Service Life Extension Program for the upgrade and conversion of MK15 PHALANX Close-In Weapon Systems (CIWS) aboard two ex-FFG–7 Class Frigates from the Block 0 to Block 1B, Baseline 2 configuration, spare and repair parts, support and test equipment, publications and technical documentation, system overhauls and upgrades, personnel training and training equipment, U.S. Government and contractor technical support, and other related elements of program support. The estimated cost is $200 million.

Poland is one of our important allies in Northern Europe, contributing to NATO activities and ongoing U.S. interests in the pursuit of peace and stability. Poland’s efforts in peacekeeping operations in Iraq and Afghanistan have served U.S. national security interests. It is vital to the U.S. national interest to assist Poland to develop and maintain a strong and ready self-defense capability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The proposed sale will involve multiple contractors, as well as U.S. Atlantic Coast shipyards who will compete for planning and execution of the system overhaul and upgrade projects. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland. However, periodic travel to Poland will be required on a temporary basis in conjunction with program, technical, and management oversight and support requirements.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.
