The Committee for Purchase From People Who Are Blind or Severely Disabled (Committee) operates pursuant to statutory and regulatory requirements. The Committee regulation at 41 CFR part 51–2–4 states that for a

commodity or service to be suitable for addition to the Procurement List each of the following criteria must be satisfied: Employment potential, nonprofit agency qualifications, capability, and a less than severe level of impact on the current contractor for the commodity or service.

Comments were received from a law firm on behalf of the incumbent contractor. The comments assert that the Committee should not add this project to the Procurement List for several reasons including (1) Financial impact on the current contractor; (2) the project is not appropriate for people with severe disabilities to perform; (3) the prospective nonprofit agency has no experience performing these type services; (4) the impact on employees of the contractor; and (5) this type project is not what Congress intended when enacting the Javits-Wagner-O'Day (JWOD) Act.

Information available to the Committee in considering this project indicates that there would not be a severe adverse impact to the contractor if this project is added to the Procurement List. The Committee, with its experience and expertise, has determined that people with severe disabilities are capable of performing the type of work required, and that the proposed nonprofit agency is qualified and capable of performing this work, based on applicable experience. Finally, the purpose of the JWOD Act and the responsibility of the Committee are to create employment opportunities for people with the most severe disabilities, who cannot obtain or maintain employment on their own. The remedial nature of the JWOD Act is such that Committee actions may result in an incumbent contractor not having the opportunity to compete for follow-on contracts; commercial contractors and their employees are better able to obtain employment than individuals with severe disabilities who historically have encountered greater obstacles than non-disabled employees. A planned transition period will afford incumbent employees the opportunity to continuing working while they seek other positions. Accordingly, after full consideration, the Committee has determined that the service is suitable for addition to the Procurement List.
