

salmonids, and sets out the criteria for such activities. The Rule further provides that the prohibitions of paragraph (a) of the Rule do not apply to actions undertaken in compliance with a RMP developed jointly within the continuing jurisdiction of *United States v. Washington* by the State of Washington and the Tribes and determined by NMFS to be in accordance with the provisions of 50 CFR 223.203(b)(6) (*i.e.*, Limit 6 of the salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000)). In 2005, as part of the final listing determinations for sixteen Evolutionarily Significant Units of West Coast salmon, NMFS amended and streamlined the previously promulgated 4(d) protective regulations for threatened salmon and steelhead (70 FR 37160, June 28, 2005). Under these regulations, the same set of fourteen limits was applied to all threatened Pacific salmon and steelhead ESU's or DPS's.

Dated: June 13, 2011.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XA489

Incidental Taking of Marine Mammals; Taking of Marine Mammals Incidental to the Explosive Removal of Offshore Structures in the Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of letters of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA) and implementing regulations, notification is hereby given that NMFS has issued a one-year Letter of Authorization (LOA) to take marine mammals incidental to the explosive removal of offshore oil and gas structures (EROS) in the Gulf of Mexico.

DATES: The authorization is effective from July 1, 2011 through June 30, 2012.

ADDRESSES: The application and LOA are available for review by writing to P. Michael Payne, Chief, Permits, Conservation, and Education Division, Office of Protected Resources, National

Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3235 or by telephoning the contact listed here (see **FOR FURTHER INFORMATION CONTACT**), or online at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>. Documents cited in this notice may be viewed, by appointment, during regular business hours, at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Howard Goldstein or Jolie Harrison, Office of Protected Resources, NMFS, 301-713-2289.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce (who has delegated the authority to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made and regulations are issued. Under the MMPA, the term "take" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture, or kill any marine mammal.

Authorization for incidental taking, in the form of annual LOAs, may be granted by NMFS for periods up to five years if NMFS finds, after notice and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals, and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). In addition, NMFS must prescribe regulations that include permissible methods of taking and other means of effecting the least practicable adverse impact on the species and its habitat (*i.e.*, mitigation), and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating rounds, and areas of similar significance. The regulations also must include requirements pertaining to the monitoring and reporting of such taking.

Regulations governing the taking of marine mammals incidental to EROS were published on June 19, 2008 (73 FR 34875), and remain in effect through July 19, 2013. For detailed information on this action, please refer to that **Federal Register** notice. The species that applicants may take in small numbers during EROS activities are bottlenose dolphins (*Tursiops truncatus*), Atlantic spotted dolphins (*Stenella frontalis*), pantropical spotted dolphins (*Stenella attenuata*), Clymene dolphins (*Stenella clymene*), striped

dolphins (*Stenella coeruleoalba*), spinner dolphins (*Stenella longirostris*), rough-toothed dolphins (*Steno bredanensis*), Risso's dolphins (*Grampus griseus*), melon-headed whales (*Peponocephala electra*), short-finned pilot whales (*Globicephala macrorhynchus*), and sperm whales (*Physeter macrocephalus*). NMFS received a request for an LOA from ExxonMobil Production Company (ExxonMobil) for activities covered by EROS regulations.

Reporting

ExxonMobil has not conducted any operations during 2010 to 2011.

Pursuant to these regulations, NMFS has issued an LOA to ExxonMobil. Issuance of the LOAs is based on a finding made in the preamble to the final rule that the total taking by these activities (with monitoring, mitigation, and reporting measures) will result in no more than a negligible impact on the affected species or stock(s) of marine mammals and will not have an unmitigable adverse impact on subsistence uses. NMFS will review reports to ensure that the applicants are in compliance with meeting the requirements contained in the implementing regulations and LOA, including monitoring, mitigation, and reporting requirements.

Dated: June 13, 2011.

James H. Lecky,

Director, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XA478

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 25 South Atlantic assessment process webinars for black sea bass (*Centropristis striata*) and golden tilefish (*Lopholatilus chamaeleonticeps*).

SUMMARY: The SEDAR 25 assessments of the South Atlantic black sea bass and golden tilefish will consist of a series of workshops and webinars: this notice is for webinars associated with the Assessment portion of the SEDAR

process. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 25 webinars will be held between July 12th and August 22nd, 2011. Please see **SUPPLEMENTARY INFORMATION** for a list of exact dates and times. The established times may be adjusted as necessary to accommodate the timely completion of discussion

relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the times established by this notice.

ADDRESSES: The meetings will be held via webinar. The webinar is open to the public. Those interested in participating should contact Kari Fenske at SEDAR (See **FOR FURTHER INFORMATION CONTACT**)

to request an invitation providing webinar access information.

FOR FURTHER INFORMATION CONTACT: Kari Fenske, SEDAR Coordinator, 4055 Faber Place, Suite 201, North Charleston, SC 29405; *telephone:* (843) 571-4366; *e-mail:* kari.fenske@safmc.net.

SUPPLEMENTARY INFORMATION:

Webinar	Date	Day	Time (Eastern)
1	July 12, 2011	Tuesday	1 p.m.–4 p.m.
2	July 14, 2011	Thursday	1 p.m.–4 p.m.
3	July 25, 2011	Monday	9 a.m.–12 p.m.
4	July 27, 2011	Wednesday	9 a.m.–12 p.m.
5	August 19, 2011	Friday	9 a.m.–12 p.m.
6	August 22, 2011	Monday	9 a.m.–12 p.m.

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process utilizing webinars and workshops, and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Panelists for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

SEDAR 25 Assessment Process Webinar Series

Using datasets recommended from the Data Workshop, Panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions. Panelists will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Dated: June 14, 2011.

William D. Chappell,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Caribbean Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Caribbean Fishery Management Council's Advisory Panel (AP) will hold a meeting.

DATES: The AP meeting will be held on July 13, 2011, from 9:30 a.m. until 5 p.m.

ADDRESSES: The meeting will be held at the Buccaneer Hotel, 5007 Estate Shoys, Lot 7, Christiansted, St. Croix, U.S.V.I.

FOR FURTHER INFORMATION CONTACT: Caribbean Fishery Management Council, 268 Munoz Rivera Avenue, Suite 1108, San Juan, Puerto Rico 00918-1920; *telephone:* (787) 766-5926.

SUPPLEMENTARY INFORMATION: The AP will meet to discuss the items contained in the following agenda:

1. Call to order.
2. Annual Catch Limits (ACLs)/Accountability Measures (AMs) Discussion for Species not-Overfished nor Suffering Overfishing.
3. Other Business.

The meeting is open to the public, and will be conducted in English. Fishers and other interested persons are invited to attend and participate with oral or written statements regarding agenda issues.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. For more information or request for sign language interpretation and/or other auxiliary aids, please contact Mr. Miguel A. Rolon, Executive Director, Caribbean Fishery
