

program partners/collaborators identified by each Program Director (1–2 partners per Director) as instrumental to the selection and implementation of cancer control EBPs. The survey results will help CDC enhance existing NCCCP efforts by identifying new strategies for promoting the use of evidence-based approaches to comprehensive cancer control. The surveys will also identify

technical assistance needs of NCCCP-funded awardees related to selection and implementation of EBPs, and will contribute to CDC’s efforts to build the capacities of states, Tribes, and Pacific Island Jurisdictions and territories toward more effective efforts in cancer prevention and control. Finally, the results may lead to new insights and questions that can be addressed in

future studies. CDC’s authorization to conduct the study is provided by Section 301 of the Public Health Service Act (42 U.S.C. 241).

OMB approval will be requested for one year. Participation in the study is voluntary. There are no costs to the respondents other than their time.

Title: Annual Report/ACF 204 (State MOE)—1 collection.

OMB No.: 0970-0248.

Description

The Administration for Children and Families (ACF) is requesting a three-year extension of the ACF-204 (Annual MOE Report). The Annual MOE Report provides the ability to learn about and to monitor the nature of State and Territory expenditures used to meet States and Territories MOE requirements, and it is an important source of information about the different ways that States and Territories are using their resources to help families attain and maintain self-sufficiency. In addition, the report is used to obtain State and Territory program characteristics for ACF's annual report to Congress, and the report serves as a useful resource to use in Congressional hearings about how TANF programs are evolving, in assessing State the Territory MOE expenditures, and in assessing the need for legislative changes.
