SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) maintains the Debarment and Suspension Program system of records. The primary purpose of this system of records is to assist DOI in conducting and documenting debarment and suspension proceedings to ensure that Federal procurements and Federal discretionary assistance, loans, and benefits are awarded to presently responsible business entities, organizations, and individuals. Additional purposes of the system are: to promote understanding of the case decision path and concerns addressed by the debarring and suspending official in reaching a decision; to promote the submission of relevant arguments in contested cases; to educate the public as to the kinds of mitigating factors and remedial measures that demonstrate present responsibility; and to enhance the transparency of decision making.

The system will be effective as proposed at the end of the comment period (the comment period will end forty (40) days after the publication of this notice in the Federal Register) unless comments are received which would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information principles in a statutory framework governing the means by which Federal Agencies collect, maintain, use, and disseminate individuals’ personal information. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act Regulations, 43 CFR part 2.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the type and character of each system of records that the agency maintains, the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such records within the agency. Below is the description of the DOI Debarment and Suspension Program system of records.

In a notice of proposed rulemaking, which is published separately in the Federal Register, DOI is proposing to exempt records maintained in this system from certain provisions of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2) and (k)(5).

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made public at any time. While you can ask us in your comment to withhold personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 11, 2011.
Karen Burke,
OS/NBC Privacy Act Officer.

Application for an Incidental Take Permit for the Madison Cave Isopod From Dominion Virginia Power; Low-Effect Habitat Conservation Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of application.

SUMMARY: Pursuant to the Endangered Species Act (ESA) and the National Environmental Policy Act (NEPA), the U.S. Fish and Wildlife Service (Service or “we”) announces the availability of an application for an Incidental Take Permit (ITP) and a proposed Low-Effect Habitat Conservation Plan (LEHCP) from Dominion Virginia Power for public review and comment. We received the permit application from Dominion Virginia Power for incidental take of the Madison Cave isopod during construction of a new natural gas-fired combined-cycle power station in Warren County, Virginia. A conservation program to minimize and mitigate for the incidental take would be implemented by Dominion Virginia Power as described in the proposed Dominion Virginia Power LEHCP. We prepared a preliminary EAS to comply with NEPA. The Service will evaluate whether the proposed action and issuance of an ITP to Dominion Virginia Power are adequate to support a categorical exclusion. This notice is provided pursuant to section 10(c) of the ESA and NEPA regulations (40 CFR 1506.6).

We are requesting comments on the proposed HCP and our preliminary determination that the HCP qualifies as low-effect under NEPA.

Availability of Documents

The proposed LEHCP and preliminary EAS are available on the VAFO’s Web site at: http://www.fws.gov/northeast/virginiafield/. Copies of the proposed LEHCP and preliminary EAS will be available for public review during regular business hours at the VAFO (see ADDRESSES). Those who do not have access to the Web site or cannot visit our office can request copies by
