

(Pub. L. 104–13), NARA invites the general public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) Whether the proposed collection information is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. The comments that are submitted will be summarized and included in the NARA request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Request Pertaining to Military Records.

OMB number: 3095–0029.

Agency form number: SF 180.

Type of review: Regular.

Affected public: Veterans, their authorized representatives, state and local governments, and businesses.

Estimated number of respondents: 1,028,769.

Estimated time per response: 5 minutes.

Frequency of response: On occasion (when respondent wishes to request information from a military personnel record).

Estimated total annual burden hours: 85,731 hours.

Abstract: The authority for this information collection is contained in 36 CFR 1233.18. In accordance with rules issued by the Department of Defense (DOD) and Department of Homeland Security (DHS, U.S. Coast Guard), the National Personnel Records Center (NPRC) of the National Archives and Records Administration (NARA) administers military service records of veterans after discharge, retirement, and death. When veterans and other authorized individuals request information from or copies of documents in military service records, they must provide in forms or in letters certain information about the veteran and the nature of the request. Federal agencies, military departments, veterans, veterans' organizations, and the general public use Standard Forms (SF) 180, Request Pertaining to Military Records, in order to obtain information

from military service records stored at NPRC. Veterans and next-of-kin of deceased veterans can also use eVetRecs (http://www.archives.gov/research_room/vetrecs/) to order copies.

Dated: August 18, 2011.

Michael L. Wash,

Executive for Information Services/CIO.

BILLING CODE 7535–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2011–0166; Docket Numbers 50–352 and 50–353]

Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Facility Operating License Nos. NPF–39 and NPF–85 for an Additional 20-Year Period, Exelon Generation Company, LLC, Limerick Generating Station

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of operating licenses NPF–39 and NPF–85, which authorizes Exelon Generation Company, LLC (EXELON), to operate the Limerick Generating Station (LGS) Unit 1 at 3515 megawatts thermal and LGS Unit 2 at 3515 megawatts thermal, respectively. The renewed licenses would authorize the applicant to operate LGS, Units 1 and 2, for an additional 20 years beyond the period specified in the current license. LGS Units 1 and 2 are located in Limerick, PA; the current operating license for LGS Unit 1 expires on October 26, 2024, and LGS Unit 2 expires on June 22, 2029.

EXELON submitted the application dated June 22, 2011, pursuant to Title 10, Part 54, of the Code of Federal Regulations (10 CFR part 54), to renew operating licenses NPF–39 and NPF–85. A notice of receipt and availability of the license renewal application (LRA) was published in the **Federal Register** on July 26, 2011 (76 FRN 44624).

The Commission's staff has determined that EXELON has submitted sufficient information in accordance with 10 CFR 54.19, 54.21, 54.22, 54.23, 51.45, and 51.53(c), to enable the staff to undertake a review of the application, and that the application is therefore acceptable for docketing. The current Docket Numbers, 50–352 and 50–353, for operating license numbers NPF–39 and NPF–85, respectively, will be retained. The determination to accept the LRA for docketing does not constitute a determination that a renewed license should be issued, and does not preclude the NRC staff from requesting additional information as the review proceeds.

Before issuance of the requested renewed licenses, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. In accordance with 10 CFR 54.29, the NRC may issue a renewed license on the basis of its review if it finds that actions have been
