General Services Administration (GSA). GSA has conditionally accepted the Report of Excess pending (i) NASA’s certification that all action necessary to protect human health and the environment with respect to hazardous substances on the property has been taken or receipt of EPA’s written concurrence that an approved and installed remedial design is operating properly and successfully, OR (ii) the Governor’s concurrence in the suitability of the property for transfer per CERCLA Section 120(h)(3)(C).

In 2007, a Consent Order among NASA, Boeing, DOE, and DTSC was signed addressing demolition of certain infrastructure and environmental cleanup of SSFL. NASA entered into an Administrative Order on Consent (AOC) for Remedial Action with DTSC on December 6, 2010 “to further define and make more specific NASA’s obligations with respect to the cleanup of soils at the Site.” Based on the 2010 Order, NASA is required to complete a federal environmental review pursuant to NEPA, NASA Procedural Requirement (NPR) 8580.1, and Executive Order (EO) 12114. An EIS is being prepared by NASA to include demolition of site infrastructure and soil cleanup, pursuant to the AOC, and groundwater remediation within Area II and a portion of Area I (LOX Plant) of SSFL.

As part of the environmental review process, certain studies are being completed in order to characterize the existing conditions and inform the analysis and consultation. These include surveys for wildlife, critical habitat, rare plants, wetlands, and archaeological and cultural resources. The findings of these studies will be incorporated into the EIS.

Alternatives
In order to prepare SSFL for disposition, NASA proposes the demolition of SSFL structures and cleanup of the site to meet the AOC commitments. The EIS will consider a range of alternatives that meets NASA’s objectives to clean up soil and groundwater contamination at the portion of the SSFL site administered by NASA. Implementation of this proposed action would occur by implementing one Demolition Alternative and one Environmental Cleanup Alternative, from the following:

**Demolition Alternatives**
- Demolition Alternative;
- No Demolition Alternative (No Action).

**Environmental Cleanup Alternatives**
- Alternative for Soil Cleanup to Background Levels and Groundwater Cleanup to Suburban Residential Cleanup Goals;
- Alternative for Soil and Groundwater Cleanup to Suburban Residential Cleanup Goals;
- Alternative for Soild and Groundwater Cleanup to Industrial Cleanup Goals;
- Alternative for Soil and Groundwater Cleanup to Recreational Cleanup Goals;
- No Environmental Cleanup Alternative (No Action).

Per NEPA, NASA is required to include analysis of the “No Action” alternative. For the purpose of this analysis two No Action Alternatives are presented. The No Action Alternative analysis involves no environmental cleanup at the site and/or no demolition of test stands and ancillary structures on the NASA-administered property.

NASA anticipates that the areas of potential environmental impact from each alternative of most interest to the public are likely to include: Soil removal/erosion; hazardous waste storage and disposal; potential impacts to threatened, endangered, and sensitive species; effects on critical habitat and wetlands; impacts to cultural and historic resources; air quality and greenhouse gas emissions; and disturbance to groundwater, surface water, or geologic structure.

**Scoping Meetings**
NASA plans to hold three public scoping meetings to introduce the SSFL project and EIS planning process and to solicit public comments regarding alternatives and environmental issues to be considered in the EIS. The public scoping meetings are scheduled as follows:
1. Chatsworth, Tuesday, August 16, 2011, 6–8:30 p.m. at the Chatsworth Hotel, 9777 Topanga Canyon Road, Chatsworth, CA 91311.
2. Simi Valley, Wednesday, August 17, 6–8:30 p.m. at the Grand Vista, 999 Enchanted Way, Simi Valley, CA 93065.
3. West Hills, Thursday, August 18, 9:30–12 at the Corporate Pointe at West Hills, 8413 Fallbrook Ave, West Hills, CA 91304 areas.

During the EIS planning process, the public will be provided several opportunities for involvement, the first of which is initiated with this NOI and is referred to as scoping. In accordance with NEPA, the purpose of scoping is to provide “an early and open process for determining the scope of issues to be addressed and for identifying the significant issues related to a proposed action”. Future opportunities for comment and involvement will include reviews of the Draft and Final EIS. The availability of these documents will be published in the Federal Register and through local news media to ensure that all members of the public have the ability to actively participate in the NEPA process.

In conclusion, written public input is hereby requested on alternatives and environmental issues and concerns, including impacts to historic properties, associated with Demolition and Environmental Cleanup Activities at NASA’s SSFL site in Ventura County, California that should be addressed in the EIS.

Olga M. Dominguez,
Assistant Administrator, Office of Strategic Infrastructure.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (11–057)]

Notice of Intent To Grant Partially Exclusive License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant Partially Exclusive License.

SUMMARY: This notice is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). NASA hereby gives notice of its intent to grant a partially exclusive license in the United States to practice the inventions described and claimed in USPN 6,133,036, Preservation Of Liquid Biological Samples, NASA Case No. MSC–22616–2 and USPN 6,716,392, Preservation Of Liquid Biological Samples, NASA Case No. MSC–22616–3 to Advanced Preservation Technologies, LLC, having its principal place of business in Warner Robins, Georgia. The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective partially exclusive license will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7.

DATES: The prospective partially exclusive license may be granted unless within fifteen (15) days from the date of this published notice, NASA receives written objections including evidence and argument that establish that the grant of the license would not be
consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7. Competing applications completed and received by NASA within fifteen (15) days of the date of this published notice will also be treated as objections to the grant of the contemplated partially exclusive license.

Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

ADDITIONS: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, NASA/Johnson Space Center, 2101 NASA Parkway, Houston, Texas 77058, Mail Code AL; Phone (281) 483–3021; Fax (281) 483–6936.

FOR FURTHER INFORMATION CONTACT: Kurt G. Hammerle, Intellectual Property Attorney, Office of Chief Counsel, NASA/Johnson Space Center, 2101 NASA Parkway, Houston, Texas 77058, Mail Code AL Phone (281) 483–1001; Fax (281) 483–6936. Information about other NASA inventions available for licensing can be found online at http://technology.nasa.gov/.

Dated: June 28, 2011.

Richard W. Sherman, Deputy General Counsel.

NUCLEAR REGULATORY COMMISSION

Sunshine Act Notice

DATE: Weeks of July 4, 11, 18, 25, August 1, 8, 2011.

PLACE: Commissioners’ Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

Week of July 4, 2011

There are no meetings scheduled for the week of July 4, 2011.

Week of July 11, 2011—Tentative

Tuesday, July 12, 2011

9:30 a.m.

This meeting will be Web cast live at the Web address—http://www.nrc.gov.

Week of July 18, 2011—Tentative

Tuesday, July 19, 2011

9:30 a.m.

Briefing on the Task Force Review of NRC Processes and Regulations Following Events in Japan (Public Meeting) (Contact: Nathan Sanfilippo, 301–415–3951).

This meeting will be Web cast live at the Web address—(http://www.nrc.gov).

Week of July 25, 2011—Tentative

Thursday, July 28, 2011

9 a.m.

Briefing on Severe Accidents and Options for Proceeding with Level 3 Probabilistic Risk Assessment Activities (Public Meeting) (Contact: Daniel Hudson, 301–251–7919).

This meeting will be Web cast live at the Web address—http://www.nrc.gov.

Week of August 1, 2011—Tentative

There are no meetings scheduled for the week of August 1, 2011.

Week of August 8, 2011—Tentative

There are no meetings scheduled for the week of August 8, 2011.
