DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Project No. 5730–019]

River Bounty, Inc.; Renew Hydro, LLC; Notice of Transfer of Exemption

1. By letters filed April 19, April 20, and May 4, 2011, River Bounty, Inc. informed the Commission that its exemption from licensing for the Oakland Hydroelectric Project No. 5730, originally issued June 9, 1982, has been transferred to Renew Hydro, LLC. The project is located on the Susquehanna River in Susquehanna County, Pennsylvania. The transfer of an exemption does not require Commission approval.

2. Renew Hydro, LLC, located at 1800 Route 34, Suite 101, Wall, New Jersey, is now the exemptee of the Oakland Hydroelectric Project No. 5730.

Dated: July 11, 2011.

Kimberly D. Bose,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY
[FRL–9440–5]

Availability of the Incident Waste Management Planning and Response Tool

AGENCY: Environmental Protection Agency.

ACTION: Notice of Availability: External Peer Review Meeting.

SUMMARY: EPA has responsibilities for decontamination and waste disposal activities following a biological incident. The Incident Waste Management Planning and Response Tool “IWMPRT” was developed partly to satisfy requirements assigned under Homeland Security Presidential Directive 10 (HSPD–10), Biodefense in the 21st Century HSPD–10. In addition, HSPD–9 requires that, “the Administrator of the Environmental Protection Agency, shall enhance recovery systems that are able to stabilize agriculture production, the food supply, and the economy, rapidly remove and effectively dispose of contaminated agriculture and food products or infected plants and animals, and decontaminate premises.”

EPA is announcing the availability of an upcoming meeting where the public will be invited to attend and comment on the IWMPRT. The tool is available at: http://www2.ergweb.com/bdrtool/login.asp. In addition, a symposium paper describing updates to the IWMPRT is mentioned and made available through this notice.

Time and Dates: August 17 and 18, 2011 from 9 a.m. to 4 p.m.
Place: The meeting will be held at the Marriott Courtyard Arlington Crystal City, 2899 Jefferson Davis Highway, Arlington, VA.

Status: Parts of this meeting will be open to the public on August 17th from 9 a.m. to 4 p.m. An open discussion period for public comment will be held from 3 p.m. to 3:30. The rest of the meeting is closed to the public. Seating is limited. The deadline to register is August 12, 2011. If you are interested in attending the public session on August 17, 2011, please register on-line at http://iwmprt.eventbrite.com.

FOR FURTHER INFORMATION CONTACT:
Technical Information: To obtain access to the IWMPRT or any technical questions, please contact Dr. Paul Lemieux, 919–941–0962.
Logistical Information: For logistical related questions or to submit written comments, please contact Eletha Brady-Roberts. Public review comments should be submitted by August 12, 2011 either via e-mail at roberts.eletha@epa.gov or mail to Eletha Brady-Roberts, National Homeland Security Research Center, Office of Research and Development, U.S. Environmental Protection Agency (NC16), 26 West Martin Luther King Drive, Cincinnati, Ohio 45268. Telephone number: 513–569–7662; Fax number: 513–487–2555.

SUPPLEMENTARY INFORMATION: Unique challenges exist for the handling, transport, and disposal of debris resulting from homeland security incidents, natural disasters or other national emergencies. Access to guidance for facilitating decision making in the safe and timely disposal of waste and debris is critical to helping restore a contaminated area and to prevent further contamination or spread of disease. The IWMPRT is a suite of decision support tools developed by the US EPA, in collaboration with other Federal and state Agencies as well as members of the private sector, which provides a quick reference to technical data, regulations, and other information that assists decision makers in guiding disposal decisions that are important for the protection of public health, and the environment. Moreover, the IWMPRT provides a waste quantity estimation tool and information on the: (1) types and quantities of materials and contaminants involved and (2) unique issues or challenges faced with ensuring public and worker safety in the safe and efficient removal, transport, and disposal of debris from an incident. Symposia paper is available on—http://cfpub.epa.gov/si/si_public_record_report.cfm?dirEntryId=210325&fedOrg=epa.gov&pubDateYear=2011&showCriteria=1&count=25&searchall=Disposal%20OR%20landfill%20OR%20leachate.

Dated: July 6, 2011.
Jonathan G. Herrmann,
Director, National Homeland Security Research Center, Office of Research and Development, U.S. Environmental Protection Agency.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–9440–3]

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; ConocoPhillips Company, Borger, TX

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a no migration petition.

SUMMARY: Notice is hereby given that an exemption to the land disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to ConocoPhillips Company for one Class I injection well located at Borger, Texas. The company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by the petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by ConocoPhillips, of the specific restricted hazardous wastes identified in this exemption, into Class I hazardous waste injection well No. WDN–325 at the Borger Texas facility, until December 31, 2017, unless EPA moves to terminate this exemption. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. A public notice was issued May 19, 2011. The public comment period closed on July 5, 2011. No comments were received. This decision constitutes final Agency action and there is no Administrative appeal. This decision may be reviewed/appealed in compliance with the Administrative Procedure Act.

DATES: This action is effective as of July 8, 2011.

ADDRESSES: Copies of the petition and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 6, Water Quality Protection Division, Source Water Protection Branch (6WQ–S), 1445 Ross Avenue, Dallas, Texas 75202–2733.

FOR FURTHER INFORMATION CONTACT: Philip Delliger, Chief Ground Water/UIC Section, EPA—Region 6, telephone (214) 665–7150.

Dated: July 8, 2011.
William Honker,
Acting, Division Director, Water Quality Protection Division.
