SUPPLEMENTARY INFORMATION:

Background

A petition has been filed under section 177.13, CBP regulations (19 CFR 177.13), on behalf of Yara North America, Inc. (“Yara”). Yara is a subset of Yara International ASA, a global firm specializing in agricultural products and environmental protection agents. It is a supplier of mineral fertilizers. As an importer of these products, Yara has received inconsistent classification decisions on its merchandise at different ports. As such, Yara meets the requirements of 19 CFR 177.13(a)(2) and 19 U.S.C. 1514(c) and meets the requirements regarding the types of decisions subject to petition set forth in 19 CFR 177.13(a)(1) and 19 U.S.C. 1514(a). Furthermore, having filed this petition within 90 days of the latest decision it received from a port, Yara meets the timeliness requirements of 19 CFR 177.13(a)(3). Lastly, Yara also meets the requirements of 19 CFR 177.13(b)(2), and specifically 19 CFR 177.13(b)(2)(i) in that their petition contains a complete description of the inconsistent decisions of which they complain. Their petition includes enough information to demonstrate the inconsistency of the decisions at the Ports. Furthermore, the company has submitted a sample that has been tested at Customs and Border Protection (“CBP”) laboratories. Yara is requesting that CBP classify the imported merchandise in subheading 3102.60.00, Harmonized Tariff Schedule of the United States (HTSUS).

This transaction in particular concerns Yara’s importation of CN–9 Solution, a hydrated ammonium calcium nitrate double salt that is primarily used as a fertilizer but is also used for waste water treatment. Yara entered the subject merchandise at the Port of Long Beach between January 24, 2009 and September 8, 2009, and the Port of Baltimore on April 20, 2010, under subheading 3102.60.00, HTSUS, as “Mineral or chemical fertilizers, nitrogenous: Double salts and mixtures of calcium nitrate and ammonium nitrate.” Citing Legal Note 2(a)(v) to Chapter 31, HTSUS, the Port of Long Beach liquidated the subject merchandise as entered.

Citing Legal Note 5 to Chapter 28, HTSUS, the Port of Baltimore liquidated the subject merchandise under subheading 2842.90.90, HTSUS, as “Other salts of inorganic acids or peroxoacids (including aluminosilicates whether or not chemically defined), other than azides: Other: Other.”

SUPPLEMENTARY INFORMATION: The SHOP program provides grants to national and regional nonprofit organizations and consortia that have experience in providing self-help housing. Grant funds are used to purchase land and install or improve infrastructure, which together may not exceed an average investment of $15,000 per dwelling unit. Low-income homebuyers contribute a minimum of 100 hours of sweat equity on the construction of their homes and/or the homes of other homebuyers participating in the local self-help housing program. Sweat equity can include, but is not limited to, assisting in the painting, carpentry, trim work, drywall, roofing and siding for the housing. Persons with disabilities can substitute administrative tasks. Donated volunteer labor is also required.

The SHOP funds together with the sweat equity and volunteer labor contributions significantly reduce the cost of the housing for the low-income homebuyers. The FY 2010 awards announced in this Notice were selected for funding in the NOFA competition posted on February 1, 2011, on the grants.gov website. Applications were scored and selected for funding based on the selection criteria in the General Section and the SHOP program NOFA.

The amount appropriated in FY 2010 to fund the SHOP grants was $26,730,000. The allocations for SHOP grantees are as follows:
