### Substance Abuse and Mental Health Services Administration

#### Current List of Laboratories and Instrumented Initial Testing Facilities Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

**AGENCY:** Substance Abuse and Mental Health Services Administration, HHS.  
**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services (HHS) notifies Federal agencies of the Laboratories and Instrumented Initial Testing Facilities (IITF) currently certified to meet the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908); September 30, 1997 (62 FR 51118); April 13, 2004 (69 FR 19644); November 25, 2008 (73 FR 71858); December 10, 2008 (73 FR 75122); and on April 30, 2010 (75 FR 22809).

A notice listing all currently certified Laboratories and Instrumented Initial Testing Facilities (IITF) is published in the **Federal Register** during the first week of each month. If any Laboratory/IITF's certification is suspended or revoked, the Laboratory/IITF will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any Laboratory/IITF has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://www.workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Giselle Hersh, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1042, One Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

**SUPPLEMENTARY INFORMATION:** The Mandatory Guidelines were initially developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. The "Mandatory Guidelines for Federal Workplace Drug Testing Programs", as amended in the revisions listed above, requires {or set} strict standards that Laboratories and

Instrumented Initial Testing Facilities (IITF) must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies.

To become certified, an applicant Laboratory/IITF must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a Laboratory/IITF must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories and Instrumented Initial Testing Facilities (IITF) in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A Laboratory/IITF must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with the Mandatory Guidelines dated November 25, 2008 (73 FR 71858), the following Laboratories and Instrumented Initial Testing Facilities (IITF) meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

\* The Standards Council of Canada  
(SCC) voted to end its Laboratory  
Accreditation Program for Substance  
Abuse (LAPSA) effective May 12, 1998.  
Laboratories certified through that  
program were accredited to conduct  
forensic urine drug testing as required  
by U.S. Department of Transportation  
(DOT) regulations. As of that date, the  
certification of those accredited  
Canadian laboratories will continue  
under DOT authority. The responsibility  
for conducting quarterly performance  
testing plus periodic on-site inspections  
of those LAPSA-accredited laboratories  
was transferred to the U.S. HHS, with  
the HHS' NLCP contractor continuing to  
have an active role in the performance  
testing and laboratory inspection  
processes. Other Canadian laboratories  
wishing to be considered for the NLCP  
may apply directly to the NLCP  
contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to  
be qualified, HHS will recommend that  
DOT certify the laboratory (**Federal  
Register**, July 16, 1996) as meeting the  
minimum standards of the Mandatory  
Guidelines published in the **Federal  
Register** on April 30, 2010 (75 FR  
22809). After receiving DOT  
certification, the laboratory will be  
included in the monthly list of HHS-  
certified laboratories and participate in  
the NLCP certification maintenance  
program.

Dated: July 6, 2011.

### Bureau of Ocean Energy Management, Regulation and Enforcement

[Docket No. BOEM-2011-0053]

### Commercial Wind Lease Issuance and Site Characterization Activities on the Atlantic Outer Continental Shelf (OCS) Offshore New Jersey, Delaware, Maryland, and Virginia

**AGENCY:** Bureau of Ocean Energy  
Management, Regulation and  
Enforcement (BOEMRE), Interior.

**ACTION:** Notice of the availability of an  
environmental assessment.

**SUMMARY:** BOEMRE has prepared a draft  
environmental assessment (EA)  
considering the environmental impacts  
and socioeconomic effects of issuing  
renewable energy leases (which  
includes reasonably foreseeable site  
characterization activities—geophysical,  
geotechnical, archeological, and  
biological surveys—on those leases) in  
identified Wind Energy Areas (WEAs)  
offshore New Jersey, Delaware,  
Maryland, and Virginia. The draft EA  
also considers the reasonably  
foreseeable environmental impacts and  
socioeconomic effects associated with  
the approval of site assessment activities  
(including the installation and operation  
of meteorological towers and buoys) on  
the leases that may be issued.

The purpose of this notice is to inform  
the public of the availability of the draft  
EA for review and comment. Public  
comments on the draft EA will be  
considered in the preparation of the  
final EA and determination of whether  
a Finding of No Significant Impact  
would be appropriate, or whether an  
Environmental Impact Statement (EIS)  
would need to be prepared. The draft  
EA can be accessed online at: [http://

**Authority:** This Notice of Availability  
(NOA) of an EA is published pursuant to 43  
CFR 46.305.
