Atlantic Highly Migratory Species; Environmental Assessment for Amendment 4 to the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent.

SUMMARY: NMFS announces its intent to prepare an Environmental Assessment (EA) for Amendment 4 to the 2006 Consolidated Atlantic Highly Migratory Species (HMS) Fishery Management Plan (FMP) instead an Environmental Impact Statement (EIS) as previously announced through publication of a Notice of Intent published on May 27, 2008. NMFS intends to prepare the EA under the National Environmental Policy Act (NEPA) to assess the potential effects on the human environment of proposed alternatives and actions under Amendment 4 to the 2006 Consolidated HMS FMP. The EA will analyze potential environmental impacts of various alternatives to permitting and reporting requirements for commercial HMS fisheries in U.S. waters of the Caribbean as well as examine management alternatives to improve catch reporting and data collection in Puerto Rico and the U.S. Virgin Islands consistent with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Atlantic Tunas Convention Act (ATCA), and other relevant Federal laws.

FOR FURTHER INFORMATION CONTACT: Greg Fairclough by phone: (727) 824-5399, or by fax: (727) 824-5398.

SUPPLEMENTARY INFORMATION: The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Act, and the Atlantic tuna, swordfish, and billfish fisheries are managed under the Magnuson-Stevens Act and ATCA. The Consolidated HMS FMP is implemented by regulations at 50 CFR Part 635. Copies of the

Consolidated HMS FMP are available from NMFS on request.

NMFS announces its intent to prepare an Environmental Assessment (EA) for Amendment 4 to the 2006 Consolidated Atlantic Highly Migratory Species (HMS) Fishery Management Plan (FMP) instead an Environmental Impact Statement (EIS) as previously announced through publication of a Notice of Intent published on May 27, 2008 (73 FR 30381). NMFS intends to prepare the EA under the National Environmental Policy Act (NEPA) to assess the potential effects on the human environment of proposed alternatives and actions under Amendment 4 to the 2006 Consolidated HMS FMP. The EA will analyze potential environmental impacts of various alternatives to permitting and reporting requirements for commercial HMS fisheries in U.S. waters of the Caribbean as well as examine management alternatives to improve catch reporting and data collection in Puerto Rico and the U.S. Virgin Islands consistent with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Atlantic Tunas Convention Act (ATCA), and other relevant Federal laws.

After consideration of substantive comments received through formal scoping and other means, NMFS has determined that an EA would provide an appropriate level of NEPA review for Amendment 4 to the Consolidated HMS FMP and preparation of an EIS is not necessary. NMFS anticipates that the proposed action would have a low level of potential adverse environmental impacts due to the limited geographic area of the Caribbean HMS fishery, small size of the vessels involved, the relatively low number of known participants, and the use of traditional handgears. Additionally, the potential adverse impacts to protected species would be expected to be minimal.

Dated: July 7, 2011.

Margo Schulze-Haugen,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA561

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) Research Steering Committee (Committee) will hold a webinar.

DATES: The meeting will be held on Tuesday, August 2, 2011, at 3 p.m.

ADDRESSES:

Meeting address: The webinar will be held at the New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950; telephone: (978) 465-0492; fax: (978) 465-3116.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to respond to NMFS' request for additional information regarding adoption of the new eliminator trawl. The RSC will answer the following questions in the form of a recommendation to be reviewed by the Council's Executive Committee at its August 9th meeting:

1. Is the Council's intent that the gear be available to both sector and non-sector vessels for use in the Haddock SAP and as a specified gear for the purpose of discard estimation?
2. Does the committee feel there is sufficient information to warrant treating the new eliminator trawl the same as the Ruhl trawl for the purpose of discard estimation, or does it recommend creating a new gear code due to potential for catch performance differences?
3. How does the committee evaluate the gear with respect to the Haddock SAP and Regular B-day program gear performance standards in the regulations?

The research report on the gear in question is available at <http://www.nefmc.org> under Research Steering Committee meeting materials for the April 14th meeting. The public may obtain information about accessing the webinar by visiting the New England Council's Web site at <http://www.nefmc.org>.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under

section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard, Executive Director, at 978-465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 8, 2011.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. #110614333-1333-01]

Technical Inputs and Assessment Capacity on Topics Related to 2013 U.S. National Climate Assessment

AGENCY: Office of Oceanic and Atmospheric Research (OAR) National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

Request for Information: Technical Inputs and Assessment Capacity Related to Regional, Sectoral, and Cross-Cutting Assessments for the 2013 U.S. National Climate Assessment (NCA) Report and the Ongoing NCA Process.

ACTION: Request for information.

SUMMARY: This request for information (RFI) seeks comments and expressions of interest from the public in providing technical inputs and/or offering assessment capacity on topics related to National Climate Assessment (NCA) regional, sectoral, and cross-cutting topics proposed for the 2013 NCA report and the ongoing NCA process. More information on the NCA process, including the strategic plan, proposed report outline, and information about the National Climate Assessment Development and Advisory Committee (NCADAC), can be found at <http://assessment.globalchange.gov>.

Teams of experts and/or individuals in climate-related fields ("teams") interested in providing inputs to the NCA are encouraged to review the "Potential Technical Inputs and Assessment Capacities" and "Suggested Best Practices" available online at

<http://www.globalchange.gov/what-we-do/assessment/backgroundprocess/notices> and to prepare a short expression of interest (EOI) describing their anticipated inputs. All EOIs submitted in response to this notice must include a primary point of contact and contact information (phone number, mailing address, e-mail address, Web site if applicable, institutional affiliation(s) if applicable). In addition, it is recommended that EOIs include the specific NCA topic(s) of interest, a short description of the input(s) the team intends to provide, and background information about the team and sponsoring organization.

A full draft of the NCA report is anticipated by mid-2012, so that scientific and subject-matter experts and the broader public will have sufficient time to review the draft and provide comments to the NCADAC on its content. A full year is planned to review and revise the report, with a planned release in mid-2013. Technical inputs should be provided well in advance of these deadlines, with target dates for activities and inputs as follows:

- Now–Summer 2011: Expressions of interest; Initial work plans.
- Now–Fall 2011: Teams conduct activities (workshops, literature reviews, modeling runs, etc.).
- December 2011–February 1, 2012: Initial inputs, including draft reports.
- March 1, 2012: Final inputs, including full reports.
- After March 1, 2012: Continued development and delivery of ongoing assessment capacity.

While the NCADAC welcomes inputs to the NCA, it is not able to make commitments about how these inputs will be used in the 2013 NCA report. In addition, neither the US Global Change Research Program (USGCRP) nor the NCADAC are responsible for funding the work of teams that choose to provide inputs. This notice pertains only to the underlying data, reports, other technical inputs, and assessment capacities offered to the NCA, and not to the writing of the 2013 NCA report, which is under the purview of the NCADAC. Although the emphasis in this RFI is on contributions made in time for the 2013 NCA report, contributions that are not received in time for the report will be retained and may be used in the ongoing, sustained assessment process. Some assessment contributions may be specifically targeted to such an ongoing process.

All submissions will be provided to the NCADAC. Ultimately, technical inputs that are determined to meet information quality and scientific rigor

standards (expected to be developed by the NCADAC in the coming months) may be posted in the publicly-accessible NCA online database. In the interim, teams are encouraged to review Federal information quality requirements (available from <http://www.whitehouse.gov/sites/default/files/omb/fedreg/reproducible2.pdf>) for general guidance.

Response Instructions: General comments and expressions of interest should be submitted via e-mail to Emily Therese Cloyd, NCA Public Participation and Engagement Coordinator, at ecloyd@usgcrp.gov. The suggested format for the expressions of interest is described below.

Comments and expressions of interest may be submitted at any time and will be reviewed on a rolling basis.

Responses to this notice cannot be accepted by the government to form a binding contract or issue a grant. Information obtained as a result of this request may be used by the government for program planning on a non-attribution basis. Do not include any information that might be considered proprietary or confidential.

FOR FURTHER INFORMATION CONTACT: Any questions about the content of this request should be sent to Emily Therese Cloyd, NCA Public Participation and Engagement Coordinator, US Global Change Research Program Office, 1717 Pennsylvania Ave., NW., Suite 250, Washington, DC 20006, Telephone (202) 223-6262, Fax (202) 223-3065, e-mail ecloyd@usgcrp.gov. For more information about the NCA process, including the strategic plan, proposed report outline, and information about the NCADAC, please visit <http://assessment.globalchange.gov>.

SUPPLEMENTARY INFORMATION:

Background. The National Climate Assessment (NCA) is being conducted under the auspices of the U.S. Global Change Research Program (USGCRP), pursuant to the Global Change Research Act of 1990, Section 106, which requires that: "On a periodic basis (not less frequently than every 4 years), the Council [the National Science and Technology Council], through the Committee [the Global Change Research Committee], shall prepare and submit to the President and Congress an assessment which—

1. Integrates, evaluates, and interprets the findings of the [USGCR] Program and discusses the scientific uncertainties associated with such findings;

2. Analyzes the effects of global change and the natural environment, agriculture, energy production and use,
