

California 95825, upon required payment.

Protest: A person or party who wishes to protest a survey must file a notice that they wish to protest with the California State Director, Bureau of Land Management, 2800 Cottage Way, Sacramento, California 95825.

FOR FURTHER INFORMATION CONTACT: Chief, Branch of Geographic Services, Bureau of Land Management, California State Office, 2800 Cottage Way, Room W-1623, Sacramento, California 95825, (916) 978-4310.

SUPPLEMENTARY INFORMATION: These surveys and supplemental plats were executed to meet the administrative needs of various federal agencies; the Bureau of Land Management, Bureau of Indian Affairs or General Services Administration. The lands surveyed are:

Mount Diablo Meridian, California

- T. 26 S., R. 33 E., Dependent resurvey and metes-and-bounds survey, accepted May 10, 2011.
T. 23 S., R. 16 E., Dependent resurvey and subdivision of section 20, accepted June 29, 2011.

San Bernardino Meridian, California

- T. 9 S., R. 2 W., Supplemental plat of the NW ¼ of the SW ¼ section 34, accepted April 5, 2011.
T. 2 N., R. 17 W., Metes-and-bounds survey, accepted May 9, 2011.
T. 8 S., R. 2 E., Dependent resurvey and subdivision of sections 11 and 12, accepted May 10, 2011.
T. 8 S., R. 3 E., Dependent resurvey and subdivision of sections 7 and 8, accepted May 10, 2011.
T. 9 N., R. 32 W., Supplemental plat, accepted May 16, 2011.
T. 4 S., R. 4 E., Supplemental plat of the NE ¼ SE ¼ of section 26, accepted June 3, 2011.
T. 5 N., R. 28 W., Dependent resurvey, accepted July 22, 2011.

Authority: 43 U.S.C., Chapter 3.

Dated: May 7, 2010.

Lance J. Bishop,

Chief Cadastral Surveyor, California.

Bureau of Land Management

[LLCAN01000.L10200000.XZ0000]

Notice of Public Meeting: Northwest California Resource Advisory Council

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Public Meeting.

SUMMARY: In accordance with the Federal Land Policy and Management

Act of 1976 (FLPMA), and the Federal Advisory Committee Act of 1972 (FACA), the U. S. Department of the Interior, Bureau of Land Management (BLM) Northwest California Resource Advisory Council will meet as indicated below.

DATES: The meeting will be held Wednesday and Thursday, Sept. 7 and 8, 2011, at the BLM Arcata Field Office, 1695 Heindon Rd., Arcata, California. On Sept. 7, the RAC will convene at 10 a.m. and depart for a field tour to the Lost Coast Headlands project and the South Spit Management Area. Members of the public are welcome. They must provide their own transportation, food and beverages. On Sept. 8, the council will convene at 8 a.m. in the Conference Room of the BLM Arcata Field Office. The meeting is open to the public. Time for public comment has been reserved at 11 a.m.

FOR FURTHER INFORMATION CONTACT: Nancy Haug, BLM Northern California District manager, (530) 224-2160; or BLM Public Affairs Officer Joseph J. Fontana, (530) 252-5332.

SUPPLEMENTARY INFORMATION: The 12-member council advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in Northwest California. At this meeting agenda topics include management of the King Range National Conservation Area, status of the Walker Ridge Wind Energy proposal, management of the Sacramento River Bend Area of Critical Environmental Concern and environmental education programs. All meetings are open to the public. Members of the public may present written comments to the council. Each formal council meeting will have time allocated for public comments. Depending on the number of persons wishing to speak, and the time available, the time for individual comments may be limited. Members of the public are welcome on field tours, but they must provide their own transportation and lunch. Individuals who plan to attend and need special assistance, such as sign language interpretation and other reasonable accommodations, should contact the BLM as provided above.

Dated: August 3, 2011.

Joseph J. Fontana,

Public Affairs Officer.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Notice of Availability of the Final Environmental Impact Statement/ Environmental Impact Report (EIS/EIR) for the Nimbus Hatchery Fish Passage Project, Lower American River, California

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Reclamation (Reclamation), the lead Federal agency, and the California Department of Fish and Game (CDFG), the lead State agency, have prepared a joint Final EIS/EIR for the proposed Nimbus Fish Hatchery Weir Replacement Project (Project). The purpose of the Project is to create and maintain a reliable system of collecting adult fish for use in the Nimbus Fish Hatchery (Hatchery).

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after release of the Final EIS/EIR. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the action that will be implemented and discuss all the factors that led to the decision.

The CDFG will advance its recommendations to the California Fish and Game Commission (Commission) for consideration. The Commission will hold additional hearings on the recommendations and a Notice of Determination will be filed after the hearings. This action will trigger a 30-day review period under California Environmental Quality Act.

ADDRESSES: Copies of the Final EIS/EIR may be requested from Ms. Janet Sierzputowski at 916-978-5112, TTY 916-978-5608, or e-mail jsierzputowski@usbr.gov.

The Final EIS/EIR is also accessible from the following Web site: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=5216 or <http://www.usbr.gov/mp/ccao/hatchery/index.html>.

See the **SUPPLEMENTARY INFORMATION** section for locations where copies of the Final EIS/EIR are available for public review.

FOR FURTHER INFORMATION CONTACT: Mr. David Robinson, Central California Area Office (CCAO), Bureau of Reclamation, at the CCAO general telephone number 916-988-1707, e-mail: HatchPass@usbr.gov.

SUPPLEMENTARY INFORMATION: The Nimbus Hatchery is located along the

lower American River approximately ¼ mile downstream from Nimbus Dam in Rancho Cordova, CA. The Hatchery is a mitigation facility that was constructed by Reclamation in 1955 to compensate for the loss of spawning habitat for Chinook salmon and steelhead trout inundated by the construction of Nimbus Dam. The Hatchery annually produces about 4 million fall-run Chinook salmon smolts and 430,000 winter-run American River steelhead yearlings. A fish weir is currently used to prevent adult salmon from continuing upstream and allows them to locate and enter the fish ladder and hatchery.

The Project is needed because the existing weir is aging, susceptible to periodic significant damage from high flows, and its operation requires annual flow reductions to perform maintenance which affect protected steelhead populations in the river. Annual short-term flow reductions when steelheads are rearing in the lower American River are required to install the weir. Flow reductions of longer duration are periodically required to repair significant flood damage to the existing structure and scouring around its foundation. This scouring is harmful because it destabilizes the weir and creates large holes that upstream migrant fish can pass through and therefore fail to enter into the hatchery ladder.

The primary objective of the Project is to maintain a fully functional system of collecting adult fish sufficient to meet mitigation goals. Secondary objectives are to minimize operation and maintenance costs, avoid reducing river flows, and improve safety. Reclamation has evaluated a broad set of potential solutions in a series of planning evaluations beginning in the mid-1990s. Two approaches to solving the problems that were advanced through the planning process are: (1) Constructing a new fish diversion weir with a concrete foundation and air bladder control gates and pickets; and (2) extending the fish ladder upstream to Nimbus Dam and removing the existing fish diversion weir. The EIS/EIR evaluates each of these alternative approaches and a no action alternative.

CDFG has continuously operated and maintained the Hatchery under contract with Reclamation since it was originally constructed in 1955. CDFG operates and maintains all salmon and steelhead hatcheries within the State of California and is responsible for the management of statewide fisheries resources. As manager of the State fisheries resources, CDFG is also responsible for recommending and implementing fishing regulations. One alternative

under consideration would result in changes to the fishing opportunities immediately downstream from Nimbus Dam pursuant to CDFG Regulation Section 2.35, "Taking Fish near Dams, Screens, and Egg-taking Stations," and likely would result in significant impacts to the Chinook salmon population. CDFG is also considering modification to the seasonal fishing regulations between the Hatchery and Nimbus Dam as part of the evaluation of this alternative.

A Notice of Availability of the Draft EIS/EIR and a schedule for public meetings was published in the **Federal Register** on October 01, 2010 (75 FR 60804). The formal comment period on the Draft EIS/EIR ended on November 30, 2010. The Final EIS/EIR contains responses to all comments received and reflects comments and any additional information received during the review period.

Copies of the Final EIS/EIR are available for public review at the following locations:

- Bureau of Reclamation, Denver Office Library, Building 67, Room 167, Denver Federal Center, 6th and Kipling, Denver, CO 80225.
- Natural Resources Library, Department of the Interior, 1849 C Street, NW., Main Interior Building, Washington, DC 20240-0001.
- Bureau of Reclamation, Mid-Pacific Region, Regional Library, 2800 Cottage Way, Sacramento, CA 95825.
- Central California Area Office, Bureau of Reclamation, 7794 Folsom Dam Road, Folsom, CA 95630.
- Nimbus Fish Hatchery, 2001 Nimbus Road, Gold River, CA 95670.

Dated: July 25, 2011.

Pablo R. Arroyave,

Deputy Regional Director, Mid-Pacific Region.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Rural Water Supply Program Approved Appraisal Reports; Availability

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability.

SUMMARY: Reclamation provides assistance for appraisal investigations and feasibility studies for rural water supply projects intended to serve a community or group of communities with domestic, industrial, and municipal water. This assistance helps rural communities assess their potable

water needs and identify options to address those needs.

Three appraisal reports were approved in Fiscal Year 2010 and two were approved in Fiscal Year 2011. The initial appraisal investigations were submitted by the participants for review to assess technical adequacy and completeness. Once reviewed, Reclamation prepared these reports to document the findings and conclusions of the appraisal investigations that identified the water supply problems, needs, and opportunities in the planning study areas. The approval of an appraisal report indicates that there is a viable alternative that warrants a more detailed investigation through a feasibility study.

SUPPLEMENTARY INFORMATION: The approved appraisal reports can be downloaded from our Web site: <http://www.usbr.gov/ruralwater>.

FOR FURTHER INFORMATION CONTACT: Mr. Joseph Wilson by telephone at (303) 445-2856, or by e-mail at jwilson@usbr.gov. Copies are also available for public review at the following locations:

- Dry-Redwater Rural Water System Appraisal Report, Bureau of Reclamation, Montana Area Office, 2900 Fourth Avenue North, Billings, MT 59101, (406) 247-7300
- Douglas County Rural Water Project Appraisal Report, Bureau of Reclamation, Eastern Colorado Area Office, 11056 W. County Rd 18E, Loveland, CO 80537-9711, (970) 667-4410
- Lower Niobrara Natural Resource District Appraisal Report, Bureau of Reclamation, Nebraska Kansas Area Office, 203 West 2nd Street, Grand Island, NE 68801-5907, (308) 389-5301
- Musselshell-Judith Rural Water System Appraisal Report, Bureau of Reclamation, Montana Area Office, 2900 Fourth Avenue North, Billings, MT 59101, (406) 247-7300
- Southern Black Hills Regional Water System Appraisal Report, Bureau of Reclamation, Dakotas Area Office, 304 E. Broadway Avenue, Bismarck, ND 58501, (701) 250-4242 x3101

Authority

Reclamation Rural Water Supply Act of December 22, 2006 (Pub. L. 109-451, Title I, 120 Stat. 3346, 43 U.S.C. 2401, *et seq.*) authorizes Reclamation to establish a program to work with rural communities, including Indian tribes, in the 17 Western States to assess rural water supply needs and identify options to address those needs through appraisal investigations and feasibility studies.
