

implement Executive Order 13570 of April 18, 2011, which prohibits the importation into the United States, directly or indirectly, of any goods, services, or technology from North Korea, unless otherwise authorized. As amended, the North Korea Sanctions Regulations will replace certain provisions of the FACR promulgated under sections 73 and 74 of the Arms Export Control Act (22 U.S.C. 2797b and 2797c), which were the only remaining effective provisions of the FACR. Accordingly, OFAC is removing the FACR and the TCR from 31 CFR chapter V.

### Public Participation

Because the Regulations involve a foreign affairs function, the provisions of Executive Order 12866 and the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable. Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601–612) does not apply.

#### Background

On June 26, 2008, the President, invoking the authority of, *inter alia*, the International Emergency Economic Powers Act (50 U.S.C. 1701–1706) ("IEEPA") and the National Emergencies Act (50 U.S.C. 1601–1651) (the "NEA"), issued Executive Order 13466 (73 FR 36787, June 27, 2008) ("E.O. 13466"). On August 30, 2010, the President, invoking the authority of, *inter alia*, IEEPA, the NEA, and section 5 of the United Nations Participation Act (22 U.S.C. 287c) (the "UNPA"), issued Executive Order 13551 (75 FR 53837, September 1, 2010) ("E.O. 13551"), effective at 12:01 p.m. eastern daylight time on August 30, 2010.

On November 4, 2010, the Department of the Treasury's Office of Foreign

Assets Control published the North Korea Sanctions Regulations, 31 CFR part 510 (the "Regulations"), to implement E.O. 13466 and E.O. 13551, pursuant to authorities delegated to the Secretary of the Treasury in those orders (75 FR 67912, November 4, 2010).

On April 18, 2011, the President, invoking the authority of, *inter alia*, IEEPA, the NEA, and the UNPA, issued Executive Order 13570 (76 FR 22291, April 20, 2011) ("E.O. 13570"), effective at 12:01 a.m. eastern daylight time on April 19, 2011.

This final rule amends the Regulations to implement E.O. 13570, pursuant to authorities delegated to the Secretary of the Treasury in E.O. 13570. A copy of E.O. 13570 appears in appendix C to this part.

These amendments to the Regulations are being published in abbreviated form at this time for the purpose of providing immediate guidance to the public. OFAC intends to supplement part 510 with a more comprehensive set of regulations, which may include additional interpretive and definitional guidance and additional general licenses and statements of licensing policy. (The appendices to the Regulations will be removed when OFAC publishes a more comprehensive set of regulations.)

### Public Participation

Because the Regulations involve a foreign affairs function, the provisions of Executive Order 12866 and the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable. Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601–612) does not apply.

### Paperwork Reduction Act

The collections of information related to the Regulations are contained in 31 CFR part 501 (the "Reporting, Procedures and Penalties Regulations"). Pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), those collections of information have been approved by the Office of Management and Budget under control number 1505–0164. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number.

### Coast Guard

#### 33 CFR Parts 110 and 165

[Docket No. USCG-2010-1119]

RIN 1625-AA01; 1625-AA11

#### Superfund Site, New Bedford Harbor, New Bedford, MA: Anchorage Ground and Regulated Navigation Area

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard is amending an existing anchorage ground which currently overlaps a pilot underwater cap ("pilot cap") in the U.S. Environmental Protection Agency's (EPA) New Bedford Harbor Superfund Site in New Bedford, MA. The Coast Guard is also establishing a regulated navigation area (RNA) prohibiting activities that disturb the seabed around the site. The RNA would not affect transit or navigation of the area.

**DATES:** This rule is effective July 20, 2011.

**ADDRESSES:** Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG-2010-1119 and are available online by going to <http://www.regulations.gov>, inserting USCG-2010-1119 in the "Keyword" box, and then clicking "Search." **SUPPLEMENTARY INFORMATION:**

### Regulatory Information

On April 12, 2011, we published a notice of proposed rulemaking (NPRM) entitled "Superfund Site, New Bedford Harbor, New Bedford, MA: Anchorage Ground and Regulated Navigation Area" in the **Federal Register** (76 FR 20287). We received no comments on the proposed rule. A public meeting was not requested and none was held. The Commonwealth of Massachusetts completed a review of this regulatory action and concurred that the activity's effects on resources and uses in Massachusetts coastal zone are consistent with the Coast Zone Management enforceable program policies. The Commonwealth had no objection to the Coast Guard implementing the action in less than 90 days from the date of initial notification as provided in 15 CFR 930.36(b)(2).

### Basis and Purpose

The legal basis for the proposed rule is 33 U.S.C. 471, 1221-1236, 2030, 2035, and 2071; 46 U.S.C. chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define regulatory anchorage grounds and RNAs.

The purpose of the rule is to minimize the potential for human exposure to contamination and to help protect the integrity of the EPA's remedy at a portion of the New Bedford Harbor Superfund Site by reducing an existing anchorage ground so that it no longer overlaps the pilot cap, and by placing the pilot cap in a RNA that would protect the site from damage by mariners, and protect mariners and the general public from contaminants in the site.

### Background

The New Bedford Superfund cleanup site is an urban tidal estuary with sediments contaminated by polychlorinated biphenyls (PCBs) and heavy metals. An extensive history and background of the cleanup project can be found on the EPA's Web site, at <http://www.epa.gov/nbh/>.

The specific cleanup project and surrounding area addressed by this regulation is the Pilot Underwater Cap ("pilot cap"), which is located south of the New Bedford Harbor hurricane barrier in the outer harbor. The pilot cap consists of sand and gravel covering approximately 20 acres of contaminated sediments. Based on data collected in 2010, the thickness of the cap is predominantly one to two feet (98% of the cap area has a thickness greater than

one foot; 68% greater than two feet; and in a few isolated areas, the thickness is up to 6.4 feet). A copy of the latest data for the pilot cap area can be found on EPA's Web site for New Bedford Harbor: <http://www.epa.gov/nbh>. While the pilot cap is protective of human health and the environment, it remains vulnerable to human actions that tend to disturb the seabed.

Several maritime practices that involve physical contact with the seabed (e.g., anchoring, dragging, trawling, and spudding) pose a specific threat to the pilot cap. It is also conceivable that PCBs or heavy metals could stick to gear penetrating the seabed; any contaminants that come up with gear could create a threat to human health and the environment. The RNA would prohibit these specific activities without in any way inhibiting surface navigation.

### Discussion of Comments and Changes

The Coast Guard received no comments on the proposed rulemaking. No changes were made in the Final Rule.

### Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

### Executive Order 12866 and Executive Order 13563

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule would affect the following
