SUPPLEMENTARY INFORMATION:

Amendment 24 to the Snapper Grouper FMP would implement a rebuilding plan for red grouper in the South Atlantic as required by the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) for species determined to be overfished and undergoing overfishing. The intent of the rebuilding plan is to end overfishing immediately and increase biomass of overfished stocks to a sustainable level within a specified period of time. The amendment would also specify Maximum Sustainable Yield (MSY), the Maximum Fishing Mortality Threshold (MSST), and Optimum Yield (OY) for the red grouper fishery. In addition, Annual Catch Limits (ACLs) and Accountability Measures (AMs) would be established for both recreational and commercial sectors of the red grouper fishery.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that the National Marine Fisheries Service Southeast Fisheries Science Center (SEFSC) [Dr. Bonnie Ponwith, Responsible Party] has been issued a permit to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), loggerhead (*Caretta caretta*), Kemp's ridley (*Lepidochelys kempii*), olive ridley (*Lepidochelys olivacea*), leatherback (*Dermochelys coriacea*), and

unidentified hardshell sea turtles for the purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376; and

Southeast Region, NMFS, 263 13th Ave. South, St. Petersburg, FL 33701; phone (727) 824-5312; fax (727) 824-5309.

FOR FURTHER INFORMATION CONTACT: Colette Cairns or Amy Hapeman, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On January 26, 2011, notice was published in the **Federal Register** (76 FR 4636) that a request for a scientific research permit to take green, loggerhead, hawksbill, leatherback, Kemp's ridley, olive ridley, and unidentified hardshell sea turtles had been submitted by the above-named organization. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The five-year permit authorizes the SEFSC to monitor the take of green, loggerhead, hawksbill, leatherback, Kemp's ridley, olive ridley, and unidentified hardshell sea turtles by observed commercial fisheries and collect data to estimate bycatch and its effects on sea turtle sub-populations. SEFSC-certified observers are authorized to handle, photograph, measure, weigh, flipper and passive integrated transponder tag, tissue sample, carapace mark and salvage specimens taken during commercial fishing activities. The research will take place in the Atlantic Ocean, the Gulf of Mexico, the Caribbean Sea, and their tributaries. These efforts would aid in the development and refinement of management efforts to recover these species.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 26, 2011.

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

The Javits-Wagner-O'Day (JWOD) Act of 1971 (41 U.S.C. 46-48c) is the authorizing legislation for the AbilityOne Program. The AbilityOne Program creates jobs and training opportunities for people who are blind or who have other severe disabilities. Its primary means of doing so is by requiring Government agencies to purchase selected products and services from nonprofit agencies employing such individuals. The AbilityOne Program is administered by the Committee. Two national, independent organizations, National Industries for the Blind (NIB) and NISH, help state and private nonprofit agencies participate in the AbilityOne Program.

The implementing regulations for the JWOD Act, which are located at 41 CFR Chapter 51, detail the recordkeeping requirements imposed on nonprofit agencies participating in the AbilityOne Program. Section 51-2.4 of the regulations describes the criteria that the Committee must consider when adding a product or service to its Procurement List. One of these criteria is that a proposed addition must demonstrate a potential to generate employment for people who are blind or severely disabled. The Committee decided that evidence that employment will be generated for those individuals consists of recordkeeping that tracks direct labor and revenues for products or services sold through an AbilityOne Program contract. This recordkeeping can be done on each individual AbilityOne project or by product or service family.

In addition, Section 51-4.3 of the regulations requires that nonprofit agencies keep records on direct labor
