The summary below describes the nature of the information collection requirements (ICRs) and the expected burden being submitted for clearance by OMB as required by the PRA.

Title: Locomotive Safety Standards and Event Recorders.

OMB Control Number: 2130-0004.

Type of Request: Extension without change of a currently approved collection.

Affected Public: Businesses.

Abstract: The Locomotive Inspection requires railroads to inspect, repair, and maintain locomotives and event recorders so that they are safe, free of defects, and can be placed in service without peril to life. Crashworthy locomotive event recorders provide FRA with verifiable factual information about how trains are maintained and operated, and are used by FRA and State inspectors for Part 229 rule enforcement. The information garnered from crashworthy event recorders is also used by railroads to monitor railroad operations and by railroad employees (locomotive engineers, train crews, dispatchers) to improve train handling, and promote the safe and efficient operation of trains throughout the country, based on a surer knowledge of different control inputs.

Form Number(s): FRA F 6180.49A.

Total Annual Estimated Burden Hours: 863,951 hours.

Addressee: Send comments regarding this information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, NW., Washington, DC 20503, Attention: FRA Desk Officer. Comments may also be sent via e-mail

to OMB at the following address: *oira-submissions@omb.eop.gov*.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.
