SUPPLEMENTARY INFORMATION:

I. Background

On October 25, 2010, DNV (USA), Inc., filed a petition for approval of the PHAST–UDM at 49 CFR 193.2059(a). Those regulations permit the Administrator to approve the use of alternative vapor gas dispersion models in siting liquefied natural gas facilities.

On July 12, 2011, the Administrator issued a Draft Decision proposing to approve DNV’s petition. The Draft Decision is available for public inspection under PHMSA Docket No. 2011–0075 at http://www.regulations.gov.

Issued in Washington, DC, on July 12, 2011.

Jeffrey D. Wiese,
Associate Administrator for Pipeline Safety.

Surface Transportation Board

[Docket No. FD 35533]

East Penn Railroad, L.L.C.: Lease and Operation Exemption; Norfolk Southern Railway Company

Under 49 CFR 1011.7(a)(2)(x)(A), the Director of the Office of Proceedings (Director) is delegated the authority to determine whether to issue notices of exemption for lease transactions under 49 U.S.C. 10902. However, the Board reserves to itself the consideration and
An original and 10 copies of all pleadings, referring to Docket No. FD 35533 must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423–0001. In addition, a copy of each pleading must be served on Karl Morell, Ball Janik LLP, Suite 225, 655 Fifteenth Street, NW., Washington, DC 20005.

Board decisions and notices are available at our Website at “http://www.stb.dot.gov.”

It is ordered:

1. The delegation of authority to the Director of the Office of Proceedings, under 49 CFR 1011.7(a)(2)(xi)(A), to determine whether to issue a notice of exemption in this proceeding is revoked.

2. This decision is effective on the date of service.

Decided: July 12, 2011.

By the Board, Chairman Elliott, Vice Chairman Begeman, and Commissioner Mulvey. Commissioner Mulvey dissented with a separate expression.

Commissioner Mulvey, dissenting:

I disagree with the Board’s decision to allow this transaction to be processed under the class exemption procedures. I would like to have more information about the likely impact of the proposed interchange commitment before deciding whether to permit the transaction to go forward. In support of the interchange commitment provision, ESPN asserts only that it requested a “lease credit” option from NSR so that ESPN would better be able to invest in line improvements. This generic refrain, which has been used in a number of recent Board proceedings, sheds no light on whether a provision discouraging interchange with other carriers is inconsistent with the public interest in this case.

Jeffrey Herzig,
Clearance Clerk.

DEPARTMENT OF VETERANS AFFAIRS

Announcement of Competition Under the America COMPETES Reauthorization Act of 2011

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: To encourage widespread use of Blue Button personal health records (PHRs) outside Federal health care programs to benefit Veterans who receive care from non-VA providers, the Secretary of Veterans Affairs (VA) announces a prize competition under Section 105 of the America COMPETES Reauthorization Act of 2011, Public Law 111–358 (2011).

DATES: Competition begins July 18, 2011, and ends when a winner is announced or on October 18, 2011, whichever occurs first, unless the term of the contest is extended as provided in this Notice.

FOR INFORMATION CONTACT: James M. Speros at the Office of the Secretary, Department of Veterans Affairs at (202) 461–7214. (Note: This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: In collaboration with other Federal agencies and non-governmental entities the Department of Veterans Affairs (VA) developed and has implemented an online PHR functionality known as Blue ButtonSM. VA’s Blue ButtonSM PHR allows Veterans who are registered users of VA’s My HealthEvet internet portal to download extracts of their own medical information to their home computers. Blue ButtonSM PHR downloads can be printed or saved on computers and portable storage devices. Veterans can then choose to share this data with other health care providers, caregivers, or people they trust.

The Department of Defense has implemented a Blue ButtonSM PHR for beneficiaries of its Tricare program and patients in the Military Health System: the Centers for Medicare and Medicaid Services has implemented a Blue ButtonSM PHR that allows Medicare beneficiaries to download data about claims for Medicare-covered services. Other health benefit plans, health insurers and health service providers offer Blue ButtonSM PHRs to their patients and customers.

Blue ButtonSM PHRs provide a simple, convenient, and secure means for storing personal health data in an Internet-based service (including the download and upload of this information). Blue ButtonSM PHRs are currently used by more than 350,000 people—including 300,000 Veterans who receive care through the VA health system. VA believes Blue ButtonSM PHRs have now been sufficiently tested and proven useful to be made available for use throughout the United States by Veterans who receive their care from non-VA facilities and providers and by the public generally.

Blue ButtonSM PHRs keep the kind of information that patients need when they “fill in the clipboard” when visiting a physician or other licensed health care provider. Blue ButtonSM PHRs may also include clinical information from a sponsoring physician’s clinical electronic health records. Some PHRs are compilations of data that patients receive from multiple
