## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

August 3, 2011.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; [OIRA\\_Submission@OMB.EOP.GOV](mailto:OIRA_Submission@OMB.EOP.GOV); or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602.

**DATES:** Comments regarding these information collections are best assured

of having their full effect if received by September 7, 2011. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Agricultural Marketing Service

*Title:* Data Collection for Container Availability.

*OMB Control Number:* 0581-NEW.

*Summary of Collection:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements aiding in the maintenance of farm income and to bring about a balance between production and utilization. As part of the Agricultural Marketing Service (AMS), the Transportation Services Division (TSD) informs, represents, and assists agricultural shippers and government policymakers through: Market reports, representation, analysis, assistance, and responses to inquiries.

*Need and Use of the Information:* TSD collects data for its analysis from public resources as well as unique data sources to help the agricultural exporters make the most out of the transportation options available. The new Data Collection for Container Availability will provide U.S. agricultural exporters with weekly data detailing the availability of containers at select locations around the country. AMS will collect these data on a voluntary basis from ocean container carriers and then provide these up-to-date data in an aggregate report on its Web site.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 21.

*Frequency of Responses:* Reporting: Weekly.

Total Burden Hours: 1,759.

**SUPPLEMENTARY INFORMATION:** *Title:*  
Brucellosis First Point Testing of Cattle  
and Bison; Brucellosis Standard Card  
Test.

*OMB Number:* 0579-xxxx.

*Type of Request:* Approval of an  
information collection.

*Abstract:* Under the Animal Health  
Protection Act (7 U.S.C. 8301 *et seq.*),  
the Animal and Plant Health Inspection  
Service (APHIS) of the United States  
Department of Agriculture is authorized,  
among other things, to prohibit or  
restrict the importation and interstate  
movement of animals and animal  
products to prevent the introduction  
into and dissemination within the  
United States of animal diseases and  
pests and for eradicating such diseases  
when feasible.

Brucellosis is a contagious disease  
that primarily affects cattle, bison, and  
swine. It causes the loss of young  
through spontaneous abortion or birth of  
weak offspring, reduced milk  
production, and infertility. The  
continued presence of brucellosis in a  
herd seriously threatens the health of  
other animals and can cause devastating  
losses to farmers in the United States.

The State-Federal Brucellosis  
Eradication Program, a national  
cooperative program, is working to  
eradicate this serious disease of  
livestock from the United States. The  
program uses a system of State and area  
classifications, movement restrictions,  
testing protocols, extensive  
epidemiological investigations, and  
other measures to prevent its spread and  
eradicate the disease.

First point testing (FPT) is a key  
method for controlling brucellosis and  
is performed at a Veterinary Services  
(VS)-approved stockyard or other points  
of first concentration when livestock are  
moved from the farm of origin. The  
brucellosis standard card test is used as  
the official FPT brucellosis test for cattle  
or bison when a State animal health  
official has specifically designated it as  
the official test for cattle and bison at  
VS-approved stockyards in that State.  
The test is used to determine the  
brucellosis disease status of cattle and  
bison for interstate movement from the  
approved stockyards and at VS-  
approved brucellosis diagnostic  
laboratories. Only authorized State and  
Federal brucellosis program personnel  
and accredited veterinarians may

conduct the brucellosis standard card  
test on cattle and bison at premises  
other than VS-approved livestock  
facilities. Card test authorization  
involves information collection  
activities, including a memorandum of  
understanding, a card test notice, and an  
authorization form.

We are asking the Office of  
Management and Budget (OMB) to  
approve our use of these information  
collection activities for 3 years.

The purpose of this notice is to solicit  
comments from the public (as well as  
affected agencies) concerning our  
information collection. These comments  
will help us:

(1) Evaluate whether the collection of  
information is necessary for the proper  
performance of the functions of the  
Agency, including whether the  
information will have practical utility;

(2) Evaluate the accuracy of our  
estimate of the burden of the collection  
of information, including the validity of  
the methodology and assumptions used;

(3) Enhance the quality, utility, and  
clarity of the information to be  
collected; and

(4) Minimize the burden of the  
collection of information on those who  
are to respond, through use, as  
appropriate, of automated, electronic,  
mechanical, and other collection  
technologies; *e.g.*, permitting electronic  
submission of responses.

*Estimate of burden:* The public  
reporting burden for this collection of  
information is estimated to average  
0.1768953 hours per response.

*Respondents:* State animal health  
officials and accredited veterinarians.

*Estimated annual number of  
respondents:* 57.

*Estimated annual number of  
responses per respondent:* 4.8596491.

*Estimated annual number of  
responses:* 277.

*Estimated total annual burden on  
respondents:* 49 hours. (Due to  
averaging, the total annual burden hours  
may not equal the product of the annual  
number of responses multiplied by the  
reporting burden per response.)

All responses to this notice will be  
summarized and included in the request  
for OMB approval. All comments will  
also become a matter of public record.

Done in Washington, DC, this 2nd day of  
August 2011.

**Gregory L. Parham,**

Administrator, Animal and Plant Health  
Inspection Service.
