

Application for a New License pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Claytor Hydroelectric Project is located on the New River in Pulaski County, Virginia.

The license for Project No. 739 was issued for a period ending June 30, 2011. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 739 is issued to the Appalachian Power Company for a period effective July 1, 2011 through June 30, 2012, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before June 30, 2012, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that the Appalachian Power Company is authorized to continue operation of the Claytor Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

Dated: July 29, 2011.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

[Docket No. AC11-121-000]

Liberty Gas Storage, LLC; Notice of Filing

Take notice that on July 25, 2011, Liberty Gas Storage, LLC (Liberty) submitted a request for confirmation that it is not required to file FERC Form No. 2-A and will not be applicable until such time as the actual volume transactions on Liberty exceed 200,000 Dth for three consecutive calendar years. Liberty argues that given the low levels of total volume transactions on Liberty's pipeline system during the preceding three calendar years, Liberty does not meet the threshold for filing a Form 2-A. Liberty, in fact, has never met this threshold since it placed its initial facilities into service in 2007. Since the Form No. 3-Q filing requirement is applicable only when a natural gas company is obligated to file a Form 2-A, Liberty likewise believes that it is not required to file a Form No. 3-Q under present circumstances. Liberty requests the issuance of an order or other determination on this request for confirmation by September 1, 2011, which is the requested effective date for new, cost-based rates on Liberty's system.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214).

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.
