

SUMMARY: EPA issued a notice in the **Federal Register** of Wednesday, July 6, 2011, concerning the availability of the chlorpyrifos registration review; preliminary human health risk assessment. This document extends the comment period for 30 days, from Tuesday, September 6, 2011 to Thursday, October 6, 2011.

DATES: Comments, identified by docket identification (ID) number EPA-HQ-OPP-2008-0850, must be received on or before Thursday, October 6, 2011.

ADDRESSES: Follow the detailed instructions as provided under **ADDRESSES** in the **Federal Register** document of Wednesday, July 6, 2011.

FOR FURTHER INFORMATION CONTACT: Tom Myers, Pesticide Re-evaluation Division, Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; *telephone number:* (703) 308-8589; *e-mail address:* myers.tom@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment period for the chlorpyrifos reregistration review, preliminary human health risk assessment, established in the **Federal Register** of Wednesday, July 6, 2011 (76 FR 39399) (FRL-8878-9). The document announced the availability of the human health assessment, along with all supporting documents, and commenced a 60-day public comment period that would end on September 6, 2011.

This preliminary assessment incorporates new information that was not available at the time of the last assessment in 2000. Since 2000, several Scientific Advisory Panels have been held specifically on chlorpyrifos and some of the Agency's science policies and methods have changed. Based on the extant data and assumptions made in the preliminary assessment, risks have been preliminarily identified for drinking water, handlers, and residential bystanders. A Reader's Guide accompanied the preliminary human health assessment that detailed some of these exposure assumptions and remaining evaluations needed on the hazard assessment.

As of early August, eight comments have been submitted to the EPA docket requesting a 60-day extension of the comment period based on the complex scientific issues and precedent setting policy applications. The submitters are Dow AgroSciences, Gharda Chemicals Limited, Agricultural Retailers Association, California Citrus Mutual, California Grape and Tree Fruit League, Oregonians for Food and Shelter, CropLife America and the Washington Friends of Farms and Forests.

In recognition of the complex, robust scientific database and mechanistic studies available for chlorpyrifos, the Agency will extend the public comment period by 30 days to end on October 6, 2011. Subsequent to this public comment period, the Agency will be revising the human health assessment based on a full weight of the evidence evaluation of all available data, and consideration of all comments received during the comment period as well as any additional information received on the health and exposure analyses. EPA is hereby extending the comment period, which was set to end on Tuesday, September 6, 2011, to Thursday, October 6, 2011.

To submit comments, or access the docket, please follow the detailed instructions as provided under **ADDRESSES** in the Wednesday, July 6, 2011 **Federal Register** document. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Williams Four Corners, LLC, Sims Mesa CDP Compressor Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking EPA to object to an operating permit (Permit Number P026R2) issued by the New Mexico Environment Department, Air Quality Bureau (NMED). Specifically, the Administrator has granted the April 14, 2010 petition, submitted by WildEarth Guardians and San Juan Citizens Alliance (Petitioners) to object to the March 19, 2010, operating permit issued to Williams Four Corners, LLC, for the Sims Mesa Central Delivery Point (CDP) compressor station in northwestern Rio

Arriba County, New Mexico. Pursuant to sections 307(b) and 505(b)(2) of the Clean Air Act (CAA), a petition for judicial review of those parts of the Order that deny issues in the petition may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice appears in the **Federal Register**.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733. EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order for the Williams Four Corners, LLC, Sims Mesa CDP Compressor Station is available electronically at: http://www.epa.gov/region07/air/title5/petitiondb/petitions/simsmesa_response2010.pdf

FOR FURTHER INFORMATION CONTACT:

Jeffrey Robinson at (214) 665-7250, *e-mail address:* robinson.jeffrey@epa.gov or the above EPA, Region 6 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object to as appropriate, a Title V operating permit proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a Title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issue arose after this period.

EPA received a petition from the Petitioners dated April 14, 2010, requesting that EPA object to the issuance of the Title V operating permit to Williams Four Corners, LLC., for the operation of the Sims Mesa CDP Compressor Station in northwestern Rio Arriba County, New Mexico for the following reasons: (1) The Title V permit fails to ensure compliance with the Prevention of Significant Deterioration and Title V requirements; (2) the Title V permit fails to ensure prompt reporting of deviations; (3) the

Title V permit fails to require sufficient periodic monitoring; and (4) Condition 6.1.1 of the Title V permit is contrary to applicable requirements.

On July 29, 2011, the Administrator issued an order granting the petition. The order explains the reasons behind EPA's conclusion to grant the petition.

Dated: August 16, 2011.

Al Armendariz,

Regional Administrator, Region 6.

Clean Water Act Section 303(d): Final Agency Action on 16 Total Maximum Daily Loads (TMDLs) in Arkansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the final agency action on 16 TMDLs established by EPA Region 6 for waters listed in the State of Arkansas, under section 303(d) of the Clean Water Act (CWA). Documents from the administrative record files for the final 16 TMDLs, including TMDL calculations may be viewed at [http://](http://www.epa.gov/region6/water/npdes/tmdl/index.htm)

www.epa.gov/region6/water/npdes/tmdl/index.htm.

ADDRESSES: The administrative record files for these 16 TMDLs may be obtained by writing or calling Ms. Diane Smith, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733. Please contact Ms. Smith to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: Diane Smith at (214) 665-2145.

EPA Takes Final Agency Action on 16 TMDLs

By this notice EPA is taking final agency action on the following 16 TMDLs for waters located within the State of Arkansas:

Segment-reach	Waterbody name	Pollutant
08040202-006	Bayou de L'Outre	Chloride, Sulfate, TDS.
08040202-007	Bayou de L'Outre	Chloride, Sulfate, TDS.
08040202-008	Bayou de L'Outre	Chloride, Sulfate, TDS.
08040203-010	Saline River	TDS.
08040204-006	Saline River	TDS.
08040206-015	Big Cornie Creek	Sulfate.
08040206-016	Little Cornie Creek	Sulfate.
08040206-716	Little Cornie Bayou	Sulfate.
08040206-816	Little Cornie Bayou	Sulfate.
08040206-916	Walker Branch	Sulfate

EPA requested the public to provide EPA with any significant data or information that might impact the 16 TMDLs at **Federal Register** Notice: Volume 72, Number 241, pages 71409 and 71410 (December 17, 2007). The comments, EPA's response to comments, and the TMDLs may be found at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm>.

Dated: August 16, 2011

William K. Honker,

2435; *e-mail address:* aapco-sfireg@comcast.net.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are interested in pesticide regulation issues affecting States and any discussion between EPA and SFIREG on the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) field implementation issues related to human health, environmental exposure to pesticides, and insight into EPA's decision-making process. You are invited and encouraged to attend the meetings and participate as appropriate. Potentially affected entities may include, but are not limited to: Those persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug and Cosmetics Act (FFDCA), or FIFRA and those who sell, distribute or use pesticides, as well as any non government organization.

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American
