Industrial Classification System codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket ID number EPA–HQ–OPP–2010–0062. Publicly available docket materials are available either in the electronic docket at http://www.regulations.gov, or, if only available in hard copy, at the Office of Pesticide Programs, Regulatory Public Docket in Rm. S–4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305–5805.

II. Tentative Agenda Topics

1. What’s up with the Association of American Pesticide Control Officials regarding drift labeling?
2. Buffers for aerial application in forests—Pitch Fork Rebellion Petition—Update.
4. Fumigation Label Workgroup.
5. SCBA Requirements on Fumigation Labels Issue Paper.
6. Real World Web Distributed Labels—Which Model does SFIREG/Program Operations and Management Committee want EPA working on?
7. Regulatory issues with supplemental distributor labels—EPA’s Office of General Counsel determination on regulatory status.
8. Distinct labeling project: Developing labels that more clearly differentiate enforceable and advisory language.
9. What are EPA’s plans for high yield enforcement actions?
10. Supplemental distributor labels enforcement initiative.
11. Status of Program Accountability and Results Tracking Measures Re-evaluation.
12. Status of the National Pollution Discharge Elimination System permit process.

III. How can I request to participate in this meeting?

This meeting is open for the public to attend. You may attend the meeting without further notification.

List of Subjects

Environmental protection.

Dated: August 2, 2011.

Robert C. McNally,
Acting Director, Field External Affairs Division, Office of Pesticide Programs.

[FR Doc. 2011–21369 Filed 8–23–11; 8:45 am]
meeting the “reasonable certainty of no harm standard” of the Federal Food, Drug, and Cosmetic Act (FFDCA).

In this document: EPA identifies the State or Federal agency granted the exemption, the type of exemption, the pesticide authorized and the pests, the crop or use for which authorized, number of acres (if applicable), and the duration of the exemption. EPA also gives the Federal Register citation for the time-limited tolerance, if any.

III. Emergency Exemptions

A. U.S. States and Territories

Arkansas
State Plant Board

Specific Exemption: EPA authorized the use of hop beta acids in beehives to control varroa mite; March 8, 2011 to December 31, 2011. Since this request proposed the use of a new chemical, which has not been registered by EPA, a notice of receipt published in the Federal Register on November 17, 2010 (75 FR 70236) with the public comment period closing on December 2, 2010. This request was also granted to CA, CO, GA, HI, ID, IA, LA, MD, MN, MS, NE, ND, OR, TX, WA, WV, WY because the varroa mite is a highly destructive pest and is having a catastrophic effect on honey bee populations. The parasitic mite is considered the primary pest of honeybees and its control is necessary for successful beekeeping. Further, currently available registered products no longer successfully control varroa mites because repeated use has contributed to widespread development of mite resistance. Contact: Stacey Groce.

California
Environmental Protection Agency, Department of Pesticide Regulation

Quarantine Exemption: EPA authorized the use of chlorophene to disinfect hard surfaces which may be contaminated with prions; May 2, 2011 to May 2, 2014. Contact: Princess Campbell.

Specific Exemptions: EPA authorized the use of bosalid on Belgian endive to control sclerotinia (Sclerotinia sclerotiorum); October 14, 2010 to February 15, 2011. Contact: Stacey Groce.

EPA authorized the use of pyraclostrobin on Belgian endive to control sclerotinia (sclerotinia sclerotiorum); October 14, 2010 to February 15, 2011. Contact: Stacey Groce.

EPA authorized the use of mancozeb on walnut to control walnut blight; February 24, 2011 to June 15, 2011. Contact: Libby Pemberton.

EPA authorized the use of naphthaleneacetic acid-ester on avocado for sprout inhibition; April 15, 2011 to April 15, 2012. Contact: Keri Grinstead.

EPA authorized the use of propiconazole on peach and nectarine to control sour rot; May 16, 2011 to November 30, 2011. Contact: Andrea Conrath.

EPA authorized the use of hop beta acids in beehives to control varroa mite; June 7, 2011 to December 31, 2011. Contact: Stacey Groce.

Colorado
Department of Agriculture

Specific Exemptions: EPA authorized the use of fenpyroximate in beehives to control varroa mite; November 4, 2010 to September 30, 2011. Contact: Stacy Groce.

EPA authorized the use of hop beta acids in beehives to control varroa mite; March 8, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of abamectin on dry bulb onion to control thrips; March 8, 2011 to September 30, 2011. Contact: Keri Grinstead.

EPA authorized the use of spirotetramat on dry bulb onion to control thrips; March 8, 2011 to September 30, 2011. Contact: Keri Grinstead.

Delaware
Department of Agriculture

Specific Exemptions: EPA authorized the use of anthraquinone on corn field and sweet, seed to repel blackbird species and crow; April 20, 2011 to April 18, 2012. Contact: Marcel Howard.

EPA authorized the use of dinoflufen on stone and pome fruit to control brown marmorated stink bug; June 24, 2011 to October 15, 2011. Contact: Marcel Howard.

Florida
Department of Agriculture and Consumer Services

Crisis: On March 14, 2011 for the use of anthraquinone on rice, seed to repel blackbirds; this program is ongoing, and may continue for up to one year (to March 12, 2012) under a pending specific exemption request submitted by the state. Contact: Marcel Howard.

Specific Exemptions: EPA authorized the use of anthraquinone on corn, field and sweet, seed to repel blackbird species and grackle; March 14, 2011 to March 14, 2012. Contact: Marcel Howard.

Quarantine Exemption: EPA authorized the use of propiconazole on avocado to control Laurel Wilt; December 18, 2011 to December 18, 2013. Contact: Andrea Conrath.

Georgia
Department of Agriculture

Specific Exemption: EPA authorized the use of hop beta acids in beehives to control varroa mite; May 27, 2011 to December 31, 2011. Contact: Stacey Groce.

Hawaii
Department of Agriculture

Specific Exemptions: EPA authorized the use of linuron on pineapple to control saprophytic mold; August 26, 2010 to August 26, 2011. Contact: Andrea Conrath.

EPA authorized the use of hop beta acids in beehives to control varroa mite; May 17, 2011 to December 31, 2011. Contact: Stacey Groce.

Idaho
Department of Agriculture

Specific Exemptions: EPA authorized the use of hop beta acids in beehives to control varroa mite; February 7, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of linuron on lentil to control dog fennel, prickly lettuce; March 8, 2011 to June 20, 2011. Contact: Andrea Conrath.

EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 8, 2011 to September 15, 2011. Contact: Keri Grinstead.

EPA authorized the use of abamectin on onion, dry bulb to control thrips; June 24, 2011 to September 15, 2011. Contact: Keri Grinstead.

Illinois
Department of Agriculture

Specific Exemptions: EPA authorized the use of fenpyroximate in beehives to control varroa mite; September 30, 2010 to September 30, 2011. Contact: Stacy Groce.

EPA authorized the use of cyazofamid on basil to control downy mildew; May 5, 2011 to October 15, 2011. Contact: Marcel Howard.

Iowa
Department of Agriculture and Land Stewardship

Specific Exemptions: EPA authorized the use of hop beta acids in beehives to control varroa mite; May 17, 2011 to December 31, 2011. Contact: Stacey Groce.
Kentucky
Department of Agriculture
Specific Exemptions: EPA authorized the use of fenpyroximate in beehives to control varroa mite; September 24, 2010 to September 30, 2011. Contact: Stacey Groce.

Louisiana
Department of Agriculture and Forestry
Crisis: On July 7, 2010 for the use of bifenthrin on sugarcane to control spider mites; this program ended on July 22, 2010. Contact: Andrea Conrath.
Specific Exemptions: EPA authorized the use of anthraquinone on corn, sweet and field, seed to repel blackbird species and crow; February 24, 2011 to February 23, 2012. Contact: Marcel Howard.
EPA authorized the use of hop beta acids in beehives to control varroa mites; March 11, 2011 to December 31, 2011. Contact: Stacey Groce.
EPA authorized the use of anthraquinone on rice, seed to repel blackbirds; April 21, 2011 to April 18, 2012. Contact: Marcel Howard.

Maryland
Department of Agriculture
EPA authorized the use of dinotefuran on stone and pome fruit to control brown marmorated stink bug; June 24, 2011 to October 15, 2011. Contact: Marcel Howard.

Massachusetts
Department of Food and Agriculture
Specific Exemption: EPA authorized the use of quinclorac on cranberry to control dodder; March 11, 2011 to July 31, 2011. Contact: Marcel Howard.

Michigan
Department of Agriculture
Specific Exemptions: EPA authorized the use of anthraquinone on corn, field and sweet, seed, to repel sandhill crane; February 25, 2011 to January 21, 2012. Contact: Marcel Howard.
EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 8, 2011 to September 30, 2011. Contact: Keri Grinstead.
EPA authorized the use of kasugamycin on apple to control fire blight; April 6, 2011 to April 1, 2012. Since the applicant proposed the use of a new chemical which has not been registered by the EPA, a Notice of Receipt was published in the Federal Register on March 2, 2011 (76 FR 11454). The rationale for emergency approval of this use is that kasugamycin is needed to control streptomycin-resistant strains of Erwinia amylovora, the causal pathogen of fire blight, due to the lack of available alternatives and effective control practices. Without the use of kasugamycin and if weather conditions are present which favor a fire blight disease epidemic, it is likely that Michigan apple growers could suffer 50% yield losses. Contact: Keri Grinstead.
EPA authorized the use of abamectin on onion, dry bulb to control thrips; April 15, 2011 to March 31, 2012. Contact: Keri Grinstead.

Minnesota
Department of Agriculture
Specific Exemptions: EPA authorized the use of abamectin on onion, dry bulb to control thrips; July 12, 2010 to September 15, 2010. Contact: Keri Grinstead.
EPA authorized the use of spirotetramat on onion, dry bulb, to control thrips; July 12, 2010 to September 15, 2010. Since this request proposed the use of a chemical whose registration had been canceled, a Notice of Receipt was published in the Federal Register on July 30, 2010 (75 FR 44946). The rationale for emergency approval of this use is that onion thrips are sucking insects which both directly damage the crop and also vector the plant disease Iris Yellow Spot Virus. The use of spirotetramat is necessary to ensure thrips control in areas experiencing thrips resistance to available alternatives and, in particular, where 6–8 seasonal applications of alternative pesticides are required to achieve adequate control. Contact: Keri Grinstead.
EPA authorized the use of anthraquinone on corn, field and sweet, seed, to repel sandhill crane; February 18, 2011 to February 26, 2012. Contact: Marcel Howard.

Mississippi
Department of Agriculture and Commerce
Specific Exemptions: EPA authorized the use of fenpyroximate in beehives to control varroa mite; October 15, 2010 to September 30, 2011. Contact: Stacey Groce.
EPA authorized the use of hop beta acids in beehives to control varroa mite; March 8, 2011 to December 31, 2011. Contact: Stacey Groce.

Missouri
Department of Agriculture
Specific Exemption: EPA authorized the use of fenpyroximate in beehives to control varroa mite; September 30, 2010 to September 30, 2011. Contact: Stacey Groce.

Nebraska
Department of Agriculture
Specific Exemption: EPA authorized the use of abamectin on onion, dry bulb to control thrips; February 24, 2011 to February 23, 2012. Contact: Marcel Howard.

New Jersey
Department of Environmental Conservation
Specific Exemption: EPA authorized the use of dinotefuran on stone and pome fruit to control brown marmorated stink bug; June 24, 2011 to October 15, 2011. Contact: Marcel Howard.

New York
Department of Environmental Protection
Specific Exemption: EPA authorized the use of abamectin on onion, dry bulb to control thrips; February 4, 2011 to September 15, 2011. Contact: Keri Grinstead.
EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 21, 2011 to September 30, 2011. Contact: Keri Grinstead.

North Carolina
Department of Agriculture and Consumer Services
Specific Exemption: EPA authorized the use of dinotefuran on stone and pome fruit to control brown marmorated stink bug; June 24, 2010 to October 15, 2011. Contact: Marcel Howard.
North Dakota
Department of Agriculture

Oregon
Department of Agriculture
Specific Exemption: EPA authorized the use of fenoxaprop-p-ethyl on grasses grown for seed to control annual grass weeds; February 4, 2011 to September 15, 2011. Contact: Andrea Conrath.

EPA authorized the use of hop beta acids in beehives to control varroa mite; February 7, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 21, 2011 to September 15, 2011. Contact: Keri Grinstead.

EPA authorized the use of bifenthrin on orchardgrass to control orchardgrass billbug; April 6, 2011 to November 15, 2011. Contact: Andrea Conrath.

EPA authorized the use of abamectin on onion, dry bulb to control thrips; June 24, 2011 to September 15, 2011. Contact: Keri Grinstead.

EPA authorized the use of fipronil on turnip and rutabaga to control cabbage maggot. Since this request proposed a use which is IR4-supported, has been requested in 5 or more previous years, and a petition for tolerance has not been submitted to the Agency, a Notice of Receipt was published in the Federal Register on April 6, 2011 (76 FR 19093). The rationale for emergency approval of this use is that no pesticides or practices are currently available for use in turnip and rutabaga, to provide adequate control of cabbage maggots. If not controlled, this insect pest is expected to cause significant yield and economic losses due to their damaging effects from feeding on the turnip and rutabaga roots. June 24, 2011 to September 30, 2011. Contact: Andrea Conrath.

Pennsylvania
Department of Agriculture
Specific Exemption: EPA authorized the use of dinotefuran on rice to control rice stink bug (Oebalus pugnax); April 5, 2011, to October 30, 2011. Since this request proposed a use which has been requested in 3 or more previous years, and a petition for tolerance has not yet been submitted to the Agency a Notice of Receipt was published in the Federal Register on March 2, 2011 (76 FR 11453) with the public comment period closing on March 17, 2011. This request was granted because the Applicant demonstrated that rice stink bug resistance is occurring in several areas. In addition, the current weather conditions are contributing to urgent and non-routine pest problems. Rice growers would likely incur a significant economic loss without use of dinotefuran. Contact: Libby Pemberton.

EPA authorized the use of fenpyroximate in beehives to control varroa mite; April 8, 2011 to September 30, 2011. Contact: Stacey Groce.

EPA authorized the use of hop beta acids in beehives to control varroa mite; April 15, 2011 to December 31, 2011. Contact: Stacey Groce.

Utah
Department of Agriculture and Food
Specific Exemptions: EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 21, 2011 to September 1, 2011. Contact: Keri Grinstead.

EPA authorized the use of anthraquinone on corn, field and sweet, seed, to repel ring-necked pheasant; April 5, 2011 to April 5, 2012. Contact: Marcel Howard.

Washington
Department of Agriculture
Specific Exemptions: EPA authorized the use of lambda-cyhalothrin on asparagus to control aphids; August 31, 2010 to September 30, 2010. Contact: Libby Pemberton.

EPA authorized the use of hop beta acids in beehives to control varroa mites; February 7, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of linuron on lentil to control dog fennel, prickly lettuce; March 8, 2011 to June 20, 2011. Contact: Andrea Conrath.

EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; March 21, 2011 to October 31, 2011. Contact: Keri Grinstead.

EPA authorized the use of abamectin on onion, dry bulb to control thrips; June 21, 2011 to September 15, 2011. Contact: Keri Grinstead.

EPA authorized the use of dinotefuran on stone and pome fruit to control brown marmorated stink bug; June 24, 2011 to October 15, 2011. Contact: Marcel Howard.

West Virginia
Department of Agriculture
Specific Exemptions: EPA authorized the use of lambda-cyhalothrin on asparagus to control aphids; August 31, 2010 to September 30, 2010. Contact: Libby Pemberton.

EPA authorized the use of hop beta acids in beehives to control varroa mites; February 7, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of thiabendazole on stone and pome fruit to control brown marmorated stink bug; June 24, 2011 to October 15, 2011. Contact: Marcel Howard.

Wisconsin
Department of Agriculture, Trade, and Consumer Protection
Crisis: On August 16, 2010 for the use of pyrethrin on aquatic sites to control red swamp crayfish; this program ended on August 31, 2010. Contact: Stacey Groce.

Specific Exemptions: EPA authorized the use of chlorpyrifos on ginseng to control soil larvae (rootworms,
wireworms, grubs, cutworms); August 9, 2010 to November 15, 2010. Contact: Stacey Groce.

EPA authorized the use of antracquinone on corn, field and sweet, seed, to repel sandhill crane; March 31, 2011 to March 23, 2012. Contact: Marcel Howard.

EPA authorized the use of abamectin on onion, dry bulb to control thrips; May 16, 2011 to September 15, 2011. Contact: Keri Grinstead.

EPA authorized the use of spirotetramat on onion, dry bulb to control thrips; May 16, 2011 to September 15, 2011. Contact: Keri Grinstead.

Wyoming

Department of Agriculture

Specific Exemption: EPA authorized the use of hop beta acids in beehives to control varroa mites; April 7, 2011 to December 31, 2011. Contact: Stacey Groce.

EPA authorized the use of diflubenzuron in alfalfa for control of various grasshopper and cricket species. Since this request proposed a use which is IR4-supported, has been requested in 5 or more previous years, and a petition for tolerance has not been submitted to the Agency, a Notice of Receipt was published in the Federal Register on November 12, 2009 (74 FR 58287). The rationale for emergency approval of this use is to limit the distribution of these invasive species infestations which are causing physical obstruction of flow in water conveyance systems reducing delivery capacities, pumping capabilities, and hydropower generation functions. Contact: Keri Grinstead.

National Aeronautics and Space Administration

Specific Exemption: EPA authorized the use of ortho-phthalaldehyde in the International Space Station to control microbacteria; April 15, 2011 to April 13, 2012. Contact: Debra Rate.

Environmental Protection Agency

Student Services Contract EP–11–D–000403 Yin Gu; Transfer of Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that pesticide related information submitted to EPA’s Office of Pesticide Programs (OPP) pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), including information that may have been claimed as Confidential Business Information (CBI) by the submitter, will be transferred to Student Services Contract EP–11–D–000403 Yin Gu in accordance with 40 CFR 2.307(h)(3) and 2.308(i)(2). Student Services Contract EP–11–D–000403 Yin Gu has been awarded multiple contracts to perform work for OPP, and access to this information will enable Student Services Contract EP–11–D–000403 Yin Gu to fulfill the obligations of the contract.

DATES: Student Services Contract EP–11–D–000403 Yin Gu will be given access to this information on or before August 29, 2011.

FOR FURTHER INFORMATION CONTACT: Mario Steadman, Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 305–8338; e-mail address: steadman.mario@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action applies to the public in general. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2011–0038. Publicly available docket materials are available either in the electronic docket at http://www.regulations.gov, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S–4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305–5805.

II. Contractor Requirements

Under this contract number, the contractor will perform the following: Under Contract No. Student Services Contract EP–11–D–000403 Yin Gu will analyze chemical form and concentration in sub-cellular samples, tissues, and exposure media, and prepare solutions for chemical dosing and concentration analyses as requested. The student will process and...
