

was purchased by W. Vernon Kinitz in the 1930s from Mrs. Anna Scott and was accessioned into the museum in 1940.

The second cultural object (23756) is a bag made from weasel skin with five long loom-worked beaded pieces, four of the same length and one of greater length, that once attached to the bag. The beaded pieces have decorations of white, red, and blue zigzags with larger green beads and tassels attached to the ends. This item was purchased by W. Vernon Kinitz in the 1930s from Mrs. Anna Scott and was accessioned into the museum in 1940.

The third cultural object (22201) is a small bag made from a full weasel skin. The tail end of the bag is open. At the other end, the animal's head is tied shut by a white, blue, and red cotton ribbon. This item was donated to the museum by W. Vernon Kinitz in 1939.

The fourth cultural object (23754) is a hand drum made of thin hide stretched over a narrow wood frame. The hide is painted on one side with two red birds, possibly turkeys, and on the other side is a large red circle or disk. The drum is roughly 43.2 cm in diameter and 10.2 cm in height. The wooden frame has been damaged and the hide is no longer taut. On July 8, 1940, the drum was purchased from Mrs. Anna Scott by W. Vernon Kinitz.

The fifth cultural object (23759) is a tall drum made of wood with hide set in place by a cloth band. The wooden frame has a bottom and contains a small hole on one side that is plugged by a wooden peg. The drum measures approximately 43 cm in height and 29 cm in diameter. Museum records indicate that this drum was purchased from Jon Pete, a former chief of the Lac Vieux Desert Band of Lake Superior Chippewa Indians. The exact date of the purchase is unknown.

In consultation with Lac Vieux Desert Band of Lake Superior Chippewa representatives, and review of museum documentation and published literature, all five of these objects are determined to be sacred objects under NAGPRA. The materials and motifs of the strap (23755) were identified as being related to Midewiwin, a secret Medicine Society. Additionally, the tall wooden drum (23759) was identified as a water drum used in traditional Midewiwin ceremonies. The two weasel bags (22201 and 23756) were identified as medicine bags used to carry and hold sacred objects. The hand drum (23754) was found to be a dream drum used in naming ceremonies.

Determinations Made by the University of Michigan Museum of Anthropology

Officials of the University of Michigan Museum of Anthropology have determined that:

- Pursuant to 25 U.S.C. 3001(3)(C), the five cultural items described above are specific ceremonial objects needed by traditional Native American religious leaders for the practice of traditional Native American religions by their present-day adherents.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the sacred objects and the Lac Vieux Desert Band of Lake Superior Chippewa Indians, Michigan.

Additional Requestors and Disposition

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the sacred objects should contact Ben Secunda, NAGPRA Project Manager, Office of the Vice President for Research, University of Michigan, 4080 Fleming Building, 503 Thompson St., Ann Arbor, MI 48109-1340, telephone (734) 647-9085, before August 26, 2011. Repatriation of the sacred objects to the Lac Vieux Desert Band of Lake Superior Chippewa Indians, Michigan, may proceed after that date if no additional claimants come forward.

The University of Michigan Office of the Vice President is responsible for notifying the Lac Vieux Desert Band of Lake Superior Chippewa Indians, Michigan, that this notice has been published.

Dated: July 20, 2011.
