

respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725–17th Street, NW, Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292–7556.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, NSF Reports Clearance Officer at (703) 292–7556 or send e-mail to splimpto@nsf.gov.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: FY 2011 and FY 2013 Survey of Science and Engineering Research Facilities.

OMB Control Number: 3145–0101.

Type of Request: Intent to seek approval to reinstate an information collection for three years.

Proposed Project: The National Science Foundation Survey of Science and Engineering Research Facilities is a Congressionally mandated (Pub. L. 99–159), biennial survey that has been conducted since 1986. The survey collects data on the amount, condition, and costs of the physical facilities used to conduct science and engineering research. The survey also requests information on the networking and high performance computing capacity at the surveyed institutions, a critical part of the infrastructure for science and engineering research. Due to the rapidity of technological change, these questions are continually updated. It was expected by Congress that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and to formulate appropriate solutions to documented needs. During the FY 2007 and FY 2009 survey cycles, data were collected from a population of approximately 495 research-performing colleges and universities and approximately 163

nonprofit biomedical research institutions receiving research support from the National Institutes of Health.

Use of the Information: Analysis of the Facilities Survey data will provide updated information on the status of scientific and engineering research facilities and capabilities. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by institutional academic officials, the scientific/engineering establishment, and state agencies and legislatures that fund universities.

Burden on the Public: The Facilities Survey will be sent by mail to approximately 495 higher education institutions. The completion time per academic institution is expected to average 41 hours. Assuming a 95% response rate, this would result in an estimated burden of 19,280 hours for academic institutions.

Dated: July 22, 2011.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Committee Management; Renewals

The NSF management officials having responsibility for the Proposal Review Panel for Emerging Frontiers in Biological Sciences, #44011 have determined that renewing this committee for another two years is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF), by 42 USC 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Effective date for renewal is August 5, 2011. For more information, please contact Susanne Bolton, NSF, at (703) 292–7488.

Dated: July 22, 2011.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes: Call for Nominations

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Call for Nominations.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is advertising for nominations for the position of Agreement State representative on the Advisory Committee on the Medical Uses of Isotopes (ACMUI).

DATES: Nominations are due on or before September 26, 2011.

Nomination Process: Submit an electronic copy of resume or *curriculum vitae* to Ms. Sophie Holiday, sophie.holiday@nrc.gov. Please ensure that the resume or curriculum vitae includes the following information, if applicable: Education, certification, current state regulatory experience, professional association membership, committee membership activities, and leadership activities.

FOR FURTHER INFORMATION CONTACT: Ms. Sophie Holiday, U.S. Nuclear Regulatory Commission, Office of Federal and State Materials and Environmental Management Programs; (301) 415–7865; sophie.holiday@nrc.gov.

SUPPLEMENTARY INFORMATION: The ACMUI advises NRC on policy and technical issues that arise in the regulation of the medical use of byproduct material. Responsibilities include providing comments on changes to NRC rules, regulations, and guidance documents; evaluating certain non-routine uses of byproduct material; providing technical assistance in licensing, inspection, and enforcement cases; and bringing key issues to the attention of NRC, for appropriate action.

ACMUI members possess the medical and technical skills needed to address evolving issues. The current membership is comprised of the following professionals: (a) Nuclear medicine physician; (b) nuclear cardiologist; (c) medical physicist in nuclear medicine unsealed byproduct material; (d) therapy physicist; (e) radiation safety officer; (f) nuclear pharmacist; (g) two radiation oncologists; (h) patients' rights advocate; (i) Food and Drug Administration representative; (j) State representative; and (k) health care administrator.

NRC is inviting nominations for the Agreement State representative appointment to the ACMUI. The
