

Care HPSAs, which would be published as an Interim Final Rule in accordance with Section 5602 of the Affordable Care Act, Public Law 111-148.

Agenda: The meeting will include a discussion of various components of a possible methodology for identifying areas of shortage and underservice, based on the recommendations of the Committee in the previous meeting. The agenda will be available on the Committee's Web site (<http://www.hrsa.gov/advisorycommittees/shortage/>) one day prior to the meeting. Agenda items are subject to change as priorities dictate.

For members of the public interested in participating in the webinar, please contact Emily Cumberland by e-mail at ecumberland@hrsa.gov. Requests to attend can be made up to two days prior to the meeting. Participants will receive an e-mail response containing the link to the webinar. Requests to provide written comments should be sent to Emily Cumberland by e-mail at least 10 days prior to the first day of the meeting, August 16. Members of the public will have the opportunity to provide written comments before and after the meeting.

The Committee is working under tight timeframes to meet the reporting requirement in the Affordable Care Act. Due to the complexity of the issue, the Committee has been granted additional time to meet its final report deadline. As a result, meetings were added to the Committee schedule. The logistical challenges of expanding the meeting schedule hindered an earlier publication of this meeting notice.

Dated: July 19, 2011.

Reva Harris,

Acting Director, Division of Policy and Information Coordination.

BILLING CODE 4165-15-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1021]

Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On November 24, 2008, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 73 FR 70944. The table provided here represents the flooding sources, location of referenced elevations, effective and modified elevations, and communities affected for Lyon County, Kentucky, and Incorporated Areas. Specifically, it addresses the flooding sources Cumberland River (Lake Barkley) and Tennessee River (Kentucky Lake).

DATES: Comments are to be submitted on or before October 20, 2011.

ADDRESSES: You may submit comments, identified by Docket No. FEMA-B-1021, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriquez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriquez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency

(FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Correction

In the proposed rule published at 73 FR 70944, in the November 24, 2008, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Lyon County, Kentucky, and Incorporated Areas" addressed the flooding sources Cumberland River (Lake Barkley) and Tennessee River (Kentucky Lake). That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, and/or communities affected for those flooding sources. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

Flooding source(s)	Location of referenced elevation**	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL)		Communities affected
		Effective	Modified	

Lyon County, Kentucky, and Incorporated Areas

Cumberland River (Lake Barkley).	At the Barkley Dam	None	+375	City of Eddyville, City of Kuttawa, Unincorporated Areas of Lyon County.
----------------------------------	--------------------------	------	------	--

Flooding source(s)	Location of referenced elevation**	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL)		Communities affected
		Effective	Modified	
Tennessee River (Kentucky Lake).	At the confluence with Hurricane Creek (southern county boundary).	None	+375	Unincorporated Areas of Lyon County.
	Approximately 500 feet downstream of the Barkley Canal.	None	+375	
	Approximately 3,200 feet upstream of the Duncan Creek confluence.	None	+375	

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

** BFEs to be changed include the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to Luis Rodriguez, Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.

ADDRESSES

City of Eddyville

Maps are available for inspection at 200 Commerce Street, Eddyville, KY 42038.

City of Kuttawa

Maps are available for inspection at 90 Beech Street, Kuttawa, KY 42055.

Unincorporated Areas of Lyon County

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On June 3, 2010, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 75 FR 31342. The table provided here

represents the flooding sources, location of referenced elevations, effective and modified elevations, and communities affected for Tazewell County, Illinois, and Incorporated Areas. Specifically, it addresses the flooding sources Bull Run Creek, Dempsey Creek, Farm Creek, Fond Du Lac Creek, Illinois River, Lick Creek, Mackinaw River, Prairie Creek, and School Creek.

DATES: Comments are to be submitted on or before October 20, 2011.

ADDRESSES: You may submit comments, identified by Docket No. FEMA-B-1120, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriguez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriguez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and

modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Correction

In the proposed rule published at 75 FR 31342, in the June 3, 2010, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Tazewell County, Illinois, and Incorporated
