SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are proposing to amend the FAR because the Office of Federal Procurement Policy (OFPP) requested that FAR parts 8, 12, 15, 42, and 49 be revised to include recommendations from the Government Accountability Office Report GAO-09-374, *Better Performance Information Needed to Support Agency Contract Award Decisions* and OFPP's memorandum dated July 29, 2009, *Improving the Use of Contractor Performance Information*. These changes provide Governmentwide standardized evaluation factors and rating scales for the evaluation of contractor performance in the FAR. The FAR change also incorporates policy guidance outlined in OFPP's memorandum dated January 21, 2011, *Improving Contractor Past Performance Assessment: Summary of the Office Of Federal Procurement Policy Review, and Strategies for Improvement*. Up until September 30, 2010, agencies had the option of using various past performance reporting feeder systems such as the Department of Health and Human Services (DHHS), National Institutes of Health's (NIH) Contractor

Performance System (CPS), the Department of Defense's Contractor Performance Assessment Reporting System (CPARS), and other agency systems to report their evaluations into the Governmentwide Past Performance Information Retrieval System (PPIRS), each of which included different evaluation factors and rating scales. With the need to standardize past performance reporting practices and to enhance reporting metrics, the Government transitioned to one past performance feeder system, CPARS. DHHS/NIH, OFPP, and the DoD CPARS program office reached a decision not to revamp the CPS and to officially end service to all customers on September 30, 2010. See NIH's complete message on their Web site at <https://cps.nih.gov>. Agencies using CPS transitioned to CPARS. Agencies currently using other systems must prepare to transition to CPARS in the near future. Agencies' migration to CPARS, one feeder system into PPIRS, presented an opportune time to standardize the evaluation factors and rating scales for the evaluation of contractor performance.

The proposed FAR revisions include the following:

(1) Addition of language in FAR 42.1501 to provide for the use of CPARS as the Governmentwide past performance information feeder system into PPIRS.

(2) Revision of FAR 42.1502 to move the language in paragraph (a) "The content of the evaluations should be tailored to the size, content, and complexity of the contractual requirements", to FAR 42.1503(b).

(3) Addition of language in FAR 42.1503 to provide for Governmentwide standard evaluation factors and a five scale rating system, which reflects the rating definitions contained in the CPARS Policy Guide. Also, incentive-fee and award-fee contract performance ratings will be entered into CPARS.

(4) References to FAR part 42 changes in FAR part 8, 12, and 15.

This proposed rule is a follow on to two previous FAR rules FAR Case 2006-022, *Contractor Performance Information* (74 FR 31557) published July 1, 2009, and FAR Case 2008-016, *Termination for Default Reporting* (75 FR 60258) published September 29, 2010. FAR Case 2006-022 established thresholds for contractor performance assessments. FAR Case 2008-016 required the submission of contractor performance assessments for defective cost or pricing data and terminations for default or cause.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule codifies in the FAR existing guidelines and practices. The evaluation factors and rating system language proposed are currently that which are used by Federal agencies. There are no new requirements on small businesses.

Therefore, an Initial Regulatory Flexibility Analysis has not been performed. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2009-042), in correspondence.

IV. Paperwork Reduction Act

The proposed rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

9. Revise section 42.1503 to read as follows:

42.1503 Procedures.

(a) Agency procedures for the past performance evaluation system shall generally provide for input to the evaluations from the technical office, contracting office and, where appropriate, end users of the product or service. Agency procedures shall identify and assign past performance

evaluation roles and responsibilities to those individuals responsible for preparing interim and final performance evaluations (e.g., contracting officer representatives and program managers). If agency procedures do not specify the individuals responsible for past performance evaluation duties, the contracting officer will remain responsible for this function. Those individuals identified may obtain information for the evaluation of performance from the program office, administrative contracting office, audit office, end users of the product or service, and any other technical or business advisor, as appropriate. Interim evaluations shall be prepared on an annual basis, in accordance with agency procedures.

(b)(1) The evaluation report should reflect how the contractor performed. The report should include clear relevant information that accurately depicts the contractor's performance, and be based on objective facts supported by program and contract performance data. The evaluations should be tailored to the contract type, size, content, and complexity of the contractual requirements.

(2) Evaluation factors for each assessment shall include, at a minimum, the following:

- (i) Technical or Quality.
- (ii) Cost Control (as applicable).
- (iii) Schedule/Timeliness.
- (iv) Management or Business Relations.
- (v) Small Business Subcontracting (as applicable).

(3) These evaluation factors, including subfactors, may be tailored, however, each factor and subfactor shall be evaluated and supporting narrative provided.

(4) Each evaluation factor, as listed in paragraph (b)(2) of this section, shall be rated in accordance with a five scale rating system (e.g., exceptional, very good, satisfactory, marginal, and unsatisfactory). Rating definitions shall reflect those contained in the CPARS Policy Guide available at <http://www.cpars.gov/>.

(c)(1) When the contract provides for incentive fees, the incentive-fee contract performance evaluation shall be entered into CPARS. (See 16.401(f).)

(2) When the contract provides for award fee, the award fee-contract performance adjectival rating as described in 16.401(e)(3) shall be entered into CPARS.

(d) Agency evaluations of contractor performance, including both negative and positive evaluations, prepared under this subpart shall be provided to

the contractor as soon as practicable after completion of the evaluation.

(e) Agencies shall require—

(1) Performance issues be documented promptly during contract performance to ensure critical details are included in the evaluation;

(2) The award fee determination, if required, align with the contractor's performance and be reflected in the evaluation;

(3) Timely assessments and quality data (see the quality standards in the CPARS Policy Guide at <http://www.cpars.gov/>) in the contractors past performance evaluation; and

(4) Frequent assessment (e.g., monthly or quarterly) of agency compliance with the reporting requirements in 42.1502, so agencies can readily identify delinquent past performance reports and monitor their reports for quality control.

(f) Agencies shall prepare and submit all past performance reports electronically into the CPARS at <http://www.cpars.gov/>. These reports are transmitted to the Past Performance Information Retrieval System (PPIRS) at <http://www.ppirs.gov/>. Past performance reports for classified contracts and special access programs shall not be reported in CPARS, but will be reported as stated in this subpart and in accordance with agency procedures. Agencies shall ensure that appropriate management and technical controls are in place to ensure that only authorized personnel have access to the data and the information safeguarded in accordance with 42.1503(b).

(g) Agencies shall use the past performance information in PPIRS that is within the last three years (six for construction and architect-engineer contracts) and information contained in the Federal Awardee Performance and Integrity Information System (FAPIIS), e.g., termination for default or cause.

(h) *Other contractor performance information.* (1) Agencies shall ensure information is reported in the FAPIIS module of CPARS within 3 working days after a contracting officer—

(2) Agencies shall establish CPARS focal points who will register users to report data into the FAPIIS module of CPARS (available at <http://www.cpars.gov/>, then select FAPIIS).

(3) The primary duties of the CPARS focal point is to administer CPARS and FAPIIS access. Agencies must also establish PPIRS group managers. The primary duties of the PPIRS group managers are to grant or deny access to PPIRS. The CPARS Reference Material, on the Web site, includes reporting instructions.

PART 49—TERMINATION OF CONTRACTS

49.402–8 [Amended]

10. Amend section 49.402–8 by removing “42.1503(f)” and adding “42.1503(h)” in its place.
