14 CFR Part 71

Proposed Amendment of Class E Airspace; Miles City, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class E airspace at Frank Wiley Field, Miles City, MT, to accommodate aircraft using new Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Frank Wiley Field. Additionally, the geographic coordinates for Frank Wiley Field would be adjusted. The FAA is proposing this action to enhance the safety and management of aircraft operations at the airport.

DATES: Comments must be received on or before August 29, 2011.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590; telephone (202) 366–9826. You must identify FAA Docket No. FAA–2011–0515; Airspace Docket No. 11–ANM–11, at the beginning of your comments. You may also submit comments through the Internet at http://www.regulations.gov. Comments must be received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at http://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at http://www.faa.gov/airports/airtraffic/publications/airspace_amendments.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the ADDRESSES section for the address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue, SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA’s Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E surface airspace and Class E airspace extending upward from 700 feet above the surface at Frank Wiley Field, Miles City, MT. Controlled airspace is necessary to accommodate aircraft using new RNAV (GPS) standard instrument approach procedures at the Airport, and would enhance the safety and management of aircraft operations. This action would also adjust the geographic coordinates for Frank Wiley Field to coincide with the FAA’s aeronautical database.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities.
under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, part A, subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it creates additional controlled airspace at Frank Wiley Field, Miles City, MT.

Reporting Ancillary Airline Passenger Revenues

AGENCY: Office of the Secretary, DOT.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The U.S. Department of Transportation (DOT or the Department) is proposing to collect revenue information in a more detailed manner regarding airline imposed fees from those air carriers meeting the definition of a large certificated air carrier. Many air carriers have adopted a la carte pricing with separate fees for such things as checked baggage, carry-on baggage, meals, on-board entertainment, internet connections, pillows, blankets, advance or upgraded seating, telephone reservations, early boarding, canceled or changed reservations, transportation of unaccompanied minors, pet transportation, third-party services such as hotel rooms, car rentals, and pick-up and delivery services, et cetera. The Department wants to make airline pricing more transparent to consumers and airline analysts. This action is in response to a Departmental initiative and responds to recommendations of the Government Accountability Office. Also, the Department is proposing to change the way it computes mishandled baggage rates from mishandled baggage reports per unit of domestic enplanements to mishandled bags per unit of checked bags. Fees for checked baggage have changed consumer behavior regarding the number of bags they check, skewing mishandled baggage rates. Finally, the Department is proposing to fill a data gap by collecting separate statistics for mishandled wheelchairs and scooters used by passengers with disabilities.

DATES: All comments must be received by September 13, 2011. Late filed comments will be considered to the extent practicable.

ADDRESSES: You may submit comments to Docket RITA 2011–0001 by any of the following methods:
