

current requirements and prescriptions which limit treatments and activities needed to attain the desired future condition in the project area. Proposed Site Specific Amendment #1—Wildland Fire Management would more closely align with Federal Wildland Fire policy by allowing for the use of unplanned ignitions to meet project objectives. Proposed Site Specific Amendment #2—Big Game Winter Range would change direction regarding cover to forage ratios within management area (MA) 4A in order to achieve fuels reduction objective in this HFRA project.

Responsible Official

Regional Forester, Intermountain Region, 324 25th St., Ogden, UT 84401.

Nature of Decision To Be Made

An environmental impact statement (EIS) that discloses the environmental consequences of implementing the proposed action and alternatives to the proposed action will be prepared. A separate Record of Decision (ROD) will explain the Regional Forester's decision regarding whether or not to implement some level of fuels reduction and other proposed activities on all, part, or none of the area analyzed, given the consideration of multiple-use goals and objectives.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. Comments that would be most useful are those concerning developing or refining the proposed action, in particular are site specific concerns and those that can help us develop treatments and activities that would be responsive to our goal to reduce hazardous fuel conditions, risks to communities from uncharacteristic high-intensity wildfires and landscape restoration needs in the project. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, we ask that input be timely and clearly articulate the reviewer's concerns and contentions. Section 104(e) of the HFRA requires agencies to provide notice of the project and conduct a public meeting when preparing authorized hazardous-fuel-reduction projects. A public meeting is scheduled for Thursday, August 18th, 2011 at 6:30pm at the Gibbonsville Improvement Association Building. Additional public meetings are anticipated to be held following

publication of the Draft Environmental Impact Statement.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.

Dated: July 26, 2011.
