delivery and quality of accessible instructional materials for postsecondary students with print disabilities, as well as the effective use of such materials by faculty and staff; and (II) make recommendations related to the development of a comprehensive approach to improve the opportunities for postsecondary students with print disabilities to access instructional materials in specialized formats in a time frame comparable to the availability of instructional materials for postsecondary nondisabled students.

In making recommendations for the study, “the Commission shall consider—(I) How students with print disabilities may obtain instructional materials in accessible formats within a time frame comparable to the availability of instructional materials for nondisabled students; and to the maximum extent practicable, at costs comparable to the costs of such materials for nondisabled students; (II) the feasibility and technical parameters of establishing standardized electronic file formats, such as the National Instructional Materials Accessibility Standard as defined in Section 674(e)(3) of the Individuals with Disabilities Education Act, to be provided by publishers of instructional materials to producers of materials in specialized formats, institutions of higher education, and eligible students; (III) the feasibility of establishing a national clearinghouse, repository, or file-sharing network for electronic files in specialized formats and files used in producing instructional materials in specialized formats, and a list of possible entities qualified to administer such clearinghouse, repository, or network; (IV) the feasibility of establishing market-based solutions involving collaborations among publishers of instructional materials, producers of materials in specialized formats, and institutions of higher education; (V) solutions utilizing universal design; and (VI) solutions for low-incidence, high-cost requests for instructional materials in specialized formats.”

The Commission will meet in open session on Thursday and Friday, and will review and discuss the final draft of the Commission’s report to the Secretary and Congress.

Detailed minutes of the meeting and hearing, will be available to the public within 14 days of the meeting. Records are kept of all Commission proceedings and are available for public inspection at the Office of Special Education and Rehabilitative Services, United States Department of Education, 550 12th Street, SW., Washington, DC 20202, Monday–Friday during the hours of 8 a.m. to 4:30 p.m.

Additional Information

Individuals who will need accommodations for a disability in order to attend the meeting (e.g., interpreting services, assistive listening devices, or material in alternative format) should notify Elizabeth Shook at (202) 245–7642, no later than September 2, 2011. We will make every attempt to meet requests for accommodations after this date, but, cannot guarantee their availability. The meeting site is accessible to individuals with disabilities.

Members of the public who would like to offer comments remotely may submit written comments to AIMCommission@ed.gov or by mail to Advisory Commission on Accessible Instructional Materials in Postsecondary Education for Students with Disabilities, 550 12th St., SW., Room PCP–5113, Washington, DC 20202. All submissions will become part of the public record.

Members of the public also have the option of participating in the open meeting and public hearing remotely. Remote access will be provided via an internet webinar service utilizing VoIP (Voice Over Internet Protocol). For the September 8, 2011 portion of the meeting from 8:30 a.m.—5 p.m., the URL is https://aimpsc.ilinc.com/join/yv/bsvw. The login will be available to the public starting at 8 a.m. (Eastern). On September 9, the URL will be https://aimpsc.ilinc.com/join/ccctxjw for the Commission meeting from 8:30 a.m.—4:00 p.m., and the login will be open to public at 8 a.m. (Eastern).

Login information is also provided via the Commission’s public listserv at pscpublic@lists.cast.org and posted at the following site: http://www2.ed.gov/about/bdscomm/list/aim/index.html.

To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government Printing Office (GPO), toll free at 1–866–512–1800; or in the Washington, DC area at 202–512–0000.

Alexa Posny,
Assistant Secretary, Office of Special Education and Rehabilitative Services.

DEPARTMENT OF ENERGY
Office of Energy Efficiency and Renewable Energy

Faucets, Showerheads, Water Closets and Urinals

ACTION: Request for Information (RFI).

SUMMARY: On December 15, 2010, the U.S. Department of Energy (DOE or the Department) published a final rule waiving Federal preemption for energy conservation standards under 42 U.S.C. 6297(c) with respect to any State regulation concerning the water use or water efficiency of faucets, showerheads, water closets and urinals that is: (1) More stringent than Federal regulation concerning the water use or water efficiency for that same type or class of product; and (2) applicable to any sale or installation of all products in that particular type or class. In today’s notice, DOE requests information from interested parties regarding: State activity with respect to efficiency standards for these products undertaken as a result of the December 15, 2010 final rule; market data; and any new or emerging water-efficient product designs or technologies for faucets, showerheads, water closets and urinals. DOE also requests information regarding any recent actions taken by the American Society of Mechanical Engineers (ASME)/American National Standards Institute (ANSI) toward amending its water efficiency standards for these products. Additional input and suggestions relevant to these products are also welcome.

DATES: Written comments and information are requested by October 24, 2011.

ADDRESSES: Interested persons may submit comments in writing, identified by docket number EERE–2011–BT–NOA–0053, by any of the following methods:
• Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.
• E-mail: PlumbingProducts-2011-NOA–0053@ee.doe.gov. Include EERE–2011–BT–NOA–0053 in the subject line of the message.
Showerheads, Water Closets and Urinals

Products Other Than Automobiles, Conservation Program for Consumer

codified), established the Energy and Conservation Act (EPCA), Public

Disposal: All submissions received must include the agency name and docket number.

Docket: For access to the docket to read background documents or comments received, visit the U.S. Department of Energy, Resource Room of the Building Technologies Program, 950 L’Enfant Plaza, SW., Washington, DC 20024, (202) 586–2945, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. Please call Ms. Brenda Edwards at the above telephone number for additional information regarding visiting the Resource Room.

SUPPLEMENTARY INFORMATION:

Authority and Background

Title III, Part B of the Energy Policy and Conservation Act (EPCA), Public Law 94–163 (42 U.S.C. 6291–6309, as codified), established the Energy Conservation Program for Consumer Products Other Than Automobiles, which includes the faucets, showerheads, water closets and urinals that are the subjects of today’s notice. National standards for these products are based on the ASME/ANSI standards A112.18.1M, for showerheads and faucets, and A112.19.6, for water closets and urinals. 42 U.S.C. 6295(j), (k), 42 U.S.C. 6295(j)(3)(C) and 6295(k)(3)(C) require that, not later than six months after the conclusion of a five-year period during which the ASME/ANSI has not amended these

1 For editorial reasons, upon codification in the U.S. Code, Part B was re-designated Part A.

1 For editorial reasons, upon codification in the U.S. Code, Part B was re-designated Part A.

faucet, showerhead, water closet or

urinal standards to improve water

efficiency, DOE must waive preemption for Federal standards under 42 U.S.C.

6297(c) with respect to any State

regulation concerning the water use or

water efficiency of such type or class of

showerhead, faucet, water closet or

urinal if such State regulation meets the

following two conditions. First, the

State regulation concerning water use or

water efficiency for a particular type or

class of showerhead, faucet, water closet

or urinal must be more stringent than

the Federal regulation concerning water

use or water efficiency for that same
type or class of showerhead, faucet,

water closet or urinal. 42 U.S.C.

6295(j)(3)(C)[i], 6295(k)(3)(C)[i]. Second, the State regulation concerning

the water use or water efficiency for a

particular type or class of showerhead,

faucet, water closet or urinal must be

applicable to any sale or installation of

all products in that particular type or

class. 42 U.S.C. 6295(j)(3)(C)[ii],

6295(k)(3)(C)[ii]. ASME/ANSI last

made a substantive amendment to its standards regarding the water efficiency requirements for showerheads and faucets on May 29, 1996 (ASME/ANSI A112.18.1M–1996), and for water closets and urinals on April 19, 1996 (ASME/ANSI A112.19.6–1995). Both of these standards were incorporated by reference into the Code of Federal Regulations in a final rule issued by DOE on March 18, 1998. 63 FR 13308. Because more than five years passed since ASME/ANSI last amended the water efficiency requirements in either of these standards, on December 15, 2010, DOE issued a final rule waiving 42 U.S.C. 6297(c) with respect to any State regulation concerning the water use or water efficiency of a particular type or class of showerhead, faucet, water closet or urinal that is both more stringent than the relevant Federal regulation and is applicable to any sale or installation or all products in that particular type or class, effective December 22, 2010. In view of the above, DOE welcomes input and suggestions relevant to these

standards for these products. Additional input and suggestions relevant to these

products are also welcome.

Public Participation

A. Submission of Information

DOE will accept information and data in response to this Request for Information as provided in the DATES section above. Information submitted to the Department by e-mail should be provided in WordPerfect, Microsoft Word, PDF, or text file format. Those responding should avoid the use of special characters or any form of encryption, and wherever possible, comments should include the electronic signature of the author. Comments submitted to the Department by mail or hand delivery/courier should include one signed original paper copy. No telefacsimiles will be accepted. Comments submitted in response to this notice will become a matter of public record and will be made publicly available.

B. Issues on Which DOE Seeks Information

DOE is particularly interested in receiving comments from interested parties on the following issues:

(1) The development or establishment of water conservation standards for showerheads, faucets, water closets or urinals by States or their political subdivisions since DOE published the December 2010 final rule waiving Federal preemption for these products;

(2) Information regarding available models and sales of showerheads, faucets, water closets or urinals that exceed Federal energy conservation standards, and the amounts by which such models exceed the Federal standards;

(3) The existence and availability of new or emerging designs or technologies that (are expected to) improve the water efficiency of showerheads, faucets, water closets or urinals, and whether these designs or technologies (are expected to) have any impact on consumer utility and cost;

(4) Any recent actions that ASME/ANSI has taken in furtherance of amending its faucet, showerhead, water closet or urinal standards in order to improve the products’ water efficiency;

(5) Assistance and resources available from stakeholders, States, local jurisdictions, and others.
DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC11–588–001]

Commission Information Collection Activities [FERC–588]; Comment Request; Submitted for OMB Review

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice.

SUMMARY: In compliance with the requirements of section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507, the Federal Energy Regulatory Commission (Commission or FERC) has submitted the information collection described below to the Office of Management and Budget (OMB) for review of the information collection requirements. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below. The Commission issued a Notice in the Federal Register (76 FR 30928, 05/27/2011) requesting public comments. FERC received no comments on the FERC–588 and has made this notation in its submission to OMB.

DATES: Comments in consideration of the collection of information are due September 22, 2011.

ADDRESSES: Comments may be filed either electronically (eFiled) or in paper format, and should refer to Docket No. IC11–588–001. Documents must be prepared in an acceptable filing format and in compliance with Commission submission guidelines at: http://www.ferc.gov/help/submission-guide.asp. eFiling instructions are available at: http://www.ferc.gov/docs-filing/efiling.asp. First time users must follow eRegister instructions at: http://www.ferc.gov/docs-filing/eregistration.asp, to establish a username and password before eFiling. The Commission will send an automatic acknowledgement to the sender’s e-mail address upon receipt of eFiled comments. Commenters making an eFiling should not make a paper filing. Commenters that are not able to file electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, NE., Washington, DC 20426.

Users interested in receiving automatic notification of activity in this docket may do so through eSubscription at http://www.ferc.gov/docs-filing/esubscription.asp. In addition, all comments and FERC issuances may be viewed, printed or downloaded remotely through FERC’s eLibrary at http://www.ferc.gov/docs-filing/elibrary.asp, by searching on Docket No. IC11–588. For user assistance, contact FERC Online Support by e-mail at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3676 (toll-free), or (202) 502–8659 for TTY.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by e-mail at DataClearance@FERC.gov, telephone at (202) 502–8663, and fax at (202) 273–0873.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC–588, “Emergency Natural Gas Transportation, Sale and Exchange Transactions” (OMB No. 1902–0144), is used by the Commission to implement the statutory provisions of Sections 7(c) of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 USC 717–717w) and provisions of the Natural Gas Policy Act of 1978 (NGPA), 15 USC 3301–3432. Under the NGA, a natural gas company must obtain Commission approval to engage in the transportation, sale or exchange of natural gas in interstate commerce. However, Section 7(c) exempts from certificate requirements “temporary acts or operations for which the issuance of a certificate will not be required in the public interest.” The NGPA also provides for non-certificated interstate transactions involving intrastate pipelines and local distribution companies.

A temporary operation, or emergency, is defined as any situation in which an actual or expected shortage of gas supply would require an interstate pipeline company, intrastate pipeline, or local distribution company, or Hinshaw pipeline to curtail deliveries of gas or provide less than the projected level of service to the customer. The natural gas companies which provide the temporary assistance to the companies which are having the “emergency” must file the necessary information described in Part 284, Subpart I of the Commission’s Regulations with the Commission so that it may determine if their assisting transaction/operation qualifies for exemption. The assisting company may or may not be under the Commission’s jurisdiction and if their assisting actions qualify for the exemption, they will not become subject to the Commission’s jurisdiction for such actions.

A report within forty-eight hours of the commencement of the transportation, sale or exchange, a request to extend the sixty-day term of the emergency transportation, if needed, and a termination report are required. The data required to be filed for the forty-eight hour report is specified by 18 CFR 284.270.

Action: The Commission is requesting a three-year approval of the collection of data. This is a mandatory information collection requirement.

Burden Statement: Public reporting burden for this collection is estimated as follows:

<table>
<thead>
<tr>
<th>Number of respondents annually (1)</th>
<th>Number of responses per respondent (2)</th>
<th>Average burden hours per response (3)</th>
<th>Total annual burden hours (1) \times (2) \times (3)</th>
</tr>
</thead>
<tbody>
<tr>
<td>8</td>
<td>1</td>
<td>8</td>
<td>64</td>
</tr>
</tbody>
</table>

The estimated total cost to respondents is $4,381 (64 hours divided by 2,080 hours per employee per year times $142,372 per year average salary per employee = $4,381 (rounded)). The estimated annual cost per respondent is $548 (rounded).

The above hour and cost estimates are different than what was in the public notice published May 27, 2011. In that notice, the Commission erroneously used an average burden hours per response of 10 hours instead of 8 hours that is used here. By using the correct burden hour figure, the Commission notes that total annual burden and cost are less by 16 hours less and $1,095 as compared to the numbers in the May, 2011 notice. The corrected estimates are consistent with the burden estimates in the last submission to OMB.
