

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified one non-hour cost burden for this collection. In § 251.5, BOEMRE charges a \$2,012 G&G application fee. We have identified no other non-hour paperwork cost burden.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”.

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the non-hour cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our

submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BOEMRE Information Collection Clearance Officer: Arlene Bajusz (703) 787–1025.

Dated: June 1, 2011.

Doug Slitor,

Acting Chief, Office of Offshore Regulatory Programs.

Fish and Wildlife Service

[FWS–R1–R–2011–N068; 1265–0000–10137–S3]

James Campbell National Wildlife Refuge, Honolulu County, HI; Draft Comprehensive Conservation Plan and Environmental Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of our draft comprehensive conservation plan and environmental assessment (Draft CCP/EA) for the James Campbell National Wildlife Refuge (Refuge), for public review and comment. The Draft CCP/EA describes our proposal for managing the Refuge for the next 15 years.

DATES: To ensure consideration, please send your written comments by August 1, 2011.

ADDRESSES: The Draft CCP/EA is available on our Web site: <http://www.fws.gov/jamescampbell/>. A limited number of printed and CD–ROM copies of the Draft CCP/EA are available by request. You may request a copy of the Draft CCP/EA or submit comments on it by any of the following methods.

E-mail:
FW1PlanningComments@fws.gov. Include “James Campbell Refuge CCP” in the subject line of the message.

Fax: Attn: David Ellis, Project Leader, (808) 637–3578.

U.S. Mail: David Ellis, Project Leader, O’ahu National Wildlife Refuge Complex, 66–590 Kamehameha Highway, Room 2C, Hale’iwa, HI 96712.

FOR FURTHER INFORMATION CONTACT: David Ellis, Project Leader, (808) 637–6330.

SUPPLEMENTARY INFORMATION:

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

Public Outreach

We started the CCP planning process by publishing a Notice of Intent (NOI) in the **Federal Register** on December 1, 2008 (74 FR 8564), announcing our intention to complete a CCP/EA for the James Campbell and Pearl Harbor National Wildlife Refuges (the Pearl Harbor National Wildlife Refuge CCP was completed in fall 2010). Simultaneously, we released Planning Update 1. We invited the public to two open house meetings and requested public comments in the NOI and Planning Update 1. We held the open house meetings in Pearl City, Hawai’i, on December 9, 2008; and in Kahuku, Hawai’i on January 8, 2009. In Planning Update 2, distributed in June 2009, we provided a summary of the comments we received and described Refuge resources. Planning Update 3, distributed in August 2010, provided a preview of the management goals as well as a summary of each management alternative designed to accomplish these goals. All of the public comments we

have received to date were considered during development of the Draft CCP/EA.

Draft CCP Alternatives We Are Considering

Alternative A, No Action

Under Alternative A, we would continue current management. This includes focusing threatened and endangered species management on protection and successful nesting, in support of the statewide effort to implement the Hawaiian Waterbird Recovery Plan. Public use programs would remain virtually unchanged. Units would remain closed to general public entry except for seasonal docent-guided tours and Special Use Permits issued on a case-by-case basis for environmental education, research, and other compatible uses. Newly acquired expansion lands would receive custodial oversight only, no habitat restoration would occur, and no additional visitor services would be provided. Both current commercial aquaculture leases would remain in effect until 2023 at which time, by prior agreement, they would expire.

Alternative B, Partial Restoration and Management of Refuge Expansion Lands

Current habitat management programs would continue. On newly acquired Refuge lands, only the highest priority wetlands and coastal dunes would be restored and fenced to exclude large predators. Within five years of acquiring new Refuge lands, a Visitor Services Plan (VSP) would be developed to identify, evaluate, and carefully select the types of wildlife-oriented activities we would provide the public, and the sites and locations for infrastructure needed to fully support safe, meaningful, and high-quality programs for the public. Infrastructure needs identified by the VSP would include safe roads, parking areas, trails, and an overlook. We would also identify and develop any new special regulations in the VSP, which may be needed to protect sensitive wildlife resources, the fragile coastline, and the visiting public. During the interim five-year period until the VSP is prepared, the current public use program would continue under Alternative B, with slight increases in opportunities for wildlife observation and photography. The Refuge would participate and partner with other agencies and the community of Kahuku, to develop, evaluate, and implement projects to mitigate flood damage to the local area, if practical and feasible. Both current commercial aquaculture leases

will remain in effect until 2023, at which time, by prior agreement, they will expire.

Alternative C, Full Restoration and Management of Refuge Expansion Lands

In addition to management actions identified in Alternative B, all wetlands, coastal dunes/strand, and scrub/shrub habitats would be restored and managed. Trial use of predator-proof fencing would be initiated on selected dune or wetland sites, to protect seabirds or waterbirds. Abandoned aquaculture facilities would be cleaned up, and the habitat would be restored to natural conditions or other approved uses.

Public Availability of Documents

We encourage you to stay involved in the CCP planning process by reviewing and commenting on the proposals we have developed in the Draft CCP/EA. Copies of the Draft CCP/EA are available by request from David Ellis, Project Leader, O'ahu National Wildlife Refuge Complex, 66-590 Kamehameha Highway, Room 2C, Hale'iwa, HI 96712. The Draft CCP/EA will also be available for viewing and downloading on the Internet at <http://www.fws.gov/pacific/planning>.

Next Steps

After this comment period ends, we will analyze the comments and address them in the Final CCP and decision document.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 21, 2011.

Chris McKay,

Acting Regional Director, Region 1, Portland, Oregon.

DEPARTMENT OF INTERIOR

Bureau of Land Management

[LLCO956000.L14200000 BJ0000]

Notice of Filing of Plats

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of filing of plats.

SUMMARY: The Bureau of Land Management (BLM) Colorado State Office is publishing this notice to inform the public of the intent to file the land survey plats listed below, and to afford all affected parties a proper period of time to protest this action, prior to the plat filing.

DATES: Unless there are protests of this action, the filing of the plats described in this notice will happen on August 1, 2011.

ADDRESSES: BLM Colorado State Office, Cadastral Survey, 2850 Youngfield Street, Lakewood, Colorado 80215-7093.

FOR FURTHER INFORMATION CONTACT: Randy Bloom, Chief Cadastral Surveyor for Colorado, (303) 239-3856.

SUPPLEMENTARY INFORMATION:

The plat and field notes of the dependent resurveys and subdivision of Section 36, in Township 15 South, Range 98 West, Sixth Principal Meridian, Colorado, were accepted on November 4, 2010.

The plat and field notes of the dependent resurvey in Township 15 South, Range 97 West, Sixth Principal Meridian, Colorado, were accepted on November 4, 2010.

The plat and field notes of the dependent resurvey and survey in Township 4 South, Range 3 East, Ute Meridian, Colorado, were accepted on November 4, 2010.

The plat and field notes of the dependent resurvey and survey in Fractional Township 12 South, Range 99 West, Sixth Principal Meridian, Colorado, were accepted on November 9, 2010.

The supplemental plat of Section 36, in Township 38 North, Range 9 West, New Mexico Principal Meridian, Colorado, was accepted on December 3, 2010.

The plat and field notes of the dependent resurvey and subdivision of Section 18, in Township 12 South, Range 71 West, Sixth Principal Meridian, Colorado, were accepted on December 15, 2010.

The plat and field notes of the corrective dependent resurvey in Township 1 North, Range 2 West, Ute Meridian, Colorado, were accepted on December 28, 2010.

The plat incorporating the field notes of the dependent resurvey and metes-and-bounds survey of Tract 37, in Township 15 South, Range 77 West, Sixth Principal Meridian, Colorado, was accepted on March 2, 2011.

The plat and field notes of the dependent resurvey and survey in Township 15 South, Range 81 West, Sixth Principal Meridian, Colorado, were accepted on May 10, 2011.
