[Docket No. USCG-2011-0561]

Drawbridge Operation Regulation; Christina River, Wilmington, DE

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Fifth Coast Guard District has issued a temporary deviation from the regulations governing the operation of the Walnut Street Bridge, across the Christina River, at mile 2.8, in Wilmington, DE. The deviation restricts the operation of the draw span in order to facilitate the inspection of the operational equipment.

DATES: This deviation is effective from 8 a.m. June 23, 2011 until 5 p.m. July 22, 2011.

SUPPLEMENTARY INFORMATION: The Delaware Department of Transportation (DELDOT), who owns and operates this bascule type drawbridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.237(c) to facilitate the inspection of the operational equipment within the structure.

The Walnut Street Bridge, at mile 2.8, across the Christina River in Wilmington, DE has a vertical clearance in the closed position to vessels of 13 feet above mean high water.

Under the regular operating schedule the bridge opens on signal as required by 117.237(c).

Under this temporary deviation, the Walnut Street Bridge will be closed to vessels and will require two hours advance notice to open each day from 8 a.m. to 5 p.m., on June 23, 2011 until July 1, 2011, and on July 18, 2011 until July 22, 2011. At all other times, the Walnut Street Bridge will open on signal.

Vessels that can pass under the closed span without an opening may do so at all times. There are no alternate routes for vessels transiting this section of the Christina River.

There are three vessels that travel through the bridge several times per week whose vertical clearance surpasses the closed bridge position, requiring an opening of the draw span. DELDOT has coordinated this replacement work with these three waterway users and the Coast Guard will inform the other users of the waterway through our Local and Broadcast Notices to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation. The bridge may be delayed when opening for an emergency during the proposed equipment inspections.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 23, 2011.

By direction of the Commander.

Waverly W. Gregory, Jr.,
Bridge Program Manager, Fifth Coast Guard District.
