SUPPLEMENTARY INFORMATION: The NRC has used risk-informed insights as a part of its regulatory decision-making since the 1990s. In 2002, the National Fire Protection Association (NFPA) issued the first edition of NFPA 805, “Performance-Based Standard for Fire Protection for Light-Water Reactor Electric Generating Plants.” In July 2004, NRC amended its fire protection requirements in Title 10 of the *Code of Federal Regulations* (10 CFR) 50.48 to permit existing reactor licensees to voluntarily adopt fire protection requirements contained in NFPA 805 as an alternative to the existing deterministic requirements. One important element in a performance-based analysis is the estimation of the consequences of fire. Fire modeling is one possible approach to determine the impact of postulated fire scenarios in nuclear power plants.

NUREG–1934 (EPRI 1023259), “Nuclear Power Plant Fire Modeling Application Guide (NPP FIRE MAG),” was written as a collaborative effort by NRC's Office of Nuclear Regulatory Research (RES) and the Electric Power Research Institute (EPRI) as a part of the NRC/RES–EPRI Memorandum of Understanding to provide guidance on using fire modeling for nuclear power plant applications. This report will assist both the user performing the

calculation and the reviewers. It includes guidance on selecting appropriate models for a given fire scenario and on understanding the levels of confidence that can be attributed to the model results. In addition, the report discusses the features and limitations of the five fire models documented in NUREG-1824 (EPRI 1011999), "Verification & Validation of Selected Fire Models for Nuclear Power Plant Applications." The report also will form the foundation for future fire model training being developed by RES and EPRI.

The first draft of NUREG-1934 was released in December 29, 2009, for a 60-day public comment period (74 FR 68872). Numerous comments were received, and they have been addressed in this second draft. Because of the extensive interest generated by the first public comment period, the revised draft is being issued for an additional 30-day public comment period.

Dated at Rockville, Maryland, this 22nd day of July, 2011.

For the Nuclear Regulatory Commission.

Richard P. Correia,

Director, Division of Risk Analysis, Office of Nuclear Regulatory Research.

POSTAL REGULATORY COMMISSION

[Docket No. A2011-29; Order No. 772]

Post Office Closing

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: This document informs the public that an appeal of the closing of the Bigelow, Arkansas post office has been filed. It identifies preliminary steps and provides a procedural schedule. Publication of this document will allow the Postal Service, petitioners, and others to take appropriate action.

DATES: *Administrative record due (from Postal Service): August 10, 2011; deadline for notices to intervene: August 22, 2011. See the Procedural Schedule in the SUPPLEMENTARY INFORMATION section for other dates of interest.*

ADDRESSES: Submit comments electronically by accessing the "Filing Online" link in the banner at the top of the Commission's Web site (<http://www.prc.gov>) or by directly accessing the Commission's Filing Online system at <https://www.prc.gov/prc-pages/filing-online/login.aspx>. Commenters who cannot submit their views electronically should contact the person identified in

the **FOR FURTHER INFORMATION CONTACT** section as the source for case-related information for advice on alternatives to electronic filing.

FOR FURTHER INFORMATION CONTACT:

Stephen L. Sharfman, General Counsel, at 202-789-6820 (case-related information) or DocketAdmins@prc.gov (electronic filing assistance).

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to 39 U.S.C. 404(d), on July 26, 2011, the Commission received a petition for review of the Postal Service's determination to close the post office in Bigelow, Arkansas. The petition was filed by Brad Akridge, Mayor (Petitioner) and is postmarked July 18, 2011. The Commission hereby institutes a proceeding under 39 U.S.C. 404(d)(5) and establishes Docket No. A2011-29 to consider Petitioner's appeal. If Petitioner would like to further explain his position with supplemental information or facts, Petitioner may either file a Participant Statement on PRC Form 61 or file a brief with the Commission no later than August 30, 2011.

Categories of issues apparently raised. Petitioner contends that: (1) The Postal Service failed to adequately consider the economic savings resulting from the closure (see 39 U.S.C. 404(d)(2)(A)(iv)); (2) the Postal Service failed to consider whether or not it will continue to provide a maximum degree of effective and regular postal services to the community (see 39 U.S.C. 404(d)(2)(A)(iii)); and (3) the Postal Service failed to consider the effect of the closing on the community (see 39 U.S.C. 404(d)(2)(A)(i)).

After the Postal Service files the administrative record and the Commission reviews it, the Commission may find that there are more legal issues than those set forth above, or that the Postal Service's determination disposes of one or more of those issues. The deadline for the Postal Service to file the applicable administrative record with the Commission is August 10, 2011. See 39 CFR 3001.113. In addition, the due date for any responsive pleading by the Postal Service to this notice is August 10, 2011.

Further procedures. By statute, the Commission is required to issue its decision within 120 days from the date it receives the appeal. See 39 U.S.C. 404(d)(5). A procedural schedule has been developed to accommodate this statutory deadline. In the interest of expedition, in light of the 120-day decision schedule, the Commission may request the Postal Service or other participants to submit information or memoranda of law on any appropriate issue. As required by the Commission rules, if any motions are filed, responses are due 7 days after any such motion is filed. See 39 CFR 3001.21.
