SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document which the State revises as necessary to address its unique air pollution problems. Therefore, EPA from time to time must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference Federally-approved SIPs, as a result of consultations between EPA and the Office of the Federal Register (OFR). The description of the revised SIP document, IBR procedures and “Identification of plan” format are discussed in further detail in the May 22, 1997 **Federal Register** document. On February 25, 2005 (70 FR 9450), EPA published a document in the **Federal Register** beginning the new IBR procedure for Pennsylvania, including Philadelphia and Allegheny Counties. On January 3, 2007 (72 FR 200), and March 25, 2009 (74 FR 13014), EPA published updates to the IBR materials for Pennsylvania.

Since the publication of the last IBR update, EPA has approved the following

regulatory changes to all sections of the following Pennsylvania and Allegheny County regulations:

A. Paragraph 52.2020(c)(1)—Pennsylvania DEP Regulations

 - d. Part H (Reporting, Testing & Monitoring), section 2108.03.

II. EPA Action

In this action, EPA is doing the following:

A. Announcing the Update to the IBR Material as of April 1, 2011

B. In Paragraph 40 CFR 52.2020(c)(1)

1. Correcting typographical errors in Title 25, the first entry of Section 123.22 (“Title/subject” column) and Section 129.93 (“State citation” column).
2. Correcting typographical errors in Title 67, Section 177.22 (“Title/subject” column) and the heading entitled “Registration Recall Procedure for Violation of §§ 177.301–177.305 (Relating To On-Road Testing).”

C. In Paragraph 52.2020(c)(2)

1. Adding text in the “Additional explanation/§ 52.2063 citation” columns to help distinguish the four entries for article XXI, part A, section 2101.20 (Definitions).
2. Correcting a typographical error in the title heading for Article XXI, Part E, Subpart 2.
3. Revising the text in the “Additional explanation/§ 52.2063 citation” column for Regulation 2105.21.

D. In Paragraph 52.2020(d)(1)

1. Revising the heading in the second column from “Permit No.” to “Permit Number.”
2. Correcting the **Federal Register** citation in the “EPA approval date” column for Tarkett, Incorporated and Hacros Pigments, Inc.

E. In Paragraph 52.2020(e)(1)

1. Removing the words “OFR error” found in the “Name of non-regulatory

SIP revision” and “Applicable geographic area” columns for the entry “Continuous Source Testing Manual.”

2. Correcting the date format in the “EPA approval date” column for the entry “Carbon Monoxide Maintenance Plan—Philadelphia County.”

3. Correcting the date format in the “State submittal date” column for the entry “8–Hour Ozone Maintenance Plan and 2002 Base Year Emissions Inventory—Tioga County.”

F. In Paragraph 52.2020(e)(2)

1. Revising the heading in the second column from “Permit No.” to “Permit Number.”

2. Correcting the date format in the “EPA approval date” column for the following entries: USX/US Steel Group—Fairless Hills, Rockwell Heavy Vehicle, Inc.—New Castle Forge Plant, and Mercersburg Tanning Co.

EPA has determined that today’s rule falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today’s rule simply codifies provisions which are already in effect as a matter of law in Federal and approved State programs. Under section 553 of the APA, an agency may find good cause where procedures are “impractical, unnecessary, or contrary to the public interest.” Public comment is “unnecessary” and “contrary to the public interest” since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations and incorrect table entries.

III. Statutory and Executive Order Reviews

A. General Requirements

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office

of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a

“major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Pennsylvania SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” update action for Pennsylvania.

I. Background Information
 On July 18, 1997, EPA promulgated new NAAQS for 8-hour ozone and for fine particulate matter (PM_{2.5}). This action is being taken, in part, in response to the promulgation of the 1997 8-hour ozone and PM_{2.5} NAAQS. Section 110(a)(1) of the CAA requires states to submit a SIP revision to address a new or revised NAAQS within 3 years after promulgation of such standards, or within such shorter period as EPA may prescribe. Section 110(a)(2) lists the elements that such new SIPs must address, as applicable, including section 110(a)(2)(D)(i), which pertains to interstate transport of certain emissions. Section 110(a)(2)(D)(i) of the CAA requires that a SIP must contain adequate provisions prohibiting any source or other type of emissions activity within the state from emitting
