A request for a hearing or petition for leave to intervene may be filed within thirty days after publication of this notice in the Federal Register. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520.

A request for a hearing or petition for leave to intervene may be filed with the NRC electronically in accordance with NRC’s E-Filing rule promulgated in August 2007, 72 FR 49139 (Aug. 28, 2007). Information about filing electronically is available on the NRC’s public Web site at http://www.nrc.gov/site-help/e-submittals.html. To ensure timely electronic filing, at least 5 (five) days prior to the filing deadline, the petitioner/requestor should contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415–1677, to request a digital ID certificate and allow for the creation of an electronic docket.

In addition to a request for hearing or petition for leave to intervene, written comments, in accordance with 10 CFR 110.81, should be submitted within thirty (30) days after publication of this notice in the Federal Register to Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Rulemaking and Adjudications.

**BILLING CODE 7590–01–P**

**NUCLEAR REGULATORY COMMISSION**

[NRC–2011–0191]

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Draft license renewal guidance; request for comment.

**SUMMARY:** The NRC requests public comment on Draft License Renewal Interim Staff Guidance (LR–ISG), LR–ISG–2011–05, “Ongoing Review of Operating Experience.” This LR–ISG provides guidance and clarification concerning ongoing review of plant-specific and industry-wide operating experience as an attribute of aging management programs used at nuclear power plants for compliance with Title 10 of the Code of Federal Regulations (10 CFR) part 54, “Requirements for Renewal of Operating Licenses for Nuclear Power Plants.”

**DATES:** Comments must be filed no later than September 23, 2011. Comments received after this date will be considered, if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID NRC–2011–0191 in the subject line of your comments. For additional instructions on submitting comments and instructions on accessing documents related to this action, see “Submitting Comments and Accessing Information” in the SUPPLEMENTARY INFORMATION section of this document. You may submit comments by any one of the following methods:

- Mail comments to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: TWB–05–B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.
- Fax comments to: RADB at 301–492–3446.

**SUPPLEMENTARY INFORMATION:**

**Submitting Comments and Accessing Information**

Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site, http://www.regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

You can access publicly available documents related to this document using the following methods:

The NRC issues LR–ISGs to address emergent issues not covered in license renewal guidance documents, such as the GALL Report and SRP–LR. In this way, the NRC staff and stakeholders may use the guidance in an LR–ISG document before it is incorporated into a formal license renewal guidance document revision. The NRC staff issues LR–ISG in accordance with the LR–ISG Process, Revision 2 (ADAMS Accession No. ML100920158), for which a notice of availability was published in the Federal Register on June 22, 2010 (75 FR 35510).

The NRC staff has developed draft LR–ISG–2011–05 to clarify guidance on how the ongoing review of operating experience should be used to ensure the effectiveness of the license renewal aging management programs. While the SRP–LR states that an acceptable aging management program should include the ongoing review of operating experience, the program descriptions in the GALL Report do not reflect this guidance. As such, the NRC staff is proposing revisions to the LR–ISG to better align them with the guidance in the SRP–LR. The NRC staff is also proposing to revise its review procedures and acceptance criteria for comparing aging management review results with the GALL Report to better address this issue. In addition, the NRC staff is proposing to clarify the SRP–LR’s description of the operating experience program element. One reason for this clarification is to better describe how license renewal applicants should obligate themselves to the ongoing review of operating experience for license renewal.

The NRC staff’s proposed guidance addresses the ongoing review of operating experience as a generic activity applicable to all license renewal aging management programs. The NRC staff believes that this approach is consistent with how nuclear power plant licensees currently implement operating experience review activities. In addition, the NRC staff is proposing that licensees may credit these existing operating experience review activities, provided they ensure that these existing activities are appropriate for reviewing operating experience specifically related to aging management.

Proposed Action

By this action, the NRC is requesting public comments on draft LR–ISG–2011–05. This LR–ISG proposes certain revisions to NRN guidance on implementation of the requirements in 10 CFR part 54. The NRC staff will make a final determination regarding issuance of the LR–ISG after it considers any public comments received in response to this request.
