NRC Regulatory Commission

PSEG Nuclear LLC, Hope Creek Generating Station; Notice of Issuance of Renewed Facility Operating License No. NPF–57 for an Additional 20-Year Period; Record of Decision

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Renewed Facility Operating License No. NPF–57 to PSEG Nuclear LLC (licensee), the operator of the Hope Creek Generating Station (HCGS). Renewed Facility Operating License No. NPF–57 authorizes operation of HCGS by the licensee at reactor core power levels not in excess of 3,840 megawatts thermal in accordance with the provisions of the HCGS renewed license and its technical specifications.

The notice also serves as the record of decision for the Renewal of Facility Operating License No. NPF–57, consistent with Title 10 of the Code of Federal Regulations Section 51.103 (10 CFR 51.103). As discussed in the final supplemental environmental impact statement (FSEIS) for HCGS and Salem Nuclear Generating Station (Salem), Units 1 and 2, dated March 2011, the Commission has considered a range of reasonable alternatives that included coal fired generation, natural gas combined-cycle generation, combined alternative, and the no-action alternative. The factors considered in the record of decision can be found in the FSEIS published in March 2011 as NUREG–1437, “Generic Environmental Impact Statement for License Renewal of Nuclear Power Plants, Supplement 45, Regarding Hope Creek Generating Station and Salem Nuclear Generating Station, Units 1 and 2.”

HCGS is a boiling water reactor located in Lower Alloways Creek Township, Salem County, New Jersey. The application for the renewed license complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s regulations. As required by the Act and the Commission’s regulations in 10 CFR Chapter I, the Commission has made appropriate findings, which are set forth in the license. Prior public notice of the action involving the proposed issuance of the renewed license and of an opportunity for a hearing regarding the proposed issuance of the renewed license was published in the Federal Register on October 23, 2009 (74 FR 54856).

For further details with respect to this action, see: (1) PSEG Nuclear LLC’s license renewal application for Hope Creek Generating Station dated August 18, 2009, as supplemented by letters dated through May 19, 2011; (2) the Commission’s safety evaluation report (NUREG–2102), published in June 2011; (3) the licensee’s updated safety analysis report; and (4) the Commission’s final environmental impact statement (NUREG–1437, Supplement 45), for the Hope Creek Generating Station and Salem Nuclear Generating Station, Units 1 and 2, published in March 2011. These documents are available at the NRC’s Public Document Room, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, and can also be located in the PDR by searching the docket number and publication number and the requestor’s account number or VISA or MasterCard number and expiration date.

Dated at Rockville, Maryland, this 20th day of July 2011.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Extension: Rule 10A–1; SEC File No. 270–425; OMB Control No. 3235–0468.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission (“Commission”) is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 10A–1 (17 CFR 240.10A–1) implements the reporting requirements in Section 10A of the Exchange Act (15 U.S.C. 78j–1) which was enacted by Congress on December 22, 1995 as part of the Private Securities Litigation Reform Act of 1995, Public Law 104–67, 109 Stat 737. Under section 10A and Rule 10A–1 reporting occurs only if a registrant’s board of directors receives a report from its auditor that: (1) There is an illegal act material to the registrant’s financial statements, (2) senior management and the board have not taken timely and appropriate remedial action, and (3) the failure to take such action is reasonably expected to warrant the auditor’s modification of the audit report or resignation from the audit engagement. The board of directors must notify the Commission within one business day of receiving such a report. If the board fails to provide that notice, then the auditor, within the next business day, must provide the Commission with a copy of the report that it gave to the board.

Likely respondents are those registrants filing audited financial statements under the Securities Exchange Act of 1934 (15 U.S.C. 78a, et seq.) and the Investment Company Act of 1940 (15 U.S.C. 80a–1, et seq.). It is estimated that implementation of Rule 10A–1 results in an aggregate additional reporting burden of 10 hours per year. The

estimated average burden hours are solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even a representative survey or study of the costs of SEC rules or forms.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
