DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Coral Reef Conservation Program Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before August 30, 2011.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW.,

Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Christy Loper, (301) 713-3000 Ext 125 or at Christy.Loper@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The purpose of this information collection is to obtain information from individuals in the seven United States (U.S.) jurisdictions containing coral reefs. Specifically, NOAA is seeking information on the knowledge, attitudes and reef use patterns, as well as information on knowledge and attitudes related to specific reef protection activities. In addition, this survey will provide for the ongoing collection of social and economic data related to the communities affected by coral reef conservation programs.

The Coral Reef Conservation Program (CRCP), developed under the authority of the Coral Reef Conservation Act of 2000, is responsible for programs intended to enhance the conservation of coral reefs. NOAA intend to use the information collected through this instrument for research purposes as well as measuring and improving the results of our reef protection programs. Because many of the efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP staff to ensure programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

II. Method of Collection

Information will be collected in the means most efficient and effective in the individual jurisdiction. For the three years covered by this clearance NOAA expect to use face-to-face interviews in American Samoa, internet-based survey techniques in Hawaii and Florida, and telephone and internet as appropriate in Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the U.S. Virgin Islands.

III. Data

OMB Control Number: None.

Form Number: NA.

Type of Review: Regular submission (request for a new information collection).

Affected Public: Individuals or households.

Estimated Number of Respondents: 1,834.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision of a currently approved information collection. The StormReady Program, like the TsunamiReady and StormReady/TsunamiReady programs also in this information collection, is a voluntary program offered to provide guidance and incentive to officials who wish to improve their hazardous weather operations, e.g. community preparedness and local warning dissemination. Applicants fill out a detailed application that demonstrates how they meet certain guidelines that qualify them for StormReady recognition. The full StormReady recognition is not appropriate for all entities, yet they should still be recognized for their efforts in preparing for hazardous weather. To this end, the National Weather Service created the StormReady Supporter program. StormReady Supporter is a voluntary program offered to provide guidance and incentive to entities, such as local hospitals or businesses, who wish to improve their respective hazardous weather preparations. Entities will use the application to apply for a one-time StormReady Supporter recognition. The government will use the application form to determine whether an entity has met the guidelines for a StormReady Supporter recognition.

II. Method of Collection

Applications will be submitted on paper (faxed or mailed) or electronically.

III. Data

OMB Control Number: 0648-0419.

Proposed Information Collection; Comment Request; National Saltwater Angler Registry and State Exemption Program

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is an extension of a currently approved collection.

The National Saltwater Angler Registry Program (Registry Program) was established to implement recommendations included in the review of national saltwater angling data collection programs conducted by the National Research Council (NRC) in 2005/2006, and the provisions of the Magnuson-Stevens Reauthorization Act, codified at Section 401(g) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which require the Secretary of Commerce to commence improvements to recreational fisheries surveys, including establishing a national saltwater angler and for-hire vessel registry, by January 1, 2009. A final rule that includes regulatory measures to implement the Registry Program (Regulation Identifier Number (RIN) 0648-AW10) was adopted and codified in 50 CFR 600.1400 to 600.1417.

The Registry Program collects identification and contact information from those anglers and for-hire vessels who are involved in recreational fishing in the United States Exclusive Economic Zone or for anadromous fish in any waters, unless the anglers or vessels are exempted from the registration requirement. The data that is collected includes: for anglers—name, address, date of birth, telephone contact information and region(s) of the country in which they fish; for for-hire vessels—owner and operator name, address, date of birth, telephone contact information, vessel name and registration/documentation number and home port or primary operating area. This information is compiled into a national and/or series of regional registries that is being used to support surveys of recreational anglers and for-hire vessels to develop estimates of recreational angling effort.

The Secretary is to also exempt from the federal registration requirement those anglers and vessels that are licensed or registered by a state if the state provides sufficient identification and contact information for use in recreational surveys.

II. Method of Collection

Persons may register in two ways: Via a toll-free telephone number or on line
