

specified in the Exchange's Fee Schedule.¹³ As part of this filing, we propose to retain the Trade Processing Fee charged to Participants for the clearing submission service.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act in general,¹⁴ and furthers the objectives of Section 6(b)(5) in particular,¹⁵ in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transaction in securities, to remove impediments and perfect the mechanisms of a free and open market, and, in general, to protect investors and the public interest by setting forth the rules and principles governing the submission of clearing information to a Qualified Clearing Agency. By facilitating the submission for both CHX and non-CHX executed trades, the Exchange is providing a safe, reliable means of submitting such information to a Qualified Clearing Agency, responding to the preferences of certain Participants to have CHX make such clearing-related submissions, and introducing competition with other exchanges, such as Nasdaq, which provide similar services.

B. Self-Regulatory Organization's Statement of Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments Regarding the Proposed Rule Changes Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) As the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Fee Schedule to adopt a Service Fee of \$0.05 per side for Qualified Contingent Cross ("QCC") Orders (electronic)³ and Floor QCC Orders.⁴

The QCC Order must be executed at a price at or between the National Best Bid and Offer and be rejected if a Customer order is resting on the Exchange book at the same price. A QCC Order shall only be submitted electronically from off the floor to the PHLX XL II System. See Rule 1080(o). II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to adopt a Service Fee for both QCC Orders (electronic) and Floor QCC Orders once a Firm reaches the Firm Related Equity Option Cap ("Cap"), which is described below. The Exchange proposes this Service Fee recognizing that the qualified contingent cross capability is a premium service offered by the Exchange. This Service Fee is proposed to recoup costs incurred by the Exchange to offer this capability including trade matching and processing, post trade allocation, submission for clearing and customer service activities related to trading activity on the Exchange.

Firms are subject to a \$75,000 Cap. Firm equity option transaction charges and QCC Transaction Fees, in the aggregate, for one billing month may not exceed the Cap per member organization when such members are trading in their own proprietary account. The Firm equity options transaction charges are waived for members executing facilitation orders pursuant to Exchange Rule 1064 when

Exchange book at the same price. In order to satisfy the 1,000-contract requirement, a Floor QCC Order must be for 1,000 contracts and could not be, for example, two 500-contract orders or two 500-contract legs. See Rule 1064(e). See also Securities Exchange Act Release No. 64688 (June 16, 2011), 76 FR 36606 (June 22, 2011) (SR-Phlx-2011-56) (a rule change to establish a qualified contingent cross order for execution on the floor of the Exchange).

such members are trading in their own proprietary account.⁵

The Exchange proposes to adopt a Service Fee of \$0.05 per side once a Firm has reached the Cap. This \$0.05 per side Service Fee will apply to every contract side of a QCC Order (electronic) and Floor QCC Order that is executed once a Firm has reached the Cap in a particular calendar month. A Firm that does not reach the Cap in a particular calendar month will not be assessed the Service Fee in that month. The Exchange proposes to add text to Section II of the Fee Schedule entitled "Equity Options Fees" to describe the Service Fee. The Exchange also proposes to add a clarifying sentence to Section II of the Fee Schedule to clarify that QCC Transaction Fees are included in the monthly calculation of the Cap.⁶

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act⁷ in general, and furthers the objectives of Section 6(b)(4) of the Act⁸ in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members and other persons using its facilities.

The Exchange believes that the proposed Service Fee is reasonable because Firms have the ability to cap fees and even with the added Service Fee, Firms should generally pay less once they reach the Cap because they will not pay the normally applicable transaction fees. This Service Fee would reduce the discrepancy that exists today between Firms and other market participants. For example, Firms who reach the Cap in a particular month would pay the Service Fee instead of other normally applicable transaction fees as a result of reaching the Cap. As stated in the filing, the Service Fee does not apply to Firms who did not reach the Cap. Also, the Exchange believes that the Service Fee is reasonable because the fee would allow the Exchange to defray costs incurred in

⁵ In addition, Firms that (i) Are on the contra-side of an electronically-delivered and executed Customer complex order; and (ii) have reached the Cap will be assessed a \$0.05 per contract fee. See Section II of the Exchange's Fee Schedule.

⁶ See Securities Exchange Act Release No. 64520 (May 19, 2011), 76 FR 30223 (May 24, 2011) (SR-Phlx-2011-66) (a rule change to adopt fees applicable to a Qualified Contingent Cross Order) and SR-Phlx-2011-84 (an immediately effective proposed rule change to adopt fees applicable to a Floor Qualified Contingent Cross order). QCC Transaction Fees are defined in Section II of the Fee Schedule as applicable to QCC Orders, as defined in Exchange Rule 1080(o), and Floor QCC Orders, as defined in 1064(e).

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(4).

providing the qualified contingent cross capability in the form of QCC Orders (electronic) and Floor QCC Orders. Specifically, the Exchange is providing trade matching and processing, post trade allocation, submission for clearing and customer service activities related to trading activity on the Exchange. The Exchange also believes that the Service Fee is reasonable because it is comparable to a fee assessed by the International Securities Exchange, LLC ("ISE"). ISE assesses a \$0.05 per side service fee for qualified contingent cross volume once a member reaches the monthly fee cap.⁹

The Exchange believes that the proposed Service Fee is equitable and not unfairly discriminatory because it would be uniformly applied to Firms in the same way that the Cap is uniformly available to these Firms.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁰ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.
