee study. The purpose of the study is to collect accurate information on the costs of administering the HCV program across a representative sample of high performing and efficient PHAs and to use this information to develop a new administrative fee allocation formula for the HCV program. The study is proceeding in multiple phases. This request is for data collection to test the methodology for estimating program costs in the study. We propose to use two main methods for collecting cost data: (1) Measuring the time that front line staff spend working on the program and translating that time into costs using the salaries and benefits of the staff doing the work and adjusting for market factors; and (2) collecting information via interviews and document review on the overhead costs and other costs related to HCV program administration that cannot be captured by measuring staff time spent on the program. We will test these data collection approaches at between 5 and 10 PHAs across the country. The results of the pretest will be used to refine the methodology used for the full study of

administrative fees with a larger sample of PHAs.

OMB Approval Number: Pending.

Agency Form Numbers: None.

Members of Affected Public: Up to 250 PHA staff persons across up to 10 PHAs.

Estimation of the Total Number of Hours Needed To Prepare the Information Collection Including Number of Respondents, Frequency of Response, and Hours of Response: We plan to conduct the pretest at 5 to 10 PHAs across the country. The pretest will involve a combination of on-site and telephone data collection from PHA staff through interviews, observation, and self-reporting of time spent working on the HCV program via timesheets and other methods. There are five data collection activities that involve PHA staff. First, at each pretest site, PHA staff will spend up to 32 hours assembling data for the study and being interviewed by the study team (32 hours × 10 sites = 320 hours). Second, at each site up to 15 staff will be observed in their work for up to four weeks (28 working days). These staff will engage with the researchers for approximately 15 minutes per day, for a total of 7 hours per staff over four weeks (7 hours × 15 staff × 10 sites = 1,050 hours). Third, at each site up to 15 staff will complete timesheets or respond to messages via a SmartPhone for a period of approximately two months (45 working days). These activities will take approximately 15 minutes per day, for a total of 11.25 hours per staff over the two-month period (11.25 hours × 15 staff × 10 sites = 1,688 hours). Fourth, all staff involved in time measurement activities will participate in up to 2 hours of training or preparation activities (2 hours × 30 staff × 10 sites = 600 hours). Fifth, an average of 10 PHA staff per site will spend approximately 60 minutes debriefing with the research team about their experiences with the pretest (1 hour × 10 staff × 10 sites = 100 hours). The total estimated burden across all proposed data collection activities is 3,758 hours.

Status of the Proposed Information Collection: Pending OMB approval.

Authority: U.S. Code 12, 1701z-1, Research and demonstrations.

Dated: June 9, 2011.

Assistant Secretary for Policy Development and Research.

Specifically, this NOFA announces the availability of approximately \$9.1 million made available under the Department of Defense and Full-Year Continuing Appropriations Act, 2011, Public Law 112-10, approved April 15, 2011 for the Housing for Persons with AIDS (HOPWA) Program.

The purpose of the HOPWA program is to advance HUD's implementation of the National HIV/AIDS Strategy (NHAS). HOPWA NOFA also addresses the Department's Fiscal Year 2010-2015 Strategic Plan and the *Opening Doors Federal Strategic Plan To Prevent and End Homelessness*. These actions address goals to: Prevent and end homelessness; increase the supply of affordable housing; and increase the coordination of mainstream housing resources and other health and human services.

The HOPWA NOFA announces funds available for projects that address both: (1) Direct housing assistance and service delivery to low income persons and families living with HIV/AIDS, including homeless individuals and families; and (2) comprehensive planning and coordination of local resources in meeting housing and service needs of the population. As a result of project efforts, communities will be assisted in the development and use of an Integrated HIV/AIDS Housing Plan (IHHP) to be issued at the end of the third year of operation. The IHHP is an administrative function and should demonstrate local system changes in the delivery of housing and services. Grantees are expected to provide housing assistance to eligible persons in their communities while concurrently examining and comprehensively integrating local services for coordinating and streamlining where possible the delivery of those services in your community.
