III. Cancellation Order

Pursuant to FIFRA section 3, EPA hereby announces the June 4, 2011 expiration of the time-limited registrations identified in Table 1 of Unit II. The registrants listed above in Table 2, Unit II agreed at the time the registrations were issued to the June 4, 2011 expiration date for these registrations. Additionally, on May 27, 2011 EPA accepted Woodstream's request to amend its difenacoum products to narrow the scope of the time-limited registration so that the expiration date would apply only to the consumer use (Sublabel A), allowing the products to remain registered but only for agricultural and professional uses. All other registrations listed in Table 1 in Unit II expired on June 4, 2011 without exception. The Agency considers the expiration of a time-limited registration to be a cancellation under section 3 of FIFRA, for purposes of section 6(a)(1) of FIFRA. Any distribution, sale, or use of existing stocks of the canceled products identified in Table 1 of Unit II in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit IV., will be considered a violation of FIFRA section 12(a)(2)(K).

Pursuant to the terms set forth in Unit IV., EPA is allowing the sale, distribution, and use of existing stocks of the registrations subject to this cancellation order primarily because there are other similar rodenticide products that remain registered, and may lawfully be distributed, sold, and used until EPA completes cancellation proceedings pursuant to FIFRA section 6(b).¹ Although, EPA is allowing the sale, distribution, and use of existing stocks of the registrations subject to this cancellation order, the Agency retains the right to amend this order, if

circumstances warrant. If the similar products are cancelled, it is likely that the Agency will consider modifying this cancellation order to mirror the treatment of existing stocks of the other cancelled products.

IV. Provisions for Disposition of Existing Stocks

For purposes of this order, existing stocks are those stocks of pesticide products subject to the cancellation order that are currently in the United States and were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. This cancellation order includes the following existing stock provisions:

All registrants identified in Table 2 in Unit II may continue to sell or distribute existing stocks of the products identified in Table 1 of Unit II released for shipment on or before June 4, 2011 bearing appropriate previously approved labeling until supplies are exhausted.

Persons other than the registrant may continue to sell or distribute existing stocks of the products identified in Table 1 of Unit II until supplies are exhausted, provided that products contain the appropriate, previously-approved labeling and that products were released by registrant on or before June 4, 2011. Any person may continue to use existing stocks of canceled products provided that such use is consistent with the terms of the previously approved labeling of the canceled products.
