[Project Nos. 13824–000; 13826–000]

FFP Missouri 17, LLC; BOST2 Hydroelectric LLC; Notice of Competing Preliminary Permit Applications Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On August 6, 2010, FFP Missouri 17, LLC (FFP) and BOST2 Hydroelectric LLC (BOST2) filed preliminary permit applications, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of a hydropower project at the U.S. Army Corps of Engineers' (Corps) Columbia Lock & Dam, located on the Ouachita River near the City of Columbia, in Caldwell Parish, Louisiana. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

FFP's Columbia Lock & Dam Hydroelectric Project No. 13824–000 would consist of: (1) Two to four compact bulb turbines, with a combined generation capacity of 12.0 MW, placed in the existing gate bays of the Corps Columbia Dam; (2) a 40-foot x 60-foot control building located on the South Carolina side of the river; and (3) a 12,000-foot-long transmission line extending northwest from a switchyard near the dam to an existing transmission line. FFP is also exploring an alternative that would involve construction of a new powerhouse, intake channel, and tailrace opposite the lock structure on the South Carolina side of the river. Each design would have an average annual generation of 50,000 MWh/yr. The project would utilize flows from the Columbia Dam and operate as directed by the Corps.

Applicant Contact: Mr. Ramya Swaminathan, Free Flow Power Corporation, 33 Commercial Street, Gloucester, MA 01930. (978) 226–1531.

BOST2's proposed Columbia Hydroelectric Project No. 13826–000 would consist of: (1) An intake channel; (2) a new powerhouse containing two generating units with a total rated

capacity of 6.0 MW; (3) a tailrace channel; (4) a 12,000-foot-long 230-kilovolt (kV) transmission line extending from the switchyard to a point of interconnection. The project would have an average annual generation of 47,000 megawatt-hours/year (MWh/yr). The project would operate run-of-river and utilize flows released from the Columbia Lock and Dam.

Applicant Contact: Mr. Douglas A. Spaulding, Nelson Energy, 8441 Wayzata Blvd., Suite 101, Golden Valley, MN 55426. (952) 544–8133.

FERC Contact: Michael Spencer, michael.spencer@ferc.gov, (202) 502–6093.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P–13824–000, or P–13826–000) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: July 13, 2011.

Kimberly D. Bose,
Secretary.

[Docket No. EL11–50–000]

Astoria Generating Company, L.P and TC Ravenswood, LLC v. New York Independent System Operator, Inc.; Notice of Complaint

Take notice that on July 11, 2011, pursuant to sections 206 and 306 of the Federal Power Act (FPA) and Rule 206 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), Astoria Generating Company, L.P. and TC Ravenswood, LLC (Complainants) filed a formal complaint against New York Independent System Operator, Inc. (NYISO or Respondent) alleging NYISO's improper application of its buyer-side market power mitigation rules with respect to the new 575 MW generating facility (the Astoria II Project) owned by Astoria Energy II LLC, and potentially, other new facilities, including, but not limited to, the approximately 512 MW generating facility (the Bayonne Project) being developed by Bayonne Energy Center, LLC. The buyer-side market power rules are set forth in Attachment H of the NYISO's Market Administration and Control Area Services Tariff.

The Complainant states that a copy of the complaint has been served on the Respondent.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC.

Yuba City Cogeneration Partners, LP	Docket Nos. EG11-74-000
Dempsey Ridge Wind Farm, LLC	EG11-75-000

[Docket No. PR11-117-000]

Crosstex North Texas Pipeline, L.P.; Notice of Filing

Take notice that on July 8, 2011, Crosstex North Texas Pipeline, L.P. filed a revised Statement of Operating Conditions to comply with an unpublished Delegated letter order issued on June 24, 2011, in Docket No. PR10-39-000.

Any person desiring to participate in this rate filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a

copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s).
