National Oceanic and Atmospheric Administration

RIN 0648-XA504

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Regional Administrator, Southwest Region, NMFS, has made a preliminary determination that an application for an Exempted Fishing Permit (EFP) warrants further consideration. The application was submitted by members of the Pacific sardine fishing industry who request an exemption from seasonal closures of the directed fishery to conduct a survey designed to estimate the population size of Pacific sardine. NMFS requests public comment on the application. NMFS will make a final decision about whether to issue an EFP after consideration of those comments.

DATES: Comments must be received by July 12, 2011.

ADDRESSES: You may submit comments on this notice identified by 0648-XA504 by any one of the following methods:

- **Mail:** Rodney R. McInnis, Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802.

- **Fax:** (562) 980-4047, **Att:** Joshua Lindsay.

FOR FURTHER INFORMATION CONTACT: A copy of the application can be viewed at the following Web site: <http://swr.nmfs.noaa.gov>; or by contacting Joshua Lindsay, Southwest Region, NMFS, (562) 980-4034; joshua.lindsay@noaa.gov.

SUPPLEMENTARY INFORMATION: On May 25, 2011, NMFS published a final rule implementing the harvest guideline

(HG) and annual specifications for the 2011 Pacific sardine fishing season off the U.S. West Coast (76 FR 30276). As part of these management measures the Council recommended, and NMFS approved, that 4,200 metric tons (mt) of the maximum harvest guideline (HG) be initially subtracted and set aside for potential industry-based research projects. Members of the Pacific sardine fishing industry, concerned about the difficulty of securing fishing vessels for research purposes during the normal fishing season, requested this separate allocation so that they could conduct research fishing activities after fishing is closed. The 4,200 mt set-aside was intended to allow for potential research fishing in the second seasonal period (July 1–September 14, 2009) and third seasonal period (September 15–December 31, 2009), to continue if that period's directed fishery allocation is reached and directed fishing is closed.

An EFP is required to conduct the fishing activities proposed by the applicants to occur when directed fishing is otherwise not allowed. At the March 2011 Council meeting, the Council reviewed an EFP application that proposed to utilize 2,700 mt of the 4,200 mt initially set aside. The applicants proposed using 2,700 mt to replicate the summer survey conducted under similar EFPs in 2009 and 2010, but with an expanded sample size. The proposal went forward for public comment and was reviewed by the Council again at their April meeting, at which time the Council recommended that NMFS approve and issue the EFP. Any public comment received in response to this notice will be considered by NMFS in determining whether to approve and issue the EFP.

One of the goals set forth in the EFP application is the development of an index of biomass for Pacific sardine, with the desire that this index be included in the subsequent Pacific sardine stock assessment. If NMFS does not issue an EFP, then the set-aside will be re-allocated to the directed harvest allocation of the third allocation period. Any research set aside attributed to an EFP for use during the closed fishing time in the second allocation period (prior to September 15), but not utilized, would also roll into the directed fishery allocation for the third allocation period.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 22, 2011.

Margo Schulze-Haugen,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA518

Endangered Species; File No. 16253

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that NMFS Southeast Fisheries Science Center (SEFSC; Responsible Party: Bonnie Ponwith), has applied in due form for a permit to take green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*), leatherback (*Dermodochelys coriacea*), olive ridley (*Lepidochelys olivacea*), and loggerhead (*Caretta caretta*) sea turtles for scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before July 27, 2011.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 16253 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)427-8401; fax (301)713-0376;

Northeast Region, NMFS, 55 Great Republic Drive, Gloucester, MA 01930; phone (978)281-9328; fax (978)281-9394; and

Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727)824-5312; fax (727)824-5309.

Written comments on this application should be submitted to the Chief, Permits, Conservation and Education Division

- by e-mail to NMFS.Pr1Comments@noaa.gov (include the File No. in the subject line of the e-mail),

- by facsimile to (301)713-0376, or
- at the address listed above.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits, Conservation and Education Division at the address listed

above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Kristy Beard or Amy Hapeman,
(301)427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The applicant requests a five-year permit to conduct research on leatherback, loggerhead, green, hawksbill, olive ridley, and Kemp's ridley sea turtles in the Atlantic Ocean, Gulf of Mexico, Caribbean Sea and their tributaries. The purpose of the research is to evaluate modifications to commercial fishing gear to mitigate sea turtle interactions and capture under two projects, Project A (Turtle Excluder Device Evaluations in Atlantic and Gulf of Mexico Trawl Fisheries) and Project B (Modifications to Longline Fisheries Gear). These evaluations and subsequent gear modifications could help to reduce incidental turtle bycatch in the gear types studied and provide data to improve stock assessments, assess the impact of anthropogenic activities, and better manage and recover these species. Annual requested take numbers under Project A are: 225 loggerheads, 98 Kemp's ridleys, 82 leatherbacks, 47 greens, 33 hawksbills, 33 olive ridleys, and 85 unidentified/hybrid turtles. A subset of these animals would be captured during trawl research; the rest of the turtles would be captured within fisheries managed by another Federal authority. Annual requested take numbers under Project B are: 28 loggerheads, 3 Kemp's ridleys, 30 leatherbacks, 4 greens, 4 hawksbills, 3 olive ridleys, and 3 unidentified/hybrid turtles. All animals would be handled, measured, weighed, photographed, flipper tagged, passive integrated transponder tagged, skin biopsied, and released.

Dated: June 21, 2011.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

Caribbean Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Catch Share Panel of the Caribbean Fishery Management Council will hold a public meeting to discuss the issues contained in the enclosed agenda.

DATES: The meeting will be held on July 20, 2011, from 7 p.m. to 9:30 p.m.

ADDRESSES: The meeting will be held at the Holiday Inn Hotel in Mayaguez, Puerto Rico.

FOR FURTHER INFORMATION CONTACT: Caribbean Fishery Management Council, 268 Munoz Rivera Avenue, Suite 1108, San Juan, Puerto Rico 00918-2577; *telephone:* (787) 766-5926.

SUPPLEMENTARY INFORMATION: The Catch Share Panel of The Caribbean Fishery Management Council will hold a public meeting to discuss the following agenda items:

- Discussion Outline of Work Done and Schedule of Meetings.
- Next Surveys:
 - Landings Data.
 - Socio-Economic Aspects Deep-Water Fish Fishery.
- Other Issues.

Special Accommodations

This meeting is physically accessible to people with disabilities. Simultaneous interpretation will be provided (English-Spanish) if necessary. For more information or request for sign language interpretation and other auxiliary aids, please contact Mr. Miguel A. Rolon, Executive Director, Caribbean Fishery Management Council, 268 Munoz Rivera Avenue, Suite 1108, San Juan, Puerto Rico, 00918-2577; *telephone:* (787) 766-5926, at least 5 days prior to the meeting date.

Dated: June 21, 2011.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Council to convene a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene a meeting of the Ad Hoc Commercial Reef Fish Individual Fishing Quota (IFQ) Advisory Panel.

DATES: The meeting will convene from 8:30 a.m. to 4:30 p.m. on Thursday, July 14, 2011.

ADDRESSES: The meeting will be held at the Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, FL 33607; *telephone:* (813) 348-1630.

Council address: Gulf of Mexico Fishery Management Council, 2203 N. Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Dr. Assane Diagne, Economist; Gulf of Mexico Fishery Management Council; *telephone:* (813) 348-1630.

SUPPLEMENTARY INFORMATION: The Ad Hoc Commercial Reef Fish Individual Fishing Quota (IFQ) Advisory Panel IFQ advisory panel will discuss issues related to the design, implementation, evaluation, and monitoring of reef fish IFQ programs in the Gulf of Mexico.

Copies of the agenda and other related materials can be obtained by calling (813) 348-1630 or can be downloaded from the Council's ftp site, ftp.gulfcouncil.org.

Although other non-emergency issues not on the agenda may come before the Scientific and Statistical Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Actions of the Advisory Panel will be restricted to those issues specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take action to address the emergency.
