

risk behaviors; (b) describe the prevalence of and trends in HIV testing; (c) describe the prevalence of and trends in use of HIV prevention services; and (d) identify met and unmet needs for HIV prevention services. This information will be used to monitor progress toward the National HIV/AIDS Strategy objectives, and will be shared with health departments, community based organizations, community planning groups and other stakeholders to improve prevention services.

This project also addresses the goals of CDC's HIV prevention strategic plan, specifically the goal of strengthening the national capacity to monitor the HIV epidemic to better direct and evaluate prevention efforts.

The Centers for Disease Control and Prevention request approval for data collection for a period of 3 years. Data will be collected through anonymous online surveys completed by MSM in 56

U.S. jurisdictions (all 50 U.S. states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands), with oversampling in 21 metropolitan statistical areas (MSAs) with high AIDS prevalence.

Internet-using MSM will be recruited through a direct marketing method that utilizes selective placement of banner advertisements on non-profit and privately owned websites. Individuals interested in learning more about the survey will click on the banner ad and will be directed to a one-minute screening interview to determine eligibility for participation in a behavioral assessment with an estimated duration of 14 minutes. The data from the assessment will provide estimates of behavior related to the risk of HIV and other sexually transmitted diseases, history of HIV testing, and use of HIV prevention services. No other

federal agency collects this type of information nationally from MSM. These data are expected to have substantial impact on prevention program development and monitoring at the local, state, and national levels.

CDC estimates that the proposed web-based behavioral assessment will involve, per year in the 56 U.S. jurisdictions and 21 oversampled MSAs, eligibility screening of 309,090 persons. Of these, an estimated 139,090 either will not be interested in completing the behavioral assessment or will be ineligible after completing the screener and an estimated 170,000 eligible persons will participate in the behavioral assessment, resulting in a total of 510,000 eligible survey respondents and 417,270 ineligible screened persons during a 3-year period.

Participation of respondents is voluntary and there is no cost to the respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Form	No. of respondents	No. of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Persons screened for eligibility	Eligibility Screener Behavioral Assessment.	309,090	1	1/60	5,152
Eligible persons		170,000	1	14/60	39,667
TOTAL					44,819

Centers for Disease Control and Prevention

Subcommittee for Dose Reconstruction Reviews (SDRR), Advisory Board on Radiation and Worker Health (ABRWH or the Advisory Board), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC), announces the following meeting for the aforementioned subcommittee:

Time and Date: 9 a.m.—5 p.m., July 15, 2011.

Place: Cincinnati Airport Marriott, 2395 Progress Drive, Hebron, Kentucky 41018,

Telephone (859)334-4611, Fax (859)334-4619.

Status: Open to the public, but without a public comment period. To access by conference call dial the following information 1(866)659-0537, Participant Pass Code 9933701.

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3,

2001, renewed at appropriate intervals, and will expire on August 3, 2011.

Purpose: The Advisory Board is charged with (a) Providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee for Dose Reconstruction Reviews was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

Matters to be Discussed: The agenda for the Subcommittee meeting includes: Selection of individual radiation dose reconstruction cases to be considered for review by the Subcommittee to evaluate the implementation of the Program Evaluation Report: OCAS-PER-012—Evaluation of Highly Insoluble Plutonium Compounds; pre-selection of new radiation dose reconstruction cases for review (set 15); discussion of dose reconstruction cases

under review (sets 7–10); OCAS dose reconstruction quality management and assurance activities.

The agenda is subject to change as priorities dictate.

In the event an individual cannot attend, written comments may be submitted. Any written comments received will be provided at the meeting and should be submitted to the contact person below well in advance of the meeting.

Contact Person for more Information: Theodore Katz, Executive Secretary, NIOSH, CDC, 1600 Clifton Road, Mailstop E-20, Atlanta, Georgia 30333, Telephone (513) 533-6800, Toll Free 1(800) CDC-INFO, e-mail ocas@cdc.gov.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: June 23, 2011.

Elaine L. Baker,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

Subcommittee on Procedures Review, Advisory Board on Radiation and Worker Health (ABRWH), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting for the aforementioned subcommittee:

TIME AND DATE: 9 a.m.–5 p.m., July 14, 2011.

PLACE: Cincinnati Airport Marriott, 2395 Progress Drive, Hebron, Kentucky 41018, Telephone (859)334-4611, Fax (859)334-4619.

STATUS: Open to the public, but without a public comment period. To access by conference call dial the following information: (866)659-0537, Participant Pass Code 9933701.

Background: The ABRWH was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the compensation program. Key functions of

the ABRWH include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the ABRWH to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, and will expire on August 3, 2011.

PURPOSE: The ABRWH is charged with (a) Providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is a reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee on Procedures Review was established to aid the ABRWH in carrying out its duty to advise the Secretary, HHS, on dose reconstructions. The Subcommittee on Procedures Review is responsible for overseeing, tracking, and participating in the reviews of all procedures used in the dose reconstruction process by the NIOSH Division of Compensation Analysis and Support (DCAS) and its dose reconstruction contractor.

MATTERS TO BE DISCUSSED: The agenda for the Subcommittee meeting includes discussion of the Norton Company Special Exposure Cohort Petition (1962–2009) and discussion of the following ORAU and OCAS procedures: ORAUT-RPRT-0044 (“Analysis of Bioassay Data with a Significant Fraction of Less-Than Results”), OCAS TIB-0013 (“Special External Dose Reconstruction Considerations for Mallinckrodt Workers”), OTIB-019 (“Analysis of Coworker Bioassay Data for Internal Dose Assignment”), OTIB-0029 (“Internal Dosimetry Coworker Data for

Y-12”), OTIB-0047 (“External Radiation Monitoring at the Y-12 Facility During the 1948–1949 Period”), OTIB-0049 (“Estimating Doses for Plutonium Strongly Retained in the Lung”), OTIB-0052 (“Parameters to Consider When Processing Claims for Construction Trade Workers”), OTIB-0054 (“Fission and Activation Product Assignment for Internal Dose-Related Gross Beta and Gross Gamma Analyses”), and OTIB-0070 (“Dose Reconstruction During Residual Radioactivity Periods at Atomic Weapons Employer Facilities”); and a continuation of the comment-resolution process for other dose reconstruction procedures under review by the Subcommittee.

The agenda is subject to change as priorities dictate.

This meeting is open to the public, but without a public comment period. In the event an individual wishes to provide comments, written comments may be submitted. Any written comments received will be provided at the meeting and should be submitted to the contact person below in advance of the meeting.
