

insight into (1) whether the programs' performance data are of high quality and the methods used to aggregate and report those data are sound; and (2) whether the local evaluations conducted by grantees (or their local evaluators) are of high quality and yield information that can be used to improve education programs. This OMB submission requests approval for the use of interview protocols for collecting information from program grantees and their local evaluators and program office contractors. All interview guides are designed to address the major research questions associated with this project. All other data used to address the audit's research questions will come from sources that will not require OMB approval.

Copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4647. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-401-0920. Please specify the complete title of the information collection and OMB Control Number when making your request.

Massachusetts Marine Sanitation Device Standard—Notice of Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Determination.

SUMMARY: The Regional Administrator of the Environmental Protection Agency—New England Region, has determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the coastal waters of Chatham, Orleans, Eastham, Wellfleet, Truro, and Provincetown, collectively termed the Outer Cape Cod for the purpose of this notice.

ADDRESSES: *Docket:* All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically in <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Ann Rodney, U. S. Environmental Protection Agency—New England Region, Office of Ecosystem Protection, Oceans and Coastal Protection Unit, Five Post Office Square, Suite 100, OEP06-1, Boston, MA 02109-3912. Telephone: (617) 918-1538. Fax number: (617) 918-0538. E-mail address: rodney.ann@epa.gov.

SUPPLEMENTARY INFORMATION: On April 29, 2011, EPA published a notice that the Commonwealth of Massachusetts had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of the Outer Cape Cod. Four comments were received on this petition. The response to comments can be obtained utilizing the above contact information.

The petition was filed pursuant to Section 312(f)(3) of Public Law 92-500, as amended by Public Laws 95-217 and 100-4, for the purpose of declaring these waters a No Discharge Area (NDA).

Section 312(f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such State require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

This Notice of Determination is for the waters of the Outer Cape Cod. The NDA boundaries are as follows:

Waterbody/General Area	From Longitude	From Latitude	To Longitude	To Latitude
The westernmost landward boundary of the NDA starting on the south side of Chatham is an imaginary line drawn between the western part of the outlet of Stage Harbor and the northern tip of Monomoy Island (<i>All state waters east of Monomoy Island are included in this NDA</i>)	69° 59' 0" W	41° 39' 26" N	69° 59' 0" W	41° 37' 20" N
The southwestern boundary then continues from the southern tip of Monomoy Island through two navigational aids to the state/federal waters boundary	70° 0' 36" W	41° 32' 30" N	70° 0' 11" W	41° 29' 15" N
The landward boundary of the NDA follows the mean high water line from Chatham to Provincetown except at an imaginary line drawn between: (<i>This imaginary line is across the mouth of Pleasant Bay, which is already an NDA</i>)	69° 56' 36" W	41° 39' 40" N	69° 56' 6" W	41° 40' 56" N
The westernmost boundary on the northern side of Cape Cod is an imaginary line drawn from three miles off shore to the mean high water line in Provincetown (<i>This imaginary line is contiguous with the Cape Cod Bay NDA</i>)	70° 10' 0" W	42° 7' 59" N	70° 10' 0" W	42° 4' 47" N

The boundaries were chosen based on easy line-of-sight locations and generally represent all navigational waters. The area includes the municipal waters of Chatham, Orleans, Eastham,

Wellfleet, Truro, and Provincetown, and from mean high water out to the state/federal boundary.

The information submitted to EPA by the Commonwealth of Massachusetts

certifies that there is one landside pumpout facility at Goose Hummock Marine in Orleans within the proposed area available to the boating public. The location, contact information, hours of

operation, and water depth are provided at the end of this notice.

Based on the examination of the petition and its supporting documentation, and information from site visits conducted by EPA New

England staff, EPA has determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination.

This determination is made pursuant to Section 312(f)(3) of Public Law 92–500, as amended by Public laws 95–217 and 100–4.

PUMPOUT FACILITY WITHIN THE NO DISCHARGE AREA
[Outer Cape COD]

Name	Location	Contact info.	Hours	Mean low water depth
Goose Hummock Marine, Nauset Harbor.	13 Old County Rd., Orleans, MA	508–255–2620 VHF 16	On call	3 ft.

Dated: June 27, 2011.

Ira W. Leighton,
Acting Regional Administrator, New England Region.

Availability of Final NPDES General Permits MAG580000 and NHG580000 for Discharges From Publicly Owned Treatment Works Treatment Plants (POTW Treatment Plants) and Other Treatment Works Treating Domestic Sewage in the Commonwealth of Massachusetts and the State of New Hampshire

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Director of the Office of Ecosystem Protection, EPA–New England, is issuing a notice of availability of the final National Pollutant Discharge Elimination System (NPDES) General Permits for certain Publicly Owned Treatment Works Treatment Plants (POTW treatment plants) and Other Treatment Works Treating Domestic Sewage (collectively, “facilities”) in the Commonwealth of Massachusetts (including both Commonwealth and Indian country lands) and the State of New Hampshire. Throughout this document, these two permits are collectively referred to as the “Publicly Owned Treatment Works General Permit” (“POTW GP” or the “General Permit”). The General Permit replaces the prior POTW GP, which expired on September 23, 2010 (the “expired POTW GP”).

The POTW GP establishes Notice of Intent (“NOI”) requirements as well as effluent limitations, standards, and prohibitions for facilities that discharge

to fresh and marine waters. Coverage under these General Permits is available to facilities in Massachusetts classified as minor facilities and to facilities in New Hampshire classified as major or minor facilities. Owners and/or operators of these facilities, including those facilities whose authorization to discharge under the expired POTW GP was administratively continued in accordance with the Administrative Procedures Act (5 U.S.C. 558(c)) and 40 CFR 122.6, will be required to submit an NOI to be covered by the final POTW GP to both EPA–New England and the appropriate state agency, in accordance with the notification requirements of the General Permit. Following EPA and State review of the NOI, the facility will receive written notification from EPA whether coverage and authorization to discharge under the General Permit has been granted. The eligibility requirements for permit coverage, including the requirement that a facility have a receiving water dilution factor equal to or greater than 50, are provided in the General Permit. The General Permit does not cover new sources as defined under 40 CFR 122.2.

DATES: The POTW GP shall be effective on July 6, 2011 and will expire at midnight, July 6, 2016. In accordance with 40 CFR Part 23, these permits shall be considered issued for the purpose of judicial review two (2) weeks after the **Federal Register** Publication. Under Section 509(b)(2) of the Clean Water Act, the requirements in this permit may not be challenged at a later date in civil or criminal proceedings to enforce these requirements. In addition, these permits may not be challenged in other agency proceedings.

ADDRESSES: The required notification information to obtain permit coverage is provided in the POTW GP. This information shall be submitted to both EPA and the appropriate state agency. Notification information may be sent via regular or overnight mail to EPA–Region

1, Office of Ecosystem Protection, OEP06–1, 5 Post Office Square–Suite 100, Boston, Massachusetts 02109–3912; and to the appropriate state agency at the addresses provided in Attachment F to the POTW GP.

FOR FURTHER INFORMATION CONTACT: Additional information concerning the final POTW GP may be obtained by contacting Meridith Timony at 617–918–1533, between the hours of 9 a.m. and 5 p.m., Monday through Friday, excluding holidays. The General Permit and the Response to Comments document may be viewed over the Internet via the EPA–Region I Web site at <http://www.epa.gov/region1/npdes/potw-gp.html>. To obtain a paper copy of the documents, please contact Meridith Timony using the contact information provided above. A reasonable fee may be charged for copying requests.

Dated: May 26, 2011.

Ira W. Leighton,
Acting Regional Administrator, Region 1.

Pesticide Products; Receipt of Applications to Register New Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of applications to register new uses for pesticide products containing currently registered active ingredients, pursuant to the provisions of section 3(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. EPA is publishing this Notice of such applications, pursuant to section 3(c)(4) of FIFRA.
