the target audience for each activity; the number and types of TA products organized and archived; the number of visits to the grantee’s Web site on a monthly and annual basis; and a quantitative analysis of any customer satisfaction survey findings including information derived from questions about product quality, relevance, and utility; and

(g) Collaborate with other RSA-funded TA providers, including, but not limited to, the TACE centers, the National Clearinghouse of Rehabilitation Training Materials, the American Indian Vocational Rehabilitation Technical Assistance Center, and the Independent Living Training and Technical Assistance Center, in the provision and support of TA activities.

Types of Priorities:

When inviting applications for a competition using one or more priorities, we designate the type of each priority as absolute, competitive preference, or invitational through a notice in the Federal Register. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by (1) awarding additional points, depending on the extent to which the application meets the priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the priority. However, we do not give an application that meets the priority a preference over other applications (34 CFR 75.105(c)(1)).

This notice does not preclude us from proposing additional priorities, requirements, definitions, or selection criteria, subject to meeting applicable rulemaking requirements.

Note: This notice does not solicit applications. In any year in which we choose to use this priority, we invite applications through a notice in the Federal Register.

Executive Order 12866: This notice has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action. The potential costs associated with this regulatory action are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this regulatory action, we have determined that the benefits of the priority justify the costs.

We have determined, also, that this final regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Summary of potential costs and benefits:

TA targeted to the specific needs of grantees helps them to improve their performance and to achieve their objectives. Specifically, the provision of cost effective TA to State VR agencies in areas of national need should result in higher quality employment outcomes for the individuals with disabilities whom these agencies serve.

Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Accessible Format: Individuals with disabilities can obtain this document in an accessible format (e.g., braille, large print, audiotape, or compact disc) by contacting the Grants and Contracts Services Team, U.S. Department of Education, 400 Maryland Avenue, SW., room 5075, Potomac Center Plaza, Washington, DC 20202–2550. Telephone: (202) 245–7363. If you use a TDD, call the FRS, toll free, at 1–800–877–8339. Electronic Access to This Document: The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available via the Federal Digital System at: http://www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the Federal Register, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site. You may also access documents of this Department published in the Federal Register by using the article search feature at: http://www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: August 10, 2011.
Alexa Posny,
Assistant Secretary for Special Education and Rehabilitation Services.

DEPARTMENT OF ENERGY

[OE Docket No. EA–382]

Application To Export Electric Energy; Glacial Energy of Texas, Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Glacial Energy of Texas, Inc. (Glacial) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before September 14, 2011.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Christopher Lawrence, Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Christopher.Lawrence@hq.doe.gov, or by facsimile to 202–586–8008.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) 202–586–5260.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On July 14, 2011, DOE received an application from Glacial for authority to transmit electric energy from the United States to Mexico for five years as a power marketer using existing international transmission facilities. Glacial does not own any electric transmission facilities nor does it hold a franchised service area.

The electric energy that Glacial proposes to export to Mexico would be

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On July 14, 2011, DOE received an application from Glacial for authority to transmit electric energy from the United States to Mexico for five years as a power marketer using existing international transmission facilities. Glacial does not own any electric transmission facilities nor does it hold a franchised service area.

The electric energy that Glacial proposes to export to Mexico would be
surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by Glacial have previously been authorized by Presidential permits issued pursuant to Executive Order 10465, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (385.214). Fifteen copies of each comment, protest, or motion to intervene should be filed with DOE on or before the date listed above.

Comments on the Glacial application to export electric energy to Mexico should be clearly marked with Docket No. EA–382. An additional copy is to be filed directly with Michael B. Giery, Senior Corporate Counsel, 5326 Yacht Haven Grande #36, St. Thomas, VI 00802. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and a determination is made by DOE that the proposed action will not have an adverse impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa Hopkins at Odessa.hopkins@hq.doe.gov.

Issued in Washington, DC, on August 9, 2011.

Anthony J. Como,
Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

DEPARTMENT OF ENERGY
[DOE/EIS–0458]

Notice of Availability of the Final Environmental Impact Statement for a Proposed Federal Loan Guarantee To Support Construction and Start-up of the Topaz Solar Farm, San Luis Obispo County, CA

AGENCY: U.S. Department of Energy.
ACTION: Notice of Availability of the Final Environmental Impact Statement.
SUMMARY: The U.S. Department of Energy (DOE) announces the availability of the Final Environmental Impact Statement for the DOE Loan Guarantee to Royal Bank of Scotland for Construction and Startup of the Topaz Solar Farm, San Luis Obispo County, California (DOE/EIS–0458) (Final EIS). The Final EIS, prepared under the National Environmental Policy Act (NEPA), analyzes the potential environmental impacts of the DOE’s proposed action of issuing a Federal loan guarantee to support construction and start-up of the Topaz Solar Farm Project located in San Luis Obispo County, California (Proposed Project). The Proposed Project is a nominal 550-megawatt solar power generating facility based on photovoltaic (PV) technology on approximately 3,500 acres of private land in San Luis Obispo County, California. DOE considered all comments received in preparing the EIS and incorporated both the comments and DOE’s responses in the Final EIS.
DATES: DOE will publish a Record of Decision no sooner than 30 days after publication of EPA’s Notice of Availability in the Federal Register.
FOR FURTHER INFORMATION CONTACT: To obtain additional information about this EIS, or to receive a copy of the Final EIS, contact Angela Colamaria by telephone: 202–287–5387; toll-free number: 800–832–0885 ext. 75387; or electronic mail: Angela.Colamaria@hq.doe.gov. For general information on the DOE NEPA process, please contact: Ms. Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance (GC–54), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585; telephone: 202–586–4600; facsimile: 202–586–7031; electronic mail: askNEPA@hq.doe.gov; or leave a toll-free message at 800–472–2756.
SUPPLEMENTARY INFORMATION: Title XVII of Energy Policy Act 2005 (EPAct) established a Federal loan guarantee program for eligible energy projects, and was amended by the American Recovery and Reinvestment Act of 2009 to create Section 1705 of Title XVII (42 U.S.C. 16516), authorizing a new program for rapid deployment of renewable energy projects and related manufacturing facilities, electric power transmission projects, and leading edge biofuels projects. The Section 1705 Program is designed to address the current economic conditions of the nation, in part, through financing such projects.

The purpose and need for action by DOE is to comply with its mandate under EPAct 2005 by selecting eligible projects that meet the goals of the Section 1705 Program as summarized above. The EIS informs DOE’s decision on whether to issue a loan guarantee to support the Proposed Project. DOE’s proposed action is to issue a loan guarantee to support construction and startup of the Topaz Solar Farm (Proposed Project). The Proposed Project would be located in an unincorporated portion of eastern San Luis Obispo County, California, adjacent to Highway 58 and east of Bitterwater Road. Topaz has options to purchase approximately 10,000 acres of land in the project area. The Proposed Project would be developed on approximately 3,500 acres of private land.

The Proposed Project would consist of: a solar field of approximately nine million ground-mounted PV modules, within up to 460 PV arrays, that collect solar radiation to produce electricity; an electrical collection system that converts generated power from direct current (DC) to alternating current (AC) and delivers it to a new Project substation which collects and converts the generated power from 34.5 kV to 230 kV for delivery via a new Pacific Gas and Electric (PG&E) switching station to PG&E’s existing Morro Bay-Midway 230–kV transmission line which runs in an east-to-west direction through the site and portions of Kern County; and the aforementioned PG&E switching station that interconnects the Proposed Project to PG&E’s existing transmission line. After construction, PG&E would own and operate the switching station. As part of the Proposed Project, Topaz would construct and operate a Solar Energy Monitoring and Maintenance Facility, and may also construct a Solar Energy
