

1. You may file your comments electronically by using the *eComment* feature, which is located on the Commission's Web site at <http://www.ferc.gov> under the link to *Documents and Filings*. An *eComment* is an easy method for interested persons to submit brief, text-only comments on a project.

2. You may file your comments electronically by using the *eFiling* feature, which is located on the Commission's Web site at <http://www.ferc.gov> under the link to *Documents and Filings*. With *eFiling*, you can provide comments in a variety of formats by attaching them as a file with your submission. New *eFiling* users must first create an account by clicking on "*eRegister*." You will be asked to select the type of filing you are making. A comment on a particular project is considered a "Comment on a Filing"; or

3. You may mail a paper copy of your comments to the Commission at the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Environmental Mailing List

We are developing an environmental mailing list that will be used to provide interested parties with information on the EIS process and opportunities for public participation, including distribution of the draft EIS for public review. The environmental mailing list includes Federal, state, and local government representatives and agencies; Alaska Native tribes and village corporations; elected officials; environmental and public interest groups; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. If you received this notice, you are currently on the environmental mailing list for the APP. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

Copies of the completed draft EIS will be sent to individuals on the environmental mailing list for public review and comment. If you would prefer to receive a paper copy instead of

the CD version or would like to remove your name from the mailing list, please return the attached Environmental Document Request Form (attachment 3).

Becoming an Intervenor

Once the project proponent formally files its application with the Commission, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in a Commission proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "eFiling" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until a formal application for the APP is filed with the Commission. You do not need intervenor status to have your environmental comments considered.

Additional Information

Additional information is available from FERC's Office of External Affairs at (866) 208-FERC (3372) or on the FERC Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF09-11). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link on the FERC Web site also provides access to the text of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called *eSubscription* that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to the *eSubscription* link on the FERC Web site (<http://www.ferc.gov/docs-filing/esubscription.asp>).

Also, the project proponent has established a Web site for the APP at <http://www.thealaskapipelineproject.com>. The Web site includes a description of the project as well as project maps and links to related documents. Information can

also be obtained by calling the project proponent directly at (877) 625-8679 (toll free) or (907) 564-3660.

[Project No. 13135-002]

City of Watervliet; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 1, 2011, the City of Watervliet filed an application for a successive preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Delta Hydroelectric Project to be located at Delta Dam on the Mohawk River in Oneida County, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) The existing 1,016-foot-long, 76-foot-high Delta Dam, owned by the New York State Canal Corporation, (2) an existing impoundment having a surface area of 2,700 acres and a storage capacity of 63,200 acre-feet and normal water surface elevation of 550 feet mean sea level, (3) a proposed powerhouse containing two generating units with a total installed capacity of 5.0 megawatts, (4) a proposed 17,000-foot-long, 13.2-kilovolt underground generator lead, and (5) appurtenant facilities. The project would have an annual generation of 14.1 gigawatt hours.
