II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASDAQ included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASDAQ has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ is proposing to increase the fees assessed members under Rule 7015(h) for use of VTE terminals. A VTE terminal is a basic front-end user interface used by NASDAQ members to connect to, and enter orders in, The Nasdaq Market Center. Members using VTE terminals pay the exchanges directly for data feeds and services provided by NASDAQ and other exchanges or market centers through VTE at the SEC-approved rate that they would pay to receive the data feeds through other means. These data feeds provide information that is necessary for users to enter orders through VTE. The two fees assessed under Rule 7015(h) relate to optional web access and commissions.

Rule 7015(h) currently assesses monthly a minimum commission fee of \$100 fee per ID, and a web access fee of \$100 per ID. NASDAQ last raised fees assessed under Rule 7015(h) in 2007 when it raised the fee for access to the terminal via the web from \$50 monthly to \$100 monthly, and raised the minimum commission fee for users executing orders totaling less than

100,000 shares per month from \$50 monthly to \$100 monthly.³ In light of increasing costs, NASDAQ is proposing to increase the fee for access to the terminal via the web from \$100 monthly to \$125 monthly, and increase the minimum commission fee for users executing orders totaling less than 100,000 shares per month from \$100 monthly to \$125 monthly.

NASDAQ notes that web connectivity is one option available to NASDAQ users for accessing the VTE terminal. Another option is access through extranet connectivity, where a user contracts directly with a third-party extranet provider and pays fees to that provider. With respect to minimum commission fees, members that execute total orders above the 100,000 share threshold will continue to not be assessed a commission fee.

Based on NASDAQ’s operation of the VTE since it was acquired from INET, NASDAQ believes that the pricing changes are warranted in order to appropriately balance the demand for the product with increasing platform, overhead and technology infrastructure costs.

2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁴ in general, and with Section 6(b)(4) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls. All similarly situated members are subject to the same fee structure, and access to this NASDAQ service is offered on fair and non-discriminatory terms. As noted, NASDAQ has not increased the fees assessed under Rule 7015(h) since 2007 despite incurring increased costs. Use of VTE terminals is voluntary and members can avail themselves of numerous other means of accessing The Nasdaq Market Center. NASDAQ further notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive.

B. Self-Regulatory Organization’s Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will result in any burden on competition that is not

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-65007; File No. SR-CBOE-2011-071]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Fee Schedule Concerning Facilitation Orders in Multiply-Listed FLEX Options

August 2, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 1, 2011, the Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange hereby proposes to waive the Clearing Trading Permit Holder Proprietary Transaction Fee for Clearing Trading Permit Holders executing facilitation orders in multiply-listed FLEX Options classes. The text of the proposed rule change is available on the Exchange's Web site (<http://www.cboe.org/legal>), at the Exchange's Office of the Secretary, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Over-the-counter ("OTC") trading and Flexible Exchange Options ("FLEX") trading are similar in that both are highly customized, and largely involve customer-to-firm trades. Due to regulatory changes and other market forces, the Exchange believes that market participants interested in executing these types of customized, customer-to-firm trades will begin to transition from executing such trades in the OTC markets to executing them as FLEX trades. Currently, a number of other exchanges which also host FLEX trading, including the NASDAQ OMX PHLX LLC ("PHLX"), do not charge transaction fees on firm facilitation orders in multiply-listed FLEX Options classes³ (the nature of a facilitation order is such that it provides a market for a trade, and only Clearing Trading Permit Holders (or firms, on other exchanges) can enter such orders). Because CBOE anticipates an increase in FLEX trading, and because CBOE would like to be able to compete with other exchanges for FLEX trades on an even
